Report of Independent Certified Public Accountants on Basic Financial Statements and Supplemental Information

The Board of Trustees
Odessa Junior College District
Odessa, Texas

We have audited the accompanying basic financial statements of Odessa Junior College District (the "District") as of and for the years ended August 31, 2007 and 2006 as listed in the table of contents. These basic financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these basic financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the District as of August 31, 2007 and 2006, and the results of its operations and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 18, 2007 on our consideration of the District's internal control over financial reporting and our tests of its compliance with laws, certain regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of my testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audits.

The Management's Discussion and Analysis on pages 4 through 11 is not a required part of the basic financial statements but is supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it. The statistical section on pages 51 through 68 have been furnished to us and were not subjected to the audit procedures applied in the audit of the financial statements. Accordingly, we do not express an opinion on the statistical sections.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements of the District taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. The accompanying schedule of expenditures of state awards is presented for purposes of additional analysis as required by the *Provisions of the State of Texas Single Audit Circular*, and is not a required part of the basic purpose financial statements. In addition, the supplementary data presented in schedules A, B, C and D is presented for additional purposes and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis (Unaudited)

Odessa Junior College District (the "District") is proud to present its financial statements for Fiscal Year 2007 which are in conformance with the Governmental Accounting Standards Board. There are three basic financial statements presented: the Statement of Net Assets; the Statement of Revenues, Expenses and Changes in Net Assets; and the Statement of Cash Flows. These statements should be read in conjunction with the notes to the basic financial statements. The following summary and management's discussion and analysis are intended to assist readers with an overview of the District's financial activities for the years ended August 31, 2007 (Fiscal Year 2007), 2006 (Fiscal Year 2006), and 2005 (Fiscal Year 2005), and identify and explain changes in the District's financial picture during that time period.

Some of the financial and enrollment highlights of FY 2007 are as follows:

- Net assets increased by \$2.8 million, or 13.3%, from \$21.0 million to \$23.8 million.
- Long-term liabilities decreased 5.3% from \$25.7 million to \$24.4 million, primarily because of principal payments on bonds.
- Ad valorem tax revenue increased 9.8% from \$11.7 million to \$12.8 million.
- Investment income increased by 33.8% from \$1.07 million to \$1.43 million.
- At the end of the current fiscal year, total revenues exceeded total expenses by \$2.8 million.
- Unduplicated headcount of students enrolled in credit classes decreased by 5.5% from 6,589 to 6,227.
- Total contact hours from both credit and noncredit instruction decreased by 11.1% from 2,381,734 to 2,117,419.

The Statement of Net Assets

The Statement of Net Assets reports the assets, liabilities, and net assets of the District as of the end of the fiscal year. It is a "point in time" financial statement; its purpose is to give the readers a snapshot of the financial condition of the Odessa College on the last day of each fiscal year.

The Statement of Net Assets includes assets and liabilities, both current and non-current, and net assets. Current assets are those assets that are available to satisfy current liabilities, or liabilities that are due within one year. Non-current assets include capital assets, long-term investments, and other assets not classified as current. Non-current liabilities include bonds payable and other long-term commitments.

The difference between total assets and total liabilities - net assets – is the amount of resources available to finance future activities. Over time, the increases and decreases in net assets is one indicator of whether the overall financial condition has improved or deteriorated during the year when considered with other factors such as enrollment, contact hours of instruction, student retention and other non-financial information.

Net assets are divided into three major categories. The first category, "Invested in Capital Assets, Net of Related Debt," provides the District's equity in property, plant and equipment. The next net asset category is "Restricted Net Assets." These assets have external limitations on the way in which they may be used. The last category is "Unrestricted Net Assets." They are available to use for any lawful purpose of the District.

Total net assets	\$ 23,800	\$ 21,043	\$ 18,545	\$ 2,757	\$ 2,498

The current ratio, indicating the amount of current assets that could be quickly converted to cash if needed to pay current liabilities, increased to 3.0 to 1 at August 31, 2007, compared to a 2.9 to 1 ratio at August 31, 2006 and a 2.2 to 1 ratio at August 31, 2005.

