## **Independent Auditors' Report**

The Board of Trustees  
Odessa College District  
Odessa, Texas

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of Odessa College District (the "District") as of and for the years ended August 31, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the District as of August 31, 2020 and 2019, and the respective changes in financial position, and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## ***Other Matters***

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 – 22, the Schedule of District's Proportionate Share of Net Pension Liability on page 62, the Schedule of District's Contributions for Pensions to the Teachers Retirement System Pension Plan of the State of Texas on page 63, the Schedule of District's Proportionate Share of Net OPEB Liability from Employee Retirement System of State of Texas Retiree Health Plan on page 64 and the Schedule of District's Contributions to OPEB from Employee Retirement System of State of Texas Retiree Health Plan on page 65 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Other Information***

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The organizational data and statistical supplement on pages 80 through 98 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirement of Federal Awards, and is also not a required part of the basic financial statements. The accompanying schedule of expenditures of state awards is presented for purposes of additional analysis as required by the *Provisions of the State of Texas Single Audit Circular*, and is not a required part of the basic purpose financial statements. In addition, the supplementary data presented in schedules A, B, C and D is presented for additional purposes and is not a required part of the basic financial statements.

***Other Matters (Continued)***

The schedules of expenditures of federal and state awards (Schedules E & F) and Schedules A, B, C and D are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of expenditures of federal awards and the schedule of expenditures of state awards and Schedules A, B, C and D are fairly stated in all material respects in relation to the basic financial statements as a whole.

The Organizational Data and Statistical Supplement have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

***Audit Firm Merger***

The financial statements of the District as of and for the year ended August 31, 2019, were audited by Johnson, Miller & Co., CPA's PC, who merged with Whitley Penn LLP as of November 16, 2020, and whose report dated November 26, 2019, expressed an unmodified opinion on those statements.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 1, 2020, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## **Management's Discussion and Analysis**

### **INTRODUCTION**

The Management's Discussion and Analysis provides an overview of the Odessa College District's ("the District") financial activities for the years ended August 31, 2020 (Fiscal Year 2020), 2019 (Fiscal Year 2019), and 2018 (Fiscal Year 2018). In conformity with Government Accounting Standards Board (GASB) Statement No. 34, the discussion focuses on currently known facts, decisions, and conditions and is intended to assist the reader in the interpretation of the financial statements and notes that follow this analysis.

### **FINANCIAL AND ENROLLMENT HIGHLIGHTS**

- During 2018, the district implemented a new accounting principal required by GASB Statement 75, requiring governmental employers to measure and report the liabilities associated with postemployment benefits other than pensions (or OPEB). Reported OPEBs may include post-retirement medical, pharmacy, dental, vision, life, long-term disability and long-term care benefits that are not associated with a pension plan. This required the District to record its proportionate share of the Employees Retirement Systems of Texas (ERS) net OPEB liability, deferred outflows and deferred inflows of resources, and current OPEB expenses. GASB 75 requires two new supplementary schedules, which can be found on pages 64 and 65 of this report.
- The implementation of GASB 75 required a restatement of beginning net position for the 2018 fiscal year from \$55.7 million to \$21.7 million, a decrease of \$34.0 million. As a result, certain components of the Statement of Net Position cannot be compared to prior years.
- The District's net financial position increased during 2020 as total revenues exceeded total expenses by \$8.6 million. Revenues exceeded expenses by \$10 million and \$9.6 million in fiscal years 2019 and 2018, respectively.
- Capital assets (net of depreciation) increased by approximately \$201,000 in 2020, by \$6,200,000 in 2019, and by \$234,000 in 2018. The increases resulted primarily from construction and equipment purchases related to the Vision 2015 campus improvement program.
- The District's total bonded debt decreased during fiscal year 2020 by \$4.3 million, or 6.2%, to \$64.2 million. Debt decreased by \$4.1 million and \$4.0 million at the end of fiscal years 2019 and 2018, respectively.
- The net taxable property values in the District increased by approximately \$2.0 billion, or 15% in 2020, after increasing by approximately \$1.0 billion, or 7.6%, in 2019, and increasing by \$.3 billion, or 2.7%, in 2018.
- Total tax revenues increased by \$2 million, or 7.3%, to \$30.1 million in 2020, compared to tax revenues of \$28.1 million and \$27.2 million in 2019 and 2018, respectively.
- Total semester hours for credit classes increased by 2.8% to 128,475 in 2020, compared to 124,930 in 2019, and 121,149 in 2018, respectively.
- Total contact hours from credit and noncredit instruction increased by 1.4% to 2,761,583 in 2020, compared to 2,722,700 in 2019, and 2,585,212 in 2018. The overall increase in 2020 was attributed to an increase in enrollment.

## **BASIC FINANCIAL STATEMENTS**

There are three basic financial statements presented: the Statement of Net Position; the Statement of Revenues, Expenses and Changes in Net Position; and the Statement of Cash Flows. These statements should be read in conjunction with the notes to the basic financial statements.

Financial statements for the District's component unit, the Odessa College Foundation Incorporated (the "Foundation"), are issued independently of the District. The Foundation's Statement of Financial Position and Statement of Activities for its most recently completed fiscal years of 2019 and 2018 are presented as discrete reports on pages 25 and 28 of the District's basic financial statements. Complete financial statements for the Foundation can be obtained from the Foundation at 201 West University Blvd, Odessa, TX 79764.

### **• The Statement of Net Position**

The Statement of Net Position (Exhibit 1) reports the assets, deferred outflows of resources, liabilities, deferred inflows of resources, and resulting net position of the District as of the end of the fiscal year. It is a "point in time" financial statement; its purpose is to give the readers a snapshot of the financial condition of the District on the last day of each fiscal year.

The Statement of Net Position includes assets and liabilities, both current and non-current, deferred outflows and inflows of resources, and net position.

- Current assets are those assets that are available to satisfy current liabilities, or liabilities that are due within one year.
- Non-current assets include capital assets, restricted cash, long-term investments, and other assets not classified as current.
- Non-current liabilities include bonds payable and other long-term commitments.
- Deferred outflows of resources represents a consumption of net position that applies to a future period therefore not being recognized as an inflow of resources until such time.
- Deferred inflows of resources represents an acquisition of net position that applies to a future period therefore not being recognized as an inflow of resources until such time.

Net position is the difference between total assets, total liabilities, deferred outflows and deferred inflows. Net position is one way to measure the financial health of the District as they represent the amount of resources available to finance future activities. Over time, the increases and decreases in net position is one indicator of whether the overall financial condition has improved or deteriorated during the year when considered with other factors such as enrollment, contact hours of instruction, student retention and other non-financial information.

Net position is divided into three major categories.

- Net investment in capital assets reflects the District's equity in property, plant, and equipment less any outstanding related debt used to acquire those assets.
- Restricted Net Position has external limitations on the way in which it may be used.
- Unrestricted Net Position is available to use for any lawful purpose of the District.

- **The Statement of Revenues, Expenses, and Changes in Net Position**

The Statement of Revenues, Expenses, and Changes in Net Position (Exhibit 2) explains "why" the net position has increased or decreased during the year. It focuses on the "bottom line results" of the District's operations. The statement is divided into (a) Operating Revenues and Expenses, (b) Non-Operating Revenues and Expenses, and (c) Other Revenue.

Generally, operating revenues are received in exchange for providing goods and services to the various customers of the District. Operating revenues include:

- Tuition and fees
- Federal and state grants
- Sales and services of educational activities
- Auxiliary and other operating revenues

Operating expenses are those paid to acquire or produce the goods and services provided in return for the operating revenues and to carry out the District's mission. Depreciation is included as an operating expense.

Non-operating revenues are funds received for which goods and services are not directly provided to those providing the revenue. Non-operating revenues include:

- State legislative appropriations
- Local property taxes
- Federal student aid grants
- Non-capital gifts and investment income

Other revenue includes capital contributions, additions to endowments, and special and extraordinary items.

The District, like all other Texas community colleges, is primarily dependent upon three sources of revenue: state appropriations, tuition and fees, and local property taxes. Since state appropriations and property taxes are classified as non-operating revenues (per the GASB requirement), all Texas community colleges will display an operating deficit before taking into account other support. Essentially, this operating deficit represents the net cost of services to students that must be covered by state appropriations, local property taxation, and other sources of revenue. Therefore, total revenues and total expenses should be considered in assessing the change in the District's financial position.

• **The Statement of Cash Flows**

The final statement presented is the Statement of Cash Flows which analyzes the cash activities of the District for the year. This statement helps readers assess the District's ability to generate future cash flows and its ability to meet obligations as they come due. The statement is divided into five parts:

- Cash provided by or used for operating activities
- Cash flows from non-capital financing activities
- Cash flows from investing activities
- Cash provided by or used for capital related financing activities, and
- Cash used for acquisition and construction of capital items.