As shown in the statement above, total assets increased by \$1.3 million in fiscal year 2007 and \$1.1 million in 2006. During the same periods, liabilities decreased by \$1.4 million and \$1.4 million, respectively. As a result, the total net assets increased by \$2.8 million in 2007 and \$2.4 million in 2006.

The current ratio, indicating the amount of current assets that could be quickly converted to cash if needed to pay current liabilities, increased to 3.0 to 1 at August 31, 2007, compared to a 2.9 to 1 ratio at August 31, 2006 and a 2.2 to 1 ratio at August 31, 2005.

Current assets consist mainly of cash, short-term investments, prepayments, and receivables. During fiscal year 2007, current assets increased by 4.0% from \$21.1 million to \$22.0 million primarily due to a \$1.5 million increase in cash and short term investments. This increase was partially offset by decreases in accounts receivable and prepaid expenses. Federal accounts receivable decreased \$0.5 million principally due to the ending of a Title V grant. Prepaids decreased \$0.3 million due to a timing difference in prepayments of scholarships. During fiscal year 2006, current assets increased 30% primarily due to maturing of longer term investments which were converted to cash and TexPool deposits.

Management's Discussion and Analysis (Unaudited)

Capital assets, net of depreciation, increased by \$88,000 during fiscal year 2007 and by \$740,000 in fiscal year 2006 as purchases of land, building improvements, and equipment continue to exceed annual depreciation charges each year.

Current liabilities declined by \$132,000 in fiscal year 2007, attributable to lower deferred tuition revenue and accrued compensable absences at year end. During fiscal year 2006, current liabilities decreased by \$60,000 reflecting lower year end accounts payable due to fewer capital projects in progress than the previous year.

Non-current liabilities decreased by \$1.36 million during fiscal year 2007 and \$1.35 million in 2006 as a result of scheduled payments of outstanding bonds.

The District's investment in capital assets (net of related debt) increased by \$1.97 million and \$2.0 millions in 2007 and 2006, respectively, as a combined result of capital purchases and principal payment on related bond debt. The increase in unrestricted net assets of \$0.76 million and \$0.53 million in 2007 and 2006, respectively, resulted from revenues earned exceeding expenses incurred.

The Statement of Revenues, Expenses, and Changes in Net Assets

The Statement of Revenues, Expenses, and Changes in Net Assets focuses on the "bottom line results" of the District's operations. This approach summarizes and simplifies the user's analysis of the cost of various District services to its students and the burden to the public. The statement is divided into (a) Operating Revenues and Expenses and (b) Non-Operating Revenues and Expenses.

Generally, operating revenues are received for providing goods and services to the various customers of the District. Operating expenses are those paid to acquire or produce the goods and services provided in return for the operating revenues, and to carry out the District's mission. Non-operating revenues are funds received for which goods and services are not directly provided to those providing the revenue, e.g. the state legislature, local ad valorem taxpayers, and investment portfolios.

Odessa College, like all other Texas community colleges, is primarily dependent upon three sources of revenue: state appropriations, tuition and fees, and local property taxes. Since state appropriations and property taxes are classified as Non-operating Revenues (per the GASB requirement), Texas community colleges will generally display an operating deficit before taking into account other support. Essentially, this operating deficit represents the net costs of services to students that must be covered by state appropriations, local property taxation, and other sources of revenue. Therefore, total revenues and total expenses should be considered in assessing the change in the District's financial position.

Management's Discussion and Analysis (Unaudited)

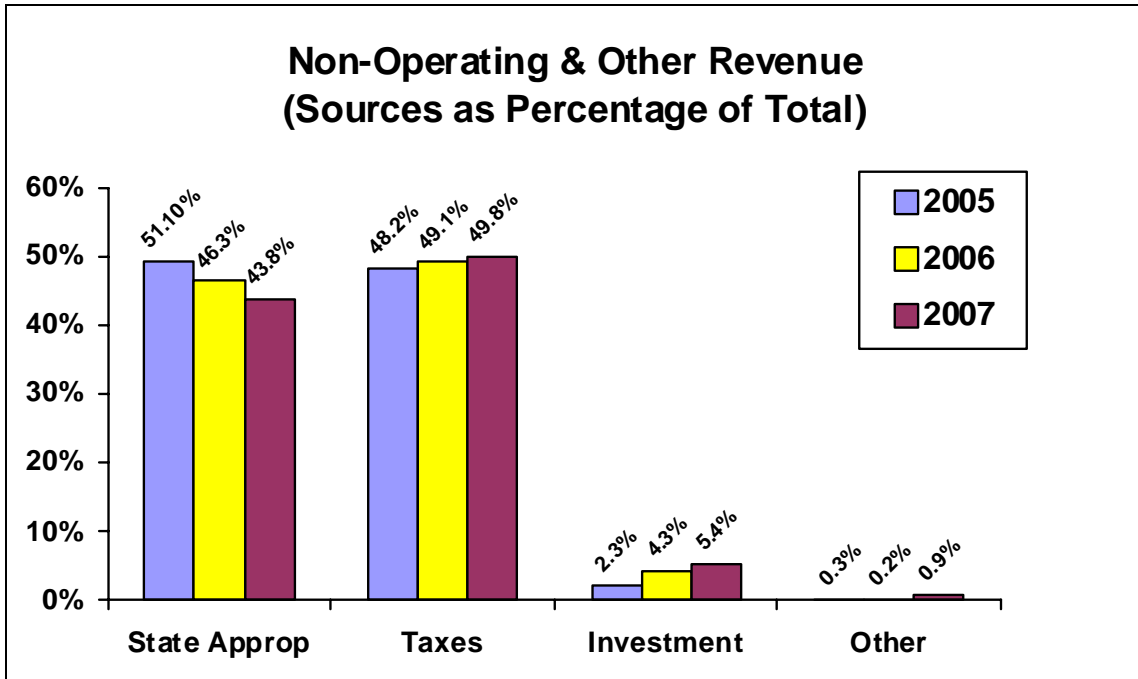

Key factors impacting revenues:

- Tuition revenue increased by \$176,000 and is attributable to an increase in tuition rates. The tuition rate increase was \$5 per hour for in-district or 13.5%, \$10 per hour for out-of-district or 21%, and \$20 per hour for out-of-state for an average of 31%.
- Federal Grant revenue decreased by \$2.03 million due to reduced financial aide awards, completion of a Title V grant and reduced spending of a Title V Coop grant compared to the prior year.
- State appropriations increased by \$262,000. Although contact hour funding remained level from the previous year, state allocations increased for employee benefits and the Nursing Shortage Reduction Program.
- Non-operating revenues rose primarily due to an additional \$1.14 million and \$1.31 million in property tax revenues during fiscal years 2007 and 2006, respectively. Although the tax rate decreased from 20 cents in 2006 to 19 cents in 2007, net taxable values increased by 15.8% and 11.6% in 2007 and 2006, respectively. Minerals increased by 11.5%, real estate by 16.2%, and personal property by 22.7%. In addition, investment income increased 34.38% over fiscal year 2006.