**Figure 1** Note: FY2018 has been restated to account for cumulative effect of GASB Statement 75 implementation.

The District implemented new financial reporting provisions required by GASB Statement 75 that required a restatement of beginning net position for the 2018 fiscal year from \$55.7 million to \$21.7 million, a decrease of \$34.0 million. As a result, certain components of the Statement of Net Position cannot be compared to prior years.

Current assets consist mainly of cash, short-term investments, receivables, and prepayments. In addition, all of the bond proceeds projected to be expended within the next fiscal year are classified as current assets.

During fiscal year 2020:

- There was an increase of \$2,299,000 in current assets due to an increase in cash and cash equivalents offset by a decrease in accounts receivable. Cash and cash equivalents increased by \$8,078,000 due primarily to the receipt of various large receivables related to the prior year. Accounts Receivable decreased by \$4,845,000 due primarily to a decrease in private grant receivable specifically related to construction from the Odessa Development Corporation.

During fiscal year 2019:

- There was an increase of \$3,663,000 in current assets due to an increase in accounts receivable. Accounts Receivable increased by \$5,382,000 due primarily to an increase in private grant receivable specifically related to construction from the Odessa Development Corporation.

During fiscal year 2018:

- There was an increase of \$6,159,000 in current assets due to an increase in cash and cash equivalents. Cash and temporary investments increased by \$5,017,000 due primarily to additional tuition revenue from higher enrollments, capital gifts and insurance proceeds, and reduced bond interest payments.

Capital assets, net of depreciation, increased by approximately \$201,000, during 2020 while increasing \$6,200,000 during 2019. In accordance with GASB Statements No. 34 and 35, the District does not record the cost of its capital assets as an expense at the time of acquisition/completion of the asset, but rather shows the expense systematically over the expected life of the asset as depreciation expense. The purchases of land, building improvements, and equipment continue to exceed annual depreciation charges each year.

During fiscal 2020:

- Construction in Progress amounted to \$772 thousand on projects not yet completed, including the Health Science Building and property acquired and demolished relating to Vision 2030. Fiscal year 2020 additions to construction in progress were approximately \$2.5 million with an offsetting decrease of \$8.5 million. The decrease was due to the completion of Sewell Auto Tech and Electronics Technology ("ET") Building renovations. The completed costs were reclassified into Buildings and Building Improvements categories of capital assets.
- Buildings and improvements increased by \$8.4 million due to the completion of the Sewell Auto Tech Center and renovations to the ET Building.
- Major Equipment purchases included \$115 thousand to purchase a simulation truck driving machine for the Truck Driving Training Academy, \$247 thousand to purchase campus vehicles as part of the sustainability and improvement of our campus fleet, and \$427 thousand to purchase equipment for the Sewell Auto Tech Center.

During fiscal 2019:

- Construction in Progress amounted to \$6.8 million on projects not yet completed, including the ET Building Renovations and the Sewell Auto Tech Center. Fiscal year 2019 additions to construction in progress were approximately \$8.2 million with an offsetting decrease of \$2.8 million. The decrease was due to the completion of renovations to the Baseball Field and the Pecos Center Welding Lab. The completed costs were reclassified into Buildings and Other Land Improvements categories of capital assets.
- Buildings and improvements increased by \$2.8 million due to the completion of renovations to the Baseball Field and the Pecos Center Welding Lab.
- Major Equipment purchases included \$165 thousand to purchase a Shimadzu Rad Tech Imaging Machine, \$466 thousand to purchase trucks to use in our Truck Driver Training Academy, and \$253 thousand to purchase equipment for the Sewell Auto Tech Center.

During fiscal 2018:

- Construction in Progress decreased by approximately \$2.1 million. Fiscal year 2018 construction costs amounted to \$2.4 million on projects not yet completed, including the Baseball Field renovation, Pecos Center welding lab, and the Sewell Auto Tech Center. There was an offsetting decrease of \$4.5 million to Construction in Progress with the completion of renovations to the Health Science Building, the Electronics Technology Building, and the Globe Theater. The completed costs were reclassified into Buildings and Other Land Improvements categories of capital assets.
- Buildings and improvements increased by \$4.2 million due to the completion of renovations to the Health Science Building, the Electronics Technology Building, the Globe Theater and the Electrical Lineman Facilities.
- Major Equipment purchases included \$539 thousand to purchase 4 trucks to use in our Truck Driver Training Academy, \$280 thousand to purchase three buses for student transportation, and \$100 thousand to purchase a mobile home located at the Graham Center Ranch.

Total liabilities decreased by \$991,000 (-0.9%) in fiscal year 2020 after decreasing by \$5.6 million (-4.6%) in fiscal 2019. The major contributing factors are explained below.

During fiscal 2020:

- Net OPEB liability increased by \$2.3 million due to our proportionate share of the change in assumptions related to GASB 75 for the reporting of other post-employment benefits (primarily future health care costs of both active and retired employees).
- Accounts payable related to students payable increased by \$1.4 million due to the timing of financial aid disbursements. In the prior year the disbursements for financial aid were paid prior to year end due to the semester beginning earlier.
- Deferred revenue decreased by \$460 thousand due to a slight increase in enrollment and tuition for Fall of 2020, a decrease in state grant funds received near year-end, and a decrease in unspent roof insurance proceeds.

Management's Discussion and Analysis  
For the Year Ending August 31, 2020 (Unaudited)

- Bond and capital lease liabilities decreased by \$4.3 million due to principle payments on bond obligations and unamortized bond premium.

During fiscal 2019:

- Net OPEB liability decreased by \$3.8 million due to our proportionate share of the change in assumptions related to GASB 75 for the reporting of other post-employment benefits (primarily future health care costs of both active and retired employees).
- Accounts payable related to construction and vendor purchases decreased by \$674,000, reflective of less construction activity related to Vision 2015 campus improvement projects.
- Deferred revenue decreased by \$826 thousand due to a slight increase in enrollment and tuition for Fall of 2019, an decrease in state grant funds received near year-end, and a decrease in unspent roof insurance proceeds.
- Bond and capital lease liabilities decreased by \$4.2 million due to principle payments on bond obligations and unamortized bond premium.
- Net pension liability increased by \$3.6 million due to the change in assumptions related to the TRS schedule of Pension amounts by Employer.

During fiscal 2018:

- Accounts OPEB liability increased by \$29.1 million due to the implementation of GASB 75 reporting for other post-employment benefits (primarily future health care costs of both active and retired employees).
- Accounts payable related to construction and vendor purchases decreased by \$289,000, reflective of less construction activity related to Vision 2015 campus improvement projects.
- Deferred revenue increased by \$1.6 million due to an increase in enrollment and tuition for Fall of 2018, an increase in state grant funds received near year-end, and unspent roof insurance proceeds.
- Bond and capital lease liabilities decreased by \$4.9 million due to principle payments on bond obligations and unamortized bond premium.
- Net pension liability decreased by \$0.7 million due to differences between actual and projected investment earnings by TRS.

Overall, the District's net position increased by \$8.6 million during fiscal 2020, increased by \$10.0 million during 2019, and decreased by \$24.4 million during 2018. It is important for the readers of the financial statements to note that the 2018 decrease was the combined result of an \$9.6 million increase from current operations offset by a \$34 million restatement due to the GASB 75 change in accounting principle.

During fiscal 2020:

- The Net Investment in Capital Assets, representing the net value of capital assets (land, buildings, and equipment) less the related debt, increased by \$6.9 million, primarily as a result of scheduled payments on bonded debt along with the net addition of \$201 thousand in capital assets.
- The Restricted Net Position decreased approximately \$3.2 million due to a decrease in expenses related to Vision 2015 as well as a decrease in mandatory debt service transfers related to the final payment of the 2009 Revenue Bond.
- The Unrestricted Net Position increased by \$4.8 million due to an excess of unrestricted revenues over unrestricted expenses during fiscal 2020 as shown on Schedule D of the financial statements.

During fiscal 2019:

- The Net Investment in Capital Assets, representing the net value of capital assets (land, buildings, and equipment) less the related debt, increased by \$10.4 million, primarily as a result of scheduled payments on bonded debt along with the addition of \$6.2 million in capital asset additions.
- The Restricted Net Position decreased approximately \$1.7 million due to an increase in expenses related to Vision 2015. As this project comes to a close the balance should be closer to zero.
- The Unrestricted Net Position cannot be compared to the previous two years due to the restatement required by GASB Statement No. 75. Nevertheless, there was an excess of unrestricted revenues over unrestricted expenses of \$1.4 million during fiscal 2019 as shown on Schedule D of the financial statements.