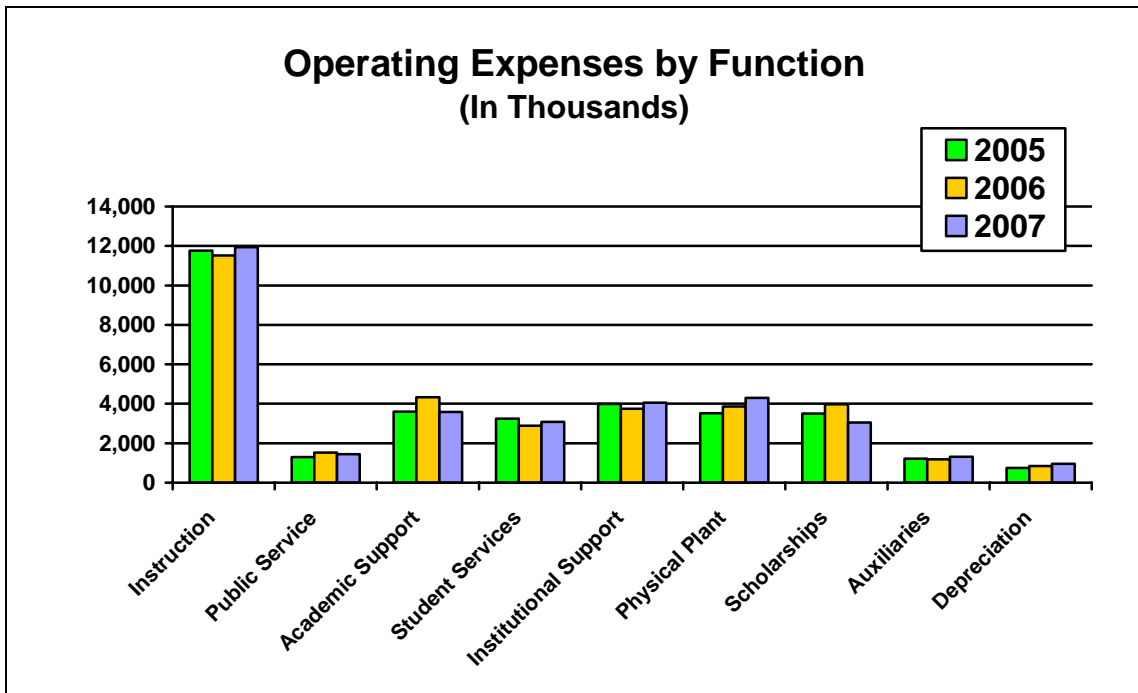

The next two graphs illustrate the sources of operating and non-operating revenues for fiscal years 2005 through 2007. The obvious trend is an increasing percentage of revenue being provided by student tuition, local property taxes, and investments. Conversely, there is a downward trend in government grants and state appropriations as a percentage of total revenues.

**Management's Discussion and Analysis
(Unaudited)**

The following graph compares operating expenses classified by functional category for fiscal years 2007, 2006 and 2005. Operating expenses for fiscal year 2007 decreased \$147,000 or .04% from fiscal year 2006. Fiscal year 2006 operating expenses increased by \$967,000 or 2.9% over the 2005 fiscal year.

**Management's Discussion and Analysis
(Unaudited)**

Key factors impacting operating expenses by functional expense categories:

- Academic Support expenditures during fiscal year 2007 decreased 17.0% from \$4,328,000 in 2006 to \$3,592,000 in fiscal year 2007 due to the ending of a Dept of Education Title V grant and staff reorganizations. Academic support increased in fiscal year 2006 by \$731,000, or 20.3%, over fiscal year 2005 due to addition of distance learning equipment provided by Title V federal grant funds.
- Scholarship expenditures for fiscal year 2007 decreased 23.2% from \$3,972,000 in 2006 to \$3,050,000 in fiscal year 2007. The largest part of the decrease is due to reduced federal financial aide awards. Because of the lucrative job market in the Permian Basin, the District had more part time students resulting in fewer students receiving full scholarship awards. The overall number of financial aide awards declined by 15% from 2006 to 2007. The District also experienced a lower enrollment in fiscal year 2007 which contributed to the reduced number of financial aide awards.
- Physical Plant expenses increased by 11.4% from \$3,862,000 to \$4,301,000 during fiscal year 2007 and 2006, respectively, due to higher energy costs and more deferred maintenance projects. The increase from 2005 to 2006 was 9.7% for similar reasons.
- Depreciation increased by 12.7% from \$844,000 in 2006 to \$952,000 in 2007. As the District continues to purchase additional equipment and complete large deferred maintenance projects, associated depreciation expense is expected to continue to increase.
- Increases in expenses for Instruction and Institutional Support are primarily due to salary increases. The average full-time salary increased by 5.5% from 2006 to 2007.

Capital Assets and Long Term Debt Activity

At August 31, 2007 and 2006, the District had \$22.0 million and \$21.4 million, respectively, invested in capital assets, net of accumulated depreciation. Details of these assets for fiscal year 2007, 2006, and 2005 are shown below.