During fiscal 2018:

- The Net Investment in Capital Assets, representing the net value of capital assets (land, buildings, and equipment) less the related debt, increased by \$4.2 million, primarily as a result of payments and the refunding of bonded debt.
- The Restricted Net Position increased approximately \$3.1 million due to an increase in restricted expendable capital projects of \$1 million from the District's continued contribution to Vision 2015, an increase in restricted expendable debt service by \$2.4 million from lower interest payments as well as a gain from the refunding of debt, and an increase in OER reserves.
- The Unrestricted Net Position cannot be compared to the previous two years due to the restatement required by GASB Statement No. 75. Nevertheless, there was an excess of unrestricted revenues over unrestricted expenses of \$2.4 million during fiscal 2018 as shown on Schedule D of the financial statements.

### **Operating Revenues:**

As defined above, operating revenues are received in exchange for providing goods and services to the various customers of the District. Key factors impacting Operating Revenues are explained below:

#### **During fiscal 2020:**

- Tuition and Fee Revenue, net of discounts, decreased by \$228,000, or about 2.0%. Gross tuition and fees increased by \$632,000 due to higher enrollments and an increase of 2.8% in semester credit hours. At the same time, scholarship allowances and discounts increased by \$870,000 due to an increase in the percentage of Pell awards that were applied to tuition compared to prior years.
- Non-governmental Grants and Contracts decreased by \$3.2 million due to a private grant from the Odessa Development Corporation that began during 2018. This grant ended August 31, 2020 with the majority of the construction being completed during 2019.
- Other Operating Revenue decreased by \$401,000 primarily related to the COVID pandemic. Sports center memberships and day passes decreased by \$114,000 and summer camps that were significantly limited decreased by \$61,000. The decrease is also attributable to the receipt of the \$100,000 ASPEN prize that was received in the prior year.

#### **During fiscal 2019:**

- Tuition and Fee Revenue, net of discounts, increased by \$1,895,000, or about 20.4%. Gross tuition and fees increased by \$1,567,000 due to higher enrollments and an increase of 3.1% in semester credit hours. At the same time, scholarship allowances and discounts decreased by \$328,000 due to a decrease in the percentage of Pell awards that were applied to tuition compared to prior years.
- Non-governmental Grants and Contracts increased by \$2.6 million due to a private grant from the Odessa Development Corporation starting during the prior year to continue over a three year period.

#### **During fiscal 2018:**

- Tuition and Fee Revenue, net of discounts, increased by \$469,000, or about 5.3%. Gross tuition and fees increased by \$729,000 due to higher enrollments and an increase of 2.5% in semester credit hours. At the same time, scholarship allowances and discounts increased by \$260,000 due to increased federal student aid grants, primarily Pell grants which increased by 9.1%.
- Non-governmental Grants and Contracts increased by \$720,000 due to a new private grant from the Odessa Development Corporation starting during the year to continue over a three year period.

**Non-Operating Revenues (Expenses):**

Non-Operating Revenues (Expenses) are funds received for which goods and services are not directly provided to those providing the revenue. Non-Operating Revenues (Expenses) increased by \$4.3 million in 2020 after decreasing by \$258 thousand in 2019 and increasing \$4.8 million during 2018. Key factors impacting Non-Operating Revenues (Expenses) are discussed below:

During fiscal 2020:

- Total State Appropriations increased by \$1,893,000, or 17.1%. \$1,265,000 of the increase was due to increased contact hour and success points funding for the 2020-2021 legislative biennium. The remaining \$628,000 increase resulted from increased benefit payments paid by the state as now reported under GASB 68 and GASB 75.
- Property Tax revenue increased by \$2,045,000, or 7.3%. Net assessed valuations increased 15.0%, and the combined tax rate was decreased by 6.4%.
- Federal Student Aid Grants increased by \$621,000 or 8.8% primarily due to the additional CARES funding that the District received. These additional funds were awarded directly to students to help offset hardships related to the COVID-19 pandemic.
- Other Revenue decreased \$367,000 or 34.0%. The decrease is related to a decrease in investment income that is not restricted to programs.

During fiscal 2019:

- Total State Appropriations decreased by \$1,026,000, or 8.5%. The decrease is due to a decrease in benefit payments paid by the state as now reported under GASB 68 and GASB 75.
- Property Tax revenue increased by \$833,000, or 3.1%. Net assessed valuations increased 7.6%, and the combined tax rate was decreased 3.3%.
- Other Revenue increased \$408,000 or 60.8%. The increase is related to an increase in investment income that is not restricted to programs.

During fiscal 2018:

- Total State Appropriations increased by \$1,890,000, or 18.5%. \$771,000 of the increase was due to increased contact hour and success points funding for the 2018-2019 legislative biennium. The remaining \$1,119,000 increase resulted from increased benefit payments paid by the state as now reported under GASB 68 and GASB 75.
- Property Tax revenue increased by \$1,256,000, or 4.8%. Net assessed valuations increased 2.7%, and the combined tax rate was raised 0.9%.
- Federal Student Aid Revenue increased \$564,000 or 8.7%. The number of recipients awarded during the 2017-18 academic year increased resulting in a larger disbursement of aid in August of 2018 for the fall semester.

Graph 1 below illustrates the sources of Operating and Non-operating Revenues as a percentage of total revenues for fiscal years 2020, 2019, and 2018. As evidenced by the graph, the majority of revenue is derived from non-operating sources.

Graph 1

A comparison of fiscal 2020 to fiscal 2019 shows an increase in the percentage of revenues provided by state appropriations, taxes, and federal student aid. The percentage derived from all other revenue sources decreased during the same period. Comparing the prior two fiscal years (2019 to 2018) reveals increases in the percentage of revenues provided by tuition and fees, grants, and other non-operating and decreases in the percentage of property taxes, state appropriations, and federal student aid.

### Operating Expenses by Functional Classification

Functional classifications are the traditional categories that have been used to show expenses. They represent the type of programs and services provided.

As shown in Figure 2, total Operating Expenses increased by \$2.2 million or 4.0% in 2020, after an increase of \$2.0 million or 3.7%, during 2019, and a similar increase of \$3.7 million, or 7.5% during 2018. Key factors impacting operating expenses by functional expense categories are described below:

Management's Discussion and Analysis  
For the Year Ending August 31, 2020 (Unaudited)

During fiscal 2020:

- Instruction expenses increased by \$1,500,000, or 7.4%, due primarily to an increase in salaries and benefits due to the filling of open positions from the prior year. The filling of open position also included a full year's salary for the addition of 10 full time instructors added in the prior year.
- Academic Support increased by \$332,000 or 6.8% due to an increase in salaries and benefits of \$328,000. During the current year the District restructured the student success coaches into academic coaches moving them from student activities to academic support. This resulted in the addition of 11 new positions.
- Institutional Support increased by \$336,000 or 4.9% due to an increase in state paid benefits expense related to GASB 68 pension expense.
- Operation & Maintenance of Plant expenses increased by \$395,000, or 8.3%, due do an increase in property insurance of \$89,000, an increase in contract cleaning of \$137,000 related to the additional buildings on campus, and an increase in the District's general equipment maintenance agreement of \$64,000.
- Auxiliary expenses decreased by \$420,000 or 14.8%, due to a decrease in the amount spent on catering events and student meal plans of approximately \$153,000, a decrease in athletic travel of \$139,000, and a decrease in student activity expenses of \$52,000 all related to the COVID-19 national pandemic. In March of 2020 all instruction went to a virtual environment resulting in no students on campus for the cafeteria, no athletic games and very limited virtual student activities.

During fiscal 2019:

- Instruction expenses increased by \$380,000, or 1.9%, due primarily to an increase in salaries primarily due to the filling of open positions from the prior year as well as the addition of 10 full time instructors.
- Academic Support increased by \$101,000 or 2.1% due to the filling of open positions from the prior year as well as the addition of 2 full time faculty. In addition, two computer labs were updated at the Pecos Extension Center and the Student Learning Resource Center in the amount of \$36,000.
- Scholarships expenses increased by \$1,238,000 or 21.9%, due to an increase in the number of students eligible to receive Pell grants as well as the awarding of Pell grants during the summer terms.
- Depreciation expenses increased by \$149,000, or 4.6%, due to the increase in capitalized assets related to the Vision 2015 campus improvement projects.

Management's Discussion and Analysis  
For the Year Ending August 31, 2020 (Unaudited)

During fiscal 2018:

- Instruction expenses increased by \$1,500,000, or 8.3%, due primarily to an increase in state paid benefits expense related to GASB 75 implementation.
- Institutional Support increased by \$806,000, or 13.1%, due primarily to an increase in state paid benefits as well as a new grant for campus police software in the amount of \$46,000.
- Operation & Maintenance of Plant expenses increased by \$451,000, or 10.1%, due do expenses related to hail damage, upgrades to the Globe Theater, and renovations to Deaderick Hall to accommodate a new Early College High School.
- Scholarships expenses increased by \$601,000 or 11.9%, due to an increase in the number of students eligible to receive Pell grants as well as the awarding of Pell grants during the summer terms.
- Depreciation expenses increased by \$283,000, or 9.6%, due to the increase in capitalized assets related to the Vision 2015 campus improvement projects.

Other Revenues consist mainly of capital contributions in the form of gifts and grants as well as additions to permanent endowments. Capital contributions were \$353,000 in fiscal 2020, \$623,000 in 2019, and \$1,465,000 in 2018. The 2020 capital donations were dedicated to the Globe Theater renovations, the acquisition of equipment for fine arts, and the donation of 4 trucks for the auto/diesel department. The 2019 capital donations were dedicated to the Baseball renovation, and the Globe Theater renovations. The 2018 capital donations were dedicated to the Baseball renovation, Globe Theater renovations, and acquisition of equipment for fine arts.

Graph 2 below compares each functional operating expense category as a percentage of total expenses for fiscal years 2020, 2019 and 2018.

**Capital Assets and Debt Administration**

**Capital Assets**

The District's investment in capital assets, net of depreciation, was \$117.8 million at the end of fiscal 2020, compared to \$117.6 million in 2019, and \$111.5 million in 2018. A summary of capitalized assets for fiscal years 2020, 2019, and 2018 is shown below in Figure 3. This information is also presented in Note 6 of the Financial Statements. Details of capital asset activity can be found on pages 9 and 10 of this Management's Discussion and Analysis report.

**Figure 3**

The District has completed during fiscal year 2020 an \$84 million, multi-year campus improvement project called "Vision 2015". Funding was provided by a \$68.5 million general obligation bond passed in November 2010 as well as private capital donations and board allocations of reserve funds. Vision 2015 campus improvements include the demolition of 7 older structures, the addition of 7 new buildings, and renovations to 7 existing facilities. The District has begun fundraising efforts to support a multi-year campus improvement project called "Vision 2030". Vision 2030 campus improvements include the demolition of 5 older structures, the addition of 6 new buildings, and renovations to 2 existing facilities.

**Debt Administration**

The District had outstanding debt of \$64.2 million as of August 31, 2020, and \$68.5 million and \$72.6 million as of August 31, 2019 and 2018, respectively. \$57,910,000 of Series 2017 Limited Tax Refunding Bonds were issued in December 2017 to partially refund the Series 2011 Tax Bonds, resulting in a net present value saving of \$6,551,787. Principal payments on long-term debt totaled \$4,265,000 in 2020, \$4,110,000 in 2019, and \$3,955,000 in 2018. Details of the outstanding long-term debt by type as of August 31, 2020, 2019, and 2018 are listed below in Figure 4.

On May 24, 2018, S&P Global Ratings affirmed its rating of 'A+' with a stable outlook for the District's series 2009 and 2012 Revenue Bonds.

On November 28, 2017, S&P Global Ratings assigned a rating of 'AA-' with a stable outlook for the new Limited Tax Refunding Bonds, Series 2017.

On November 30, 2016, Fitch Ratings upgraded its rating on the District's series 2011 general obligation tax bonds from 'AA-' to 'AA'. The rating outlook is Stable. The upgrade is due to the application of Fitch's revised criteria for U.S., state, and local governments. According to Fitch:

*"The upgrade reflects the district's ample revenue-raising ability, sound expenditure flexibility, strong reserve cushion, and limited historical revenue volatility. These factors combine to provide the district with a high level of operating flexibility and anticipated financial resilience throughout the economic cycle. Fitch expects the long-term liability burden will remain low."*

Both the 2009 and 2012 revenue bonds are also covered by municipal bond insurance policies issued by Assured Guarantee Municipal Corp. (AGM).

### **Economic Factors That Will Affect the Future**

The economic position of the District is influenced in part by the economic position of the nation, the state of Texas, and of Ector County. The unprecedented international outbreak of coronavirus (COVID-19) has had numerous economic and operational impacts on the U.S. economy as well as affecting the District's employees, students, community members and business operations. The Odessa Economic Index declined from July 2020 to August 2020, retreating to 229.1 for the month down from 232.3 in July, and down 15.7% from the August 2019 OEI of 271.9. The monthly average posted West Texas Intermediate crude oil price of \$38.17 was the highest since February 2020 and represents an improvement of nearly \$24/bbl compared to the April 2020 low monthly average of \$14.68. This improvement has reversed the decline in the rig count, adding six rigs on average since the low point of 75 rigs in July 2020. Economic activity remains broadly lower in Odessa through August 2020 and the unemployment rate has increased to 11.1% compared to that of August 2019 of 2.9%.

As a result, the District expects the assessed tax values to decrease slightly next year due to lower oil prices and oilfield service activity. At the time of this report, general spending in Ector County is down 23.6% year-to-year, home sales are down 24%, and the rig count is 77.6% below last year's volume. Sales tax revenues along with hotel and apartment occupancy rates are all significantly lower than the same time last year. Based on such data and the analysis of state and national economists, the administration feels that the current economic climate while not optimal can be managed through budgetary tightening that will not reduce instructional programs.

Despite the high unemployment rate, student enrollment is at an all-time high. Graduation rates have increased significantly over the last decade, and class completion rates are among the highest in the nation. In the past year, the District has received numerous awards at the state and national level that are reflective of its high quality and unique approaches to student success. After winning the Aspen Institute's Rising Star Award in March 2019, Odessa College is once again in the top ten for the 2021 Aspen Prize for Community College Excellence, an award which is recognized among American institutions of higher education as the most prestigious affirmation of high achievement and exemplary performance that a community college can receive. The Aspen Institute assesses performance and achievements in four areas: student learning, certificate and degree completion, employment and earnings for graduates, and access and success for minority and low-income students. The District anticipates that such national recognition of quality and effectiveness will likely contribute to strong enrollment demand in the near future.

Management's Discussion and Analysis  
For the Year Ending August 31, 2020 (Unaudited)

While it is not possible to predict the effects of future economic conditions, management believes the District has a solid and stable financial position and is well equipped to handle the increasing demands for a better educated workforce. The District continually monitors its internal and external environments for factors that may affect its financial position in either the short-term or long-term. Administration is not aware of any currently known facts, decisions, or conditions that are expected to have a significant effect on the financial position or results of operations during the current fiscal year.

**Requests for Information**

This annual financial report is designed to provide interested stakeholders with a general overview of the District's finances and to show the District's accountability for the money it receives. Questions concerning the information provided in this report or requests for additional information should be addressed to the Chief Financial Officer at Odessa College, 201 West University Blvd, Odessa, TX 79764.

# Odessa College District

## NOTES TO FINANCIAL STATEMENTS

August 31, 2020 and 2019

### NOTE 1 – REPORTING ENTITY

Odessa College District was established in 1946, in accordance with the laws of the State of Texas, to serve the educational needs of Ector County and the surrounding communities. The District is considered to be a special purpose, primary government according to the definition in Governmental Accounting Standards Board (“GASB”) Statement No. 14, *The Financial Reporting Entity*. During 2019, Odessa Junior College District was renamed to Odessa College District (the “District”) in accordance with the laws of the State of Texas. The change was made to align the District’s name with its status of an institution offering 2-year and 4-year degrees. While the District receives funding from local, state, and federal sources, and must comply with the spending, reporting, and recordkeeping requirements of these entities, it is not a component unit of any other governmental entity.

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### 1. Reporting Guidelines

The significant accounting policies followed by the District in preparing these financial statements are in accordance with the *Texas Higher Education Coordinating Board’s Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges*. The District applies all applicable GASB pronouncements. The District is reported as a special-purpose government engaged in business-type activities (“BTA”).

#### 2. Tuition Discounting

##### Texas Public Education Grants

Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (“TPEG”), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code §56.033). When the award for tuition is used by the student, the amount is recorded as tuition and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

##### Title IV, Higher Education Act (HEA) Program Funds

Certain Title IV HEA Program funds are received by the District to pass through to the student. These funds are initially received by the District and recorded as restricted revenue. When the student is awarded and uses these funds for tuition and fees, the amounts are recorded as revenue and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

##### Other Tuition Discounts

The District awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used for tuition and fees, the amounts are recorded as tuition and fee revenue and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

#### 3. Basis of Accounting

The financial statements of the District have been prepared on the accrual basis whereby all revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditures of funds are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year’s budget. Encumbrances outstanding at year end, that were provided for in the subsequent year’s budget, are reported as designations of net assets since they do not constitute expenditures or liabilities.

### NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2020 and 2019

#### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4. *Budgetary Data*

Each community college district in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for current operating funds for the fiscal year beginning September 1. The budget, which is prepared on the accrual basis of accounting, is adopted by the District's Board of Trustees. A copy of the approved budget must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and the Governor's Office of Budget and Planning by December 1.

5. *Cash and Cash Equivalents*

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Because of their highly liquid nature, funds held in public funds investment pools are also considered to be cash equivalents.

6. *Deferred Inflows*

In addition to liabilities, the District is aware that the Statement of Net Position will sometimes report a separate section of deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so, is not recognized as an inflow of resources (revenue) until that time. Governments are permitted only to report deferred inflows in circumstances specifically authorized by GASB.