**Capital Assets, Net of Depreciation

Management's Discussion and Analysis (Unaudited)

Investment in Land increased due to the purchase of two properties contiguous to the District's campus for possible future expansion. The increase in Buildings and Improvements consists primarily of HVAC upgrades in the Sports Center and Whitaker Hall. Furniture and Equipment increased as Perkins and Title V Coop funds were used to purchase instructional equipment in several vocational programs and to install new two-way video distance education equipment on the main campus and at the Seminole extension center. In addition, two math labs received complete computer upgrades.

Total long-term indebtedness was \$25.7 million and \$27.0 million at August 31, 2007 and 2006, respectively. Principal payments of \$1.35 million and \$1.25 million were made during the 2007 and 2006 fiscal years, respectively. The average debt service payment, including interest, is \$2.69 million per year with the final maturity in the year 2019. Moody's Investor Services recently raised the District's bond rating from A3 to A2.

Economic Factors That Will Affect the Future

The global demand for petroleum has significantly raised the taxable value of mineral property and stimulated the economy in Ector County. In addition, aggressive economic development efforts have resulted in diversification and addition of new industry. As a result, the tax base for the 2007-2008 fiscal year has increased by 15.8% or \$9.22 billion dollars. The District's Board of Trustees continues to direct much of the increased funding into reserves for deferred maintenance projects and technology replacements.

The high employment rates common during an oil and gas economic upswing typically result in lower enrollments as unskilled laborers are tempted to temporarily choose relatively high wages over college attendance. Through aggressive marketing, partnerships with local public schools, and new curriculum that is responsive to industry demands, the District expects to maintain a steady enrollment during the near future.

During the summer of 2007, a major taxpayer's assets and business were purchased by another entity for less than the Ector County Appraisal District's appraised tax value. Subsequently, the previous owner filed a protest with the Appraisal District over the taxable value of the business before the sale. The Tax Appraisal District has informed the District of the likelihood of a refund of taxes paid in 2007 and a reduction of the certified values for 2008. Although the exact amount of the valuation reduction is not known at the time of the printing of these statements, the Appraisal District was able to establish a conservative figure representing the amount the District might be required to refund to the previous owner. The District has booked a liability in the amount of \$215,000 representing an estimated refund amount.

Other than the above, the District is not aware of any currently known facts, decisions, or conditions that are expected to have a significant effect on the financial position or results of operations during the current fiscal year.

Odessa Junior College District

NOTES TO FINANCIAL STATEMENTS

August 31, 2007 and 2006

NOTE 1 – REPORTING ENTITY

Odessa Junior College District (the “District”) was established in 1946, in accordance with the laws of the State of Texas, to serve the educational needs of Ector County and the surrounding communities. The District is considered to be a special purpose, primary government according to the definition in Governmental Accounting Standards Board (“GASB”) Statement 14, *The Financial Reporting Entity*. While the District receives funding from local, state, and federal sources, and must comply with the spending, reporting, and recordkeeping requirements of these entities, it is not a component unit of any other governmental entity.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. *Reporting Guidelines*

The significant accounting policies followed by the District in preparing these financial statements are in accordance with the *Texas Higher Education Coordinating Board's Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges*. The District applies all applicable GASB pronouncements and all applicable Financial Accounting Standard Board (“FASB”) statements and interpretations issued on or before November 30, 1989, unless they conflict or contradict GASB pronouncements. The District has elected not to apply FASB guidance issued subsequent to November 30, 1989, unless specifically adopted by the GASB. The District is reported as a special-purpose government engaged in business-type activities.

2. *Tuition Discounting*

Texas Public Education Grants

Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (“TPEG”), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code §56.0333). When the award for tuition is used by the student, the amount is recorded as tuition and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student the amount is recorded as a scholarship expense.

Title IV, HEA Program Funds

Certain Title IV HEA Program funds are received by the District to pass through to the student. These funds are initially received by the District and recorded as restricted revenue. When the student is awarded and uses these funds for tuition and fees, the amounts are recorded as revenue and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student the amount is recorded as a scholarship expense.

Other Tuition Discounts

The District awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used for tuition and fees, the amounts are recorded as tuition and fee revenue and a corresponding amount is recorded as a tuition discount.