7. *Deferred Outflows*

In addition to assets, the District is aware that the statement of Net Position will sometimes report a separate section of deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so, will not be recognized as an outflow of resources (expense) until then. Governments are permitted only to report deferred outflows in circumstances specifically authorized by GASB.

8. *Pledges*

The District recognizes pledges in the financial statements when all applicable eligibility requirements, including time requirements, are met. Pledges are reported as restricted revenues prior to the fulfillment of all applicable eligibility requirements.

9. *Investments*

In accordance with Governmental Accounting Standards Board Statement ("GASBS") No. 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, investments are reported at fair value. Fair values are based on published market quotes. Short-term investments have an original maturity greater than three months but less than one year at the time of purchase. Long-term investments have an original maturity of greater than one year at the time of purchase.

10. *Inventories*

Inventories consist of consumable physical plant and food service supplies. Inventories are stated at the lower of cost or market, determined using the first-in, first-out method. They are charged to expense as consumed.

#### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

11. *Capital Assets*

Capital assets are stated at cost. Donated capital assets are valued at their estimated fair market value on the date received. The District's policy calls for capitalization of equipment, infrastructure and land improvements with a unit cost of \$5,000 or more and an estimated useful life in excess of two years. Buildings and building renovations in excess of \$100,000 that significantly increase the value or extend the useful life of the structure are also capitalized. The District reports depreciation under a single-line as a business-type unit. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. The following lives are used:

Buildings and Building Improvements	50 years
Other Real Estate Improvements	20 years
Library Books	15 years
Furniture, Machinery, Vehicles and Other Equipment	10 years
Telecommunications and Peripheral Equipment	5 years

12. *Deferred Revenue*

Deferred revenue relates to student tuition, fees and other revenues received during the current fiscal period for classes or activities to be held in the following period.

13. *Estimates*

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

14. *Operating and Non-Operating Revenue and Expense Policy*

The District distinguishes operating revenues and expenses from non-operating items. The District reports as a BTA and as a single, proprietary fund. Operating revenues and expenses generally result from providing services in connection with the District's principal ongoing operations. The principal operating revenues are tuition and related fees. The major non-operating revenues are state appropriations, Title IV grant revenue, and property tax collections. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets.

15. *Pensions*

The District participates in the Teacher Retirement System of Texas (TRS) pension plan, multiple-employer cost sharing defined benefit pension plan with a special funding situation. The fiduciary net position of the TRS has been determined based on the flow of economic resource measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net pension liability: deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, and liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable, in accordance with the benefit terms. Investments are reported at fair value.

#### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

16. *New Accounting Pronouncements*

GASB Statement 84, “*Fiduciary Activities.*”

The objective of this statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This statement establishes criteria for identifying fiduciary activities of all state and local governments. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. This statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. The requirements of this statement were effective for reporting periods beginning after December 15, 2018. Community college implementation was originally planned for FY 2020 but is now postponed to FY 2021, as a result of GASB 95. Earlier application is encouraged.

GASB Statement 87, “*Leases.*”

The objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This statement increases the usefulness of governments’ financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. This statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments’ leasing activities. The requirements of this statement were effective for reporting periods beginning after December 15, 2019. Community college implementation was originally planned for FY 2021 but is now postponed to FY 2022, as a result of GASB 95. Earlier application is encouraged.

GASB Statement No. 89, “*Accounting for Interest Cost Incurred before the End of a Construction Period.*”

This statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this statement were effective for reporting periods beginning after December 15, 2019. Community college implementation was originally planned for FY 2021 but is now postponed to FY 2022, as a result of GASB 95. Earlier application is encouraged and the requirements of this statement should be applied prospectively.

GASB Statement 90, “*Majority Equity Interests – an amendment of GASB Statements No 14 and No. 61.*”

The primary objectives of this statement are to improve the consistency and comparability of reporting a government’s majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The requirements of this statement will improve financial reporting by providing users of financial statements with essential information related to presentation of majority equity interests in legally separate organizations. The requirements of this statement were effective for reporting periods beginning after December 15, 2018 and should be applied retroactively, except for the provisions related to (1) reporting a majority equity interest in a component unit and (2) reporting a component unit if the government acquires a 100 percent equity interest. Those provisions should be applied on a prospective basis. Community college implementation was originally planned for FY 2020 but is now postponed to FY 2021, as a result of GASB 95.

#### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

16. *New Accounting Pronouncements (Continued)*

*GASB Statement 91, "Conduit Debt Obligations."*

The primary objectives of this statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This statement requires issuers to disclose general information about their conduit debt obligations, organized by type of commitment, including the aggregate outstanding principal amount of the issuers' conduit debt obligations and a description of each type of commitment. Issuers that recognize liabilities related to supporting the debt service of conduit debt obligations also should disclose information about the amount recognized and how the liabilities changed during the reporting period. The requirements of this statement were effective for reporting periods beginning after December 15, 2020. Community college implementation was originally planned for FY 2022 but is now postponed to FY 2023, as a result of GASB 95. Earlier application is encouraged.

*GASB Statement 92, "Omnibus 2020."*

The objectives of this statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB statements. The statement addresses a variety of topics and includes the following: Statement No. 87, Statement No. 73, Statement No. 74, Statement No. 84, and other topics. The application of this statement is expected to provide more comparable reporting and improve the usefulness for financial statement users. Some requirements of this statement are effective upon issuance, and others were effective for reporting periods beginning after June 15, 2020. Earlier application is encouraged. Community college implementation – certain provisions are effective for FY 2020 and others postponed to FY 2022, as a result of GASB 95.

*GASB Statement 93, "Replacement of Interbank Offered Rates. (IBOR)."*

The objective of this statement is to address accounting and financial reporting implications resulting from global reference rate reform. Government agreements in which variable payments made or received depend on IBOR, most notably the London Interbank Offered Rate (LIBOR), will be affected, as LIBOR will cease to exist at the end of 2021. Rate provisions in Statement Nos. 53 and 87 will also be affected. Most requirements of this statement were effective for reporting periods beginning after June 15, 2020; however, requirements regarding the removal of LIBOR as an appropriate benchmark were effective for reporting periods beginning after December 31, 2021. Community college implementation was originally planned for FY 2021 and is now postponed to FY 2022, as a result of GASB 95. Earlier application is encouraged.

*GASB Statement 94, "Public-Private and Public-Public Partnerships (PPPs) and Availability Payment Arrangements (APAs)."*

The objective of this statement is to improve financial reporting related to PPPs and APAs by establishing the definitions of these arrangements and providing uniform guidance on accounting and financial reporting for transactions that meet those definitions. This statement will enhance the decision usefulness of financial statements by requiring governments to report assets and liabilities related to PPPs consistently and disclose important information about PPP transactions. Requirements of this statement were effective for reporting periods beginning after June 15, 2022. Earlier application is encouraged.

### NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2020 and 2019

#### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

16. *New Accounting Pronouncements (Continued)*

*GASB Statement 95, "Postponement of the Effective Dates of Certain Authoritative Guidance."*

The objective of this statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. This is accomplished by postponing the effective dates of certain provisions in statements and implementation guides that first became effective or are scheduled to become effective for reporting periods beginning after June 15, 2018, and later. The effective dates of certain provisions contained in the following pronouncements are postponed by one year: Statement Nos. 83, 84, 88, 89, 90, 91, 92, 93, and Implementation Guide Nos. 2017-3, 2018-1, 2019-1, and 2019-2. The effective dates of the following pronouncements are postponed by 18 months: Statement No. 87 and Implementation Guide No. 2019-3. The requirements of this statement are effective immediately.

*GASB Statement 96, "Subscription-Based Information Technology Arrangements (SBITA)."*

The objective of this statement is to (1) define a SBITA; (2) establish that SBITA results in a right-to-use subscription (intangible) asset and a corresponding subscription liability; (3) provide the capitalization criteria for outlays other than subscription payments; and (4) require note disclosures regarding a SBITA. The statement provides an exception for short-term SBITAs with a maximum contract term of 12 months. Subscription payments for short-term SBITAs should be recognized as outflows of resources. The requirements of this statement are effective for reporting periods beginning after June 15, 2022. Early implementation is encouraged.

*GASB Statement 97, "Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—An Amendment of GASB Statement No. 14 and 84, and a Supersession of GASB Statement No. 32."*

The primary objectives of this statement are the following: (1) increase consistency and comparability in the reporting of fiduciary component units where the potential component unit does not have a governing board and the primary government performs those duties; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and other employee benefit plans as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans that meet the definition of a pension plan and for benefits provided through those plans. The requirements of reporting defined contribution plans, defined contribution OPEB plans, or other employee benefit plans that are administered through trusts are effective immediately. The requirements related to reporting on fiduciary component units and 457 plans are effective for reporting periods beginning after June 15, 2021. Early implementation is encouraged.

#### NOTE 3 – AUTHORIZED INVESTMENTS

The Board of Trustees of the District has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act of 1995 (Section 2256.001, Texas Government Code). The investments of the District are in compliance with Trustees' investment policies. Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit, and (5) other instruments and obligations authorized by statute.

**NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

**August 31, 2020 and 2019**

**NOTE 3 – AUTHORIZED INVESTMENTS (CONTINUED)**

In accordance with Sec. 2256.005 (n) of the Public Funds Investment Act, the community college, "...shall arrange for a compliance audit of management controls on investments and adherence to the District's established investment policies. The compliance audit shall be performed by the District's internal auditor or by a private auditor...Not later than January 1 of each even numbered year, the community college shall report the results of the most recent audit performed to the state auditor."

The State Auditor has determined that the District and their independent auditors should indicate compliance with the Act by completing the following:

- the categorization of investments by risk which is required by GASB Statement No. 3 Note 4 in the footnote "**Deposits and Investments**," and
- placing a statement in the scope paragraph of the **Report on Compliance and on Internal Control over Financial Reporting (pages 74-75)** which indicate the audit work covered in the Act, or
- writing a separate letter to the State Auditor's Office stating that the District is in compliance with all requirements of the Act.

**NOTE 4 – DEPOSITS AND INVESTMENTS**

**Deposits:** At August 31, 2020 and 2019, the carrying amount of the District's deposits were \$1,662,264 and \$3,495,554, respectively. Bank balances equaled \$2,129,472 and \$5,044,085. Bank balances of \$370,518 and \$369,842 were covered by federal depository insurance, and \$1,758,954 and \$4,674,273 were covered by collateral pledged in the District's name. The collateral was held by the District or by its Agent (Category 1). There were no uncollateralized bank balances (Category 3) at either year end. (This would have included any bank balance that was collateralized with securities held by the pledging financial institution's department or agent but not in the District's name). The District held \$22,742,508 and \$12,826,253 in state approved public funds investment pools at August 31, 2020 and 2019, respectively.

#### NOTE 9 – BONDS PAYABLE

General information related to bonds payable is summarized below:

##### General Obligation Bonds

The General Obligation Bonds are direct obligations payable from ad valorem taxes levied, within the limitation prescribed by law, against all property located within the District's taxing jurisdiction. Payment of the Bonds is derived from taxes levied and collected on an annual basis in an amount sufficient to pay the principal and interest when due, full allowance being made for delinquencies and collection costs.

##### Limited Tax Bonds, Series 2011

- To acquire, construct, renovate and equip school buildings in the District and to pay for related bond issuance.
- Issued on April 21, 2011.
- \$68,500,000 original amount of issue; all authorized bonds have been issued.
- Source of payment – property tax revenues; no bond reserve fund is required.
- Fitch Ratings currently rates the bonds as 'AA' with a stable outlook.

**NOTE 11 EMPLOYEES' RETIREMENT PLANS**

**Defined Benefit Pension Plan**

**Plan Description.** The District participates in a cost-sharing multiple-employer defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). The TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67, and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

**Pension Plan Fiduciary Net Position** Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at [https://www.trs.texas.gov/TRS%20Documents/cafr\\_2016.pdf](https://www.trs.texas.gov/TRS%20Documents/cafr_2016.pdf) by writing to TRS at 1000 Red River Street, Austin, Texas, 78701-2698; or by calling (512) 542-6592.

**Benefits Provided** TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using a 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, whose formulas use the three highest annual salaries. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLA). Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan Description above.

#### NOTE 11 EMPLOYEES' RETIREMENT PLANS (CONTINUED)

Texas Government Code Section 821.006 prohibits benefit improvements if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years or, if the amortization period already exceeds 31 years, the period would be increased by such action.

In May 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the State, participating employers and active employees to make the pension fund actuarially sound. Because this action causes the pension fund to be actuarially sound, the Legislature approved funding for the 13th check in September 2019. All eligible members retired as of December 31, 2018 received an extra annuity check in either the matching amount of their monthly annuity or \$2,000, whichever was less.

**Contributions** Contribution requirements are established or amended pursuant to Article 16, Section 67 of the Texas Constitution which requires the Texas Legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 through 2025.

#### Contribution Rates

	<u>2019</u>	<u>2020</u>
Member	7.7%	7.7%
Non-Employer Contributing entity (State)	6.8%	7.5%
Employers	6.8%	7.5%
FY2019 Member Contributions	\$ 1,341,848	
FY2019 State of Texas On-behalf Contributions	\$ 515,263	
FY2019 District Contributions	\$ 660,430	

The District's contributions to the TRS pension plan in 2020 were \$701,046 as reported in the Schedule of District Contributions in the Required Supplementary Information section of these financial statements. Estimated State of Texas on-behalf contributions for 2020 were \$496,582.

- As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers.

### NOTE 11 EMPLOYEES' RETIREMENT PLANS (CONTINUED)

#### Contributions (Continued)

Public junior colleges or junior college districts are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.
- In addition to the employer contributions listed above, when employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

#### Actuarial Assumptions

The total pension liability in the August 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

• Valuation Date	August 31, 2018 rolled forward to August 31, 2019
• Actuarial Cost Method	Individual Entry Age Normal
• Asset Valuation Method	Market Value
• Single Discount Rate	7.25%
• Long-Term Expected Investment Rate of Return*	7.25%
• Municipal Bond Rate*	2.63*
• Last year ending August 31 in the 2016 to 2115 Projection period (100 years)	2116
• Inflation	2.3%
• Salary increases including inflation	3.05% to 9.05%
• Benefit Changes during the year	None
• Ad HOC post-employment benefit change	None

\* Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."

The actuarial methods and assumptions were selected by the board of trustees based upon analysis and recommendations by the system's actuary. The board of trustees has sole authority to determine the actuarial assumptions used for the plan. The actuarial methods and assumptions were primarily based on a study of actual experience for the three-year period ending August 31, 2017 and were adopted in July 2018. There were no changes to the actuarial assumptions or other inputs that affected the measurement of the total pension liability since the prior measurement period. Assumptions, methods, and plan changes were updated from the prior year's report. The net pension liability increased significantly since the prior measurement date due to a change in the following actuarial assumptions:

## Odessa College District

August 31, 2020 and 2019

#### NOTE 11 EMPLOYEES' RETIREMENT PLANS (CONTINUED)

##### Actuarial Assumptions (Continued)

- The total pension liability as of August 31, 2019 was developed using a roll-forward method from the August 31, 2018 valuation.
- Demographic assumptions including postretirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017.
- Economic assumptions including rates of salary increase for individual participants was updated based on the same experience study.
- The discount rate changed from 6.907 percent as of August 31, 2018 to 7.25 percent as of August 31, 2019.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

##### Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The single discount rate was based on the expected rate of return on pension plan investments of 7.25%. The projection of cash flows used to determine the single discount rate assumed that contributions from active members, employers, and the non-employer contributing entity will be made at the rates set by the Legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50% of payroll in fiscal year 2020 gradually increasing to 9.55% of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.25 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in TRS' target asset allocation as of August 31, 2019, are summarized below:

**NOTE 11 EMPLOYEES' RETIREMENT PLANS (CONTINUED)**

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At August 31, 2020, the District reported a liability of \$9,890,177 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$	9,890,177
State's proportionate share that is associated with the District		<u>7,375,457</u>
Total		<u>\$ 17,265,634</u>

The net pension liability was measured as of August 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2018, thru August 31, 2019.

At the measurement date of August 31, 2019, the employer's proportion of the collective net pension liability was .0190257448%, which was an increase of .0010233540% from its proportion measured as of August 31, 2018.

**Changes Since the Prior Actuarial Valuation**

- The single discount rate as of August 31, 2018, was a blended rate of 6.907%, and that has changed to the long-term rate of return of 7.25% as of August 31, 2019.
- With the enactment of SB 3 by the 86<sup>th</sup> Texas Legislature, 2019 an assumption has been made about how this would impact future salaries. It is assumed that eligible active members will each receive a \$2,700 increase in fiscal year 2020. This is in addition to the salary increase expected in the actuarial assumptions.
- The Texas Legislature approved funding for a 13<sup>th</sup> check in September 2019. All eligible members retired as of December 31, 2018 received an extra annuity check in September 2019 in either the matching amount of their monthly annuity payment of \$2,000, whichever was less.

For the year ended August 31, 2020, the District recognized pension expense of \$1,005,698 as well an on-behalf revenue and pension expense of \$1,158,580 representing pension expense incurred by the State on-behalf of the District.