3. *Basis of Accounting*

The financial statements of the District have been prepared on the accrual basis whereby all revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4. *Budgetary Data*

Each community college district in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for current operating funds for the fiscal year beginning September 1. The budget, which is prepared on the accrual basis of accounting, is adopted by the District's Board of Trustees. A copy of the approved budget must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and the Governor's Office of Budget and Planning.

5. *Cash and Cash Equivalents*

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Because of their highly liquid nature, funds held in public funds investment pools are also considered to be cash equivalents.

6. *Investments*

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, investments are reported at fair value. Fair values are based on published market rates. Short-term investments have an original maturity greater than three months but less than one year at time of purchase. Long-term investments have an original maturity of greater than one year at the time of purchase.

7. *Inventories*

Inventories are stated at the lower of cost, determined using the first-in, first-out method, or market.

8. *Capital Assets*

Capital assets are stated at cost. Donated capital assets are valued at their estimated fair market value on the date received. The District's policy calls for capitalization of equipment, infrastructure and land improvements with a unit cost of \$5,000 or more and an estimated useful life in excess of two years. Buildings and building renovations in excess of \$100,000 that significantly increase the value or extend the useful life of the structure are also capitalized. The District reports depreciation under a single-line as a business-type unit. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. The following lives are used:

Buildings and Building Improvements	50 years
Other Real Estate Improvements	20 years
Library Books	15 years
Furniture, Machinery, Vehicles and Other Equipment	10 years
Telecommunications and Peripheral Equipment	5 years

9. *Deferred Revenue*

Deferred revenue relates to student tuition, fees and other revenues received during the current physical period for classes or activities to be held in the following period. Similarly, deferred expenditures represent scholarship funds expended in the current period relating to the following period.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

10. *Estimates*

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

11. *Operating and Non-Operating Revenue and Expense Policy*

The District distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the District's principal ongoing operations. The principal operating revenues are tuition and related fees. The major non-operating revenues are state appropriations and property tax collections. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets.

12. *New Accounting Pronouncements*

GASBS No. 44

This Statement amends the portions of NCGA Statement 1, *Governmental Accounting and Financial Reporting Principles*, that guide the preparation of the statistical section. The statistical section presents detailed information, typically in ten-year trends, that assists users in utilizing the basic financial statements, notes to basic financial statements, and required supplementary information to assess the economic condition of a government.

Three shortcomings have been identified in the statistical section since NCGA Statement 1 was issued in 1979. First, NCGA Statement 1 presented a list of fifteen required schedules with no additional explanation of the nature of the information they were to contain. As a result, some governments prepared their statistical sections differently from others, thereby diminishing the usefulness and comparability of the information. Second, the statistical section requirements were oriented to general purpose local governments. Consequently, other types of governments had little guidance on how to adapt the requirements to their circumstances, resulting in incomplete and inconsistent application of the standards and, therefore, additional loss of comparability and usefulness. Third, the requirements for the statistical section did not encompass the new information that governments are presenting as a result of GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*.

The statistical section is a required part of a comprehensive annual financial report ("CAFR"), although governments are not required to prepare a statistical section if they do not present their basic financial statements within a CAFR. These circumstances are not altered by this Statement. However, this Statement does apply to any statistical section that accompanies a government's basic financial statements. The provisions of this Statement are effective for statistical sections prepared for periods beginning after June 15, 2005.

GASBS No. 46

GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, requires that limitations on the use of net assets imposed by enabling legislation be reported as restricted net assets. In the process of applying this provision, some governments have had difficulty interpreting the requirement that those restrictions be "legally enforceable." The confusion over this phrase has resulted in a diversity of practice that has diminished comparability.

12. New Accounting Pronouncements (Continued)

GASBS No. 46 (Continued)

This Statement clarifies that a legally enforceable enabling legislation restriction is one that a party external to a government—such as citizens, public interest groups, or the judiciary—can compel a government to honor. The Statement states that the legal enforceability of an enabling legislation restriction should be reevaluated if any of the resources raised by the enabling legislation are used for a purpose not specified by the enabling legislation or if a government has other cause for reconsideration. Although the determination that a particular restriction is not legally enforceable may cause a government to review the enforceability of other restrictions, it should not necessarily lead a government to the same conclusion for all enabling legislation restrictions.