At August 31, 2020, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 41,548	343,403

**Defined Contribution Plan**

**Plan Description** The state has also established an Optional Retirement Program (ORP) for institutions of higher education. Participation in the Optional Retirement Program is in lieu of participation in the Teacher Retirement System (TRS). The ORP provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

**Funding Policy.** Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. State law provides for a member contribution rate of 6.65% and an employer contribution rate of 6.60% for fiscal year 2020 and 2019. The District contributes an additional 0.71% for employees who are participating in the optional retirement program. Benefits fully vest after one year plus one day of employment. Because these are individual annuity contracts, the state has no additional or unfunded liability for this program. Senate Bill 1812, effective September 1, 2013, limits the amount of the state's contribution to 50% of eligible employees in the reporting district.

**Summary of Combined Retirement Plans**

The retirement expense to the State for the District's TRS and ORP participants was \$593,494 and \$651,683 for the fiscal years ended August 31, 2020 and 2019, respectively. This amount represents the portion of expended appropriations made by the State Legislature on behalf of the District.

The total payroll for all District employees was \$25,891,915 and \$24,811,213 for fiscal years 2020 and 2019, respectively. The total payroll of employees covered by the Teacher Retirement System (TRS) was \$17,004,159 and \$17,289,606 and the total payroll of employees covered by the Optional Retirement Program (ORP) was \$4,521,346 and \$4,674,184 for fiscal years 2020 and 2019, respectively.

#### **NOTE 12 – DEFERRED COMPENSATION PROGRAM**

The District's employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Government Code 609.001. As of August 31, 2020 and 2019, the District had no employees participating in the program.

#### **NOTE 13– COMPENSABLE ABSENCES**

Full-time employees in 12-month positions earn annual vacation leave from 6.67 to 13.33 hours per month depending on the number of years employed with the District. The District's policy allows a full-time employee to accumulate a balance equal to one hundred fifty percent (150%) of his or her annual accrual rate. Employees with at least six months of service who terminate their employment are entitled to payment for all accumulated vacation leave. The District has recognized the accrued liability for the unpaid annual leave for the periods ending August 31, 2020 and 2019 in the amounts of \$721,365 and \$648,073 respectively.

Sick leave, which can be accumulated to a maximum of seven hundred twenty (720) hours, is earned at the rate of eight (8) hours per month. The District's policy is to recognize the cost of sick leave when paid. The liability is not shown in the financial statements since experience indicates the expenditure for sick leave to be minimal.

#### **NOTE 14 –HEALTH CARE AND LIFE INSURANCE BENEFITS**

Certain health care and life insurance benefits for active employees. These benefits are administered by the Employees Retirement System of Texas and provided through an insurance company whose premiums are based on benefits paid during the previous year. The State appropriates a sum-certain amount for these benefits to the District based on employee enrollments during the legislative cycle, and any additional employer expense must be funded by the District. SB 1812, effective September 1, 2013, limits the amount of the state's contribution to 50 percent of eligible employees in the reporting district.

For the year ended August 31, 2020, the employer's maximum contribution per full-time employee/retiree was \$625 per month for the year and totaled \$7,500 per employee/retiree for the year. The employer also paid a maximum amount for a spouse, children, or family of \$1,341, \$1,104, and \$1,820 per month, respectively.

For the year ended August 31, 2019, the employer's maximum contribution per full-time employee/retiree was \$625 per month for the year and totaled \$7,500 per employee/retiree for the year. The employer also paid a maximum amount for a spouse, children, or family of \$1,341, \$1,104, and \$1,820 per month, respectively.

**NOTE 15 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS**

**Plan Description.** The District participates in a cost-sharing, multiple-employer, other post-employment benefit (OPEB) plan with a special funding situation. The Texas Employees Group Benefits Program (GBP) is administered by the Employees Retirement System of Texas (ERS). The GBP provides certain postemployment health care, life and dental insurance benefits to retired employees of participating universities, community colleges, and State agencies in accordance with Chapter 1551, Texas Insurance Code. Almost all employees may become eligible for those benefits if they reach normal retirement age while working for the State and retire with at least 10 years of service to eligible entities. Surviving spouses and dependents of these retirees are also covered. Benefit and contribution provisions of the GBP are authorized by State law and may be amended by the Texas Legislature.

**OPEB Plan Fiduciary Net Position.** Detailed information about the GBP's fiduciary net position is available in the separately issued ERS Comprehensive Annual Financial Report (CAFR) that includes financial statements, notes to the financial statements and required supplementary information. That report may be obtained on the Internet at <https://ers.texas.gov/About-ERS/Reports-and-Studies/Reports-on-Overall-ERS-Operations-and-Financial-Management>; or by writing to ERS at: 200 East 18th Street, Austin, TX 78701; or by calling (877) 275-4377.

**Benefits Provided.** Retiree health benefits offered through the GBP are available to most State of Texas retirees and their eligible dependents. Participants need at least ten years of service credit with an agency or institution that participates in the GBP to be eligible for GBP retiree insurance. The GBP provides self-funded group health (medical and prescription drug) benefits for eligible retirees under HealthSelect. The GBP also provides a fully insured medical benefit option for Medicare-primary participants under the HealthSelect Medicare Advantage Plan and life insurance benefits to eligible retirees via a minimum premium funding arrangement. The authority under which the obligations of the plan members and employers are established and/or may be amended is Chapter 1551, Texas Insurance Code.

**Contributions.** Section 1551.055 of Chapter 1551, Texas Insurance Code, provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS Board of Trustees. The employer and member contribution rates are determined annually by the ERS Board of Trustees based on the recommendations of ERS staff and its consulting actuary. The contribution rates are determined based on (i) the benefit and administrative costs expected to be incurred, (ii) the funds appropriated and (iii) the funding policy established by the Texas Legislature in connection with benefits provided through the GBP. The Trustees revise benefits when necessary to match expected benefit and administrative costs with the revenue expected to be generated by the appropriated funds. There are no long-term contracts for contributions to the plan.

The following table summarizes the maximum monthly employer contribution toward eligible retirees' health and basic life premium. Retirees pay any premium over and above the employer contribution. The employer does not contribute toward dental or optional life insurance. Surviving spouses and their dependents do not receive any employer contribution. As the non-employer contributing entity (NECE), the State of Texas pays part of the premiums for the junior and community colleges.

**Actuarial Assumptions  
ERS Group Benefits Program Plan (Continued)**

Projected annual salary increase (includes inflation)	2.50% to 9.50%
Annual healthcare trend rate	7.30% for FY2021, 7.40% for FY2022, 7.00% for FY 2023, decreasing 50 basis points per year to an ultimate rate of 4.50% for 2028 and later years

Active members	Sex Distinct RP-2014 Employee Mortality multiplied by 90% with Ultimate MP Projection Scale from the year 2014

Source: FY2019 ERS CAFR except for mortality assumptions obtained from ERS FY19 GASB 74 Actuarial Valuation

Many of the actuarial assumptions used in this valuation were based on the results of actuarial experience studies performed by the ERS and TRS retirement plan actuaries for the period September 1, 2010 to August 31, 2017 for higher education members.

**Investment Policy.** The State Retiree Health Plan is a pay-as-you-go plan and does not accumulate funds in advance of retirement. The System’s Board of Trustees adopted the amendment to the investment policy in August 2017 to require that all funds in the plan be invested in short-term fixed income securities and specify that the expected rate of return on these investments is 2.4%.

**Discount Rate.** Because the GBP does not accumulate funds in advance of retirement, the discount rate that was used to measure the total OPEB liability is the municipal bonds rate. The discount rate used to determine the total OPEB liability as of the beginning of the measurement year was 3.96%. The discount rate used to measure the total OPEB liability as of the end of the measurement year was 2.97%, which amounted to a decrease of 0.99%. The source of the municipal bond rate was the Bond Buyer Index of general obligation bonds with 20 years to maturity and mixed credit quality. The bonds average credit quality is roughly equivalent to Moody’s Investors Service’s Aa2 rating and Standard & Poor’s Corp’s AA rating. Projected cash flows into the plan are equal to projected benefit payments out of the plan. Because the plan operates on a pay-as-you-go (PAYGO) basis and is not intended to accumulate assets, there is no long-term expected rate of return on plan assets and therefore the years of projected benefit payments to which the long-term expected rate of return is applicable is zero years.

**Discount Rate Sensitivity Analysis.** The following schedule shows the impact on the District’s proportionate share of the collective net OPEB Liability if the discount rate used was 1 percent less than and 1 percent greater than the discount rate that was used 2.97% in measuring the net OPEB Liability.

		1% Decrease in Discount Rate 1.97%	Discount Rate 2.97%	1% Increase in Discount Rate 3.97%

**Healthcare Trend Rate Sensitivity Analysis.** The initial healthcare trend rate is 7.3% and the ultimate rate is 4.5%. The following schedule shows the impact on the District’s proportionate share of the collective net OPEB Liability if the healthcare cost trend rate used was 1 percent less than and 1 percent greater than the healthcare cost trend rate that was used 7.3% in measuring the net OPEB liability.

		1% Decrease Healthcare Cost Trend Rates (6.3% decreasing to 3.5%)	Current Healthcare Cost Trend Rates (7.3% decreasing to 4.5%)	1% Increase in Healthcare Cost trend Rates (8.3% decreasing to 5.5%)

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB.** At August 31, 2020, the District reported a liability of \$27,921,686 for its proportionate share of the ERS’s net OPEB liability. This liability reflects a reduction for State support provided to the District for OPEB. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District’s Proportionate share of the collective net OPEB liability	\$	27,921,686	
State’s Proportionate share that is associated with District		26,129,685	
		54,051,371	

The net OPEB liability was measured as of August 31, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The employer’s proportion of the net OPEB liability was based on the employer’s contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2018, thru August 31, 2019.

At the measurement date of August 31, 2019, the employer’s proportion of the collective net OPEB liability was 0.08078566%, which was 0.08633098% measured as of August 31, 2018.

For the year ended August 31, 2020, the District recognized OPEB expense of \$29,602 and revenue of \$29,602 for support provided by the State.

Changes Since the Prior Actuarial Valuation – Changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period were as follows:

- Demographic assumptions (including rates of retirement, disability, termination, mortality, and assumed salary increases) for higher education members have been updated to reflect assumptions recently adopted by the trustees from the Teachers Retirement System of Texas.
- Assumed expenses, assumed per capita health benefit costs, and assumed health benefit cost, retiree contribution, and expense trends have been updated to reflect recent experience and its effects on our short-term expectations.
- The percentage of current retirees and their spouses not yet eligible to participate in the HealthSelect Medicare Advantage Plan and future retirees and their spouses who will elect to participate in the plan at the earliest date at which coverage can commence
- The percentage of future male retirees assumed to be married and electing coverage for their spouse have been updated to reflect recent plan experience and expected trends.
- The discount rate assumption was increased from 3.96% to 2.97% to utilize the updated yield or index rate for 20-year, tax-exempt general obligation municipal bonds rated AA/Aa (or equivalent) or higher in effect on the measurement date.

Changes of Benefit Terms Since Prior Measurement Date – The following benefit revisions have been adopted since the prior valuation:

- An increase in the out-of-pocket maximum for both HealthSelect and Consumer Directed HealthSelect for those HealthSelect retirees and dependents for whom Medicare is not primary

At August 31, 2020 the District reported its proportionate share of the ERS plan's collective deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual economic experience	\$ -	726,547
Changes in actuarial assumptions	1,987,038	6,239,438

**NOTE 16 – PENDING LAWSUITS AND CLAIMS**

In the ordinary course of business, the District is involved with various claims and potential litigation. While the ultimate liability with respect to litigation and other claims asserted against the District cannot be reasonably estimated at this time, this liability, to the extent not provided for by insurance or otherwise, is not likely to have a material effect on the District.

The District receives federal, state and local grants that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. The District's management believes such disallowances, if any, will not have a material effect on the basic financial statements.

The use of tax proceeds is restricted to maintenance and operations and payment of general obligation debt.

**NOTE 20 – TAX ABATEMENTS**

The District has entered into property tax abatement agreements with local businesses under the Property Redevelopment and Tax Abatement Act, as authorized by Texas Tax Code, Chapter 312. Under the Act, local governments may grant property tax abatements for a term of up to ten (10) years with the amount of taxable value eligible for abatement ranging from 10% to 100%.

The District is under no obligation to provide tax abatement to any specific applicant and reserves the right to do so on a case-by-case basis as stimulation for economic development within the Reinvestment Zones and Enterprise Zones established by the City of Odessa. The abatements may be granted to any business located within or promising to relocate to the service area of the District.

For the fiscal year ended August 31, 2020, the District abated property taxes totaling \$117,968 under this program, including the following tax abatement agreements that each exceed 10 percent of the total amount abated:

**A. Ector County Energy Center LLC**

- Commitment: construction of improvements in the form of a 386-megawatt natural gas fueled power plant no later than December 31, 2016
- Terms of abatement: 100% exemption from ad valorem taxes for five (5) years
- The abatement for fiscal year 2020 amounted to \$112,932, compared to \$118,823 for fiscal year 2019.

#### **NOTE 21 – INCOME TAXES**

The District is exempt from income taxes under Internal Revenue Code Section 115, Income of States, Municipalities, Etc., although unrelated business income may be subject to income taxes under Internal Revenue Code Section 511 (a)(2)(B), Imposition of Tax on Unrelated Business Income of Charitable, Etc. Organizations. The District has no unrelated business income tax liability for the years ended August 31, 2020 and 2019.

#### **NOTE 22 – COMPONENT UNITS**

Odessa College Foundation, Incorporated (the “Foundation”) was established as a separate nonprofit organization in 1996 to raise funds to provide student scholarships and assistance in the development and growth of the District. Under Governmental Standards Board Statement No. 39, *Determining Whether Certain Organizations are Component Units*, the Foundation is determined to be a component unit of the District because:

- the District provides financial support to the Foundation and the economic resources received or held by the Foundation are entirely or almost entirely for the direct benefit of the District;
- The District is entitled to or has the ability to otherwise access a majority of the economic resources received or held by the Foundation; and
- The economic resources held by the Foundation that the District is entitled to or has the ability to otherwise access are significant to the District

Accordingly, the Foundation financial statements are included in the District’s annual report as a discrete component unit (see table of contents). Complete financial statements of the Odessa College Foundation, Incorporated can be obtained from the administrative offices of the Foundation/Odessa College District.

#### **NOTE 23 – SUBSEQUENT EVENTS**

**NOTE 2: CHANGES OF ASSUMPTIONS:**

The following changes of assumptions occurred during the year ending August 31, 2020:

- The total pension liability as of August 31, 2019 was developed using a roll-forward method from the August 31, 2018 valuation.
- Demographic assumptions including postretirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2018.
- Economic assumptions including rates of salary increase for individual participants was updated based on the same experience study.
- The discount rate changed from 6.907 percent as of August 31, 2018 to 7.25 percent as of August 31, 2019.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

**NOTE 1: CHANGES OF BENEFIT TERMS INCLUDE:**

Information about factors that significantly affect terms in the amounts reported in the RSI Schedules should be presented (for COLA increases).

**NOTE 2: CHANGES OF ASSUMPTIONS:**

The following changes of assumptions occurred during the year ending August 31, 2020:

- The total pension liability as of August 31, 2019 was developed using a roll-forward method from the August 31, 2018 valuation.
- Demographic assumptions including postretirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2018.
- Economic assumptions including rates of salary increase for individual participants was updated based on the same experience study.
- The discount rate changed from 6.907 percent as of August 31, 2018 to 7.25 percent as of August 31, 2019.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

**NOTE 1: CHANGES OF BENEFIT TERMS INCLUDE:**

An increase in the out-of-pocket maximum for both HealthSelect and Consumer Directed HealthSelect for those HealthSelect retirees and dependents for whom Medicare is not primary.

**NOTE 2: CHANGES OF ASSUMPTIONS:**

Demographic assumptions (including rates of retirement, disability, termination, mortality, and assumed salary increases) for higher education members have been updated to reflect assumptions recently adopted by the trustees from the Teachers Retirement System of Texas.

- Assumed expenses, assumed per capita health benefit costs, and assumed health benefit cost, retiree contribution, and expense trends have been updated to reflect recent experience and its effects on our short-term expectations.
- The percentage of current retirees and their spouses not yet eligible to participate in the HealthSelect Medicare Advantage Plan and future retirees and their spouses who will elect to participate in the plan at the earliest date at which coverage can commence.
- The percentage of future male retirees assumed to be married and electing coverage for their spouse have been updated to reflect recent plan experience and expected trends.
- The discount rate assumption was increased from 3.96% to 2.97% to utilize the updated yield or index rate for 20-year, tax-exempt general obligation municipal bonds rated AA/Aa (or equivalent) or higher in effect on the measurement date.

**SINGLE AUDIT REPORTS**

**Independent Auditors' Report on Internal Control  
Over Financial Reporting and on Compliance and Other Matters  
Based on an Audit of Financial Statements Performed in Accordance  
with Government Auditing Standards**

The Board of Trustees  
Odessa College District  
Odessa, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Odessa College District (the "District"), as of and for the year ended August 31, 2020, and the related notes to the financial statements, which collectively comprise District's basic financial statements, and have issued our report thereon December 1, 2020.

***Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### ***Compliance with the Texas Public Funds Investment Act***

We have performed tests designed to verify the District's compliance with the requirements of the Public Funds Investment Act. During the year ended August 31, 2020, no instances of noncompliance were found.

### ***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditors' Report on Compliance  
For Each Major Federal Program and Report on Internal  
Control Over Compliance Required by the Uniform Guidance**

To the Board of Trustees  
Odessa College District  
Odessa, Texas

***Report on Compliance for Each Major Federal Program***

We have audited Odessa College District's (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

### ***Opinion on Each Major Federal Program***

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2020.

### ***Report on Internal Control over Compliance***

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