This Statement also specifies the accounting and financial reporting requirements if new enabling legislation replaces existing enabling legislation or if legal enforceability is reevaluated. Finally, this Statement requires governments to disclose the portion of total net assets that is restricted by enabling legislation. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2005.

13. Reclassifications

Certain reclassifications have been made to the 2006 presentation to conform to the 2007 presentation.

14. Prior Year Restatement

A prior year restatement was made from Restricted Net Assets to Unrestricted Net Assets to correctly classify those net assets that were Board-designated for capital renewal and replacement projects. Restricted Net Assets are defined as assets that are restricted due to constraints placed on the assets either by external creditors or grantors or imposed by laws or regulations of outside governments. Assets that are restricted by the District's own governing board are considered Unrestricted Net Assets. They are displayed as Unrestricted, Board Designated on the face of Schedule D – Schedule of Net Assets by Source and Availability.

As of August 31, 2006, the Net Assets were restated as follows:

NOTE 3 – AUTHORIZED INVESTMENTS

The Board of Trustees of the District has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act of 1995 (Chapter 2256.001, Texas Government Code). The investments of the District are in compliance with Trustees' investment policies. Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit, and (5) other instruments and obligations authorized by statute.

In accordance with Sec. 2256.005 (n) of the Public Funds Investment Act, the community college, "...shall arrange for a compliance audit of management controls on investments and adherence to the District's established investment policies. The compliance audit shall be performed by the District's internal auditor or by a private auditor...Not later than January 1 of each even numbered year, the community college shall report the results of the most recent audit performed to the state auditor."

The State Auditor has determined that the District and their independent auditors should indicate compliance with the Act by completing the following:

- the categorization of investments by risk which is required by GASB 3 in the footnote "Deposits and Investments," and
- placing a statement in the scope paragraph of the Report on Compliance and on Internal Controls over Financial Reporting which indicate the audit work covered in the Act, or
- writing a separate letter to the State Auditor's Office stating that the District is in compliance with all requirements of the Act.

NOTE 4 – DEPOSITS AND INVESTMENTS

Deposits: At August 31, 2007 and 2006, the carrying amount of the District's deposits was \$2,165,574 and \$2,647,868, respectively; and bank balances equaled \$2,836,593 and \$2,908,706. Bank balances of \$123,353 and \$111,865 are covered by federal depository insurance and \$2,713,241 and \$2,796,840 were covered by collateral pledged in the District's name. The collateral was held by the District or by its Agent (Category 1). There were no uncollateralized bank balances (Category 3) at either year end. (This would have included any bank balance that was collateralized with securities held by the pledging financial institution's department or agent but not in the Districts' name). The District held \$15,607,574 and \$14,961,731 in state approved public investment pools at August 31, 2007 and 2006, respectively.

NOTE 9 – OPERATING LEASE COMMITMENTS

The District leases various equipment and facilities by means of Operating Lease Agreements. These agreements have clauses which allow the District to terminate the agreement if funding becomes unavailable or the Board of Trustees does not approve funding. Operating lease payments during the fiscal years ended August 31, 2007 and 2006 were \$475,515 and \$467,414, respectively.

The following schedule shows the future minimum payments required for those operating leases having initial or remaining noncancellable lease terms in excess of one year.

For the Year Ended <u>August 31,</u>	Operating <u>Leases</u>
2008	\$ 390,456

Total	\$ <u>616,860</u>

NOTE 10 – EMPLOYEES' RETIREMENT PLAN

All District employees, except those employed for less than one-half the standard workload and those exempted by law, are required to participate in an employee retirement plan. Employees are entitled to full retirement benefits if they retire (a) on or after age 65 with 10 years of credited service or (b) with a combination of age and years of service of at least 80. Vested employees may retire at or after age 55, or at any age with 30 years of credited service, and received reduced benefits. The Employee Retirement System of Texas also provides death and disability benefits for eligible retirees. Benefits are established by state statute.

One of the primary plans in which the District participates is administered by the Teacher Retirement System of Texas. The percentages of participant salaries currently contributed by the state and by each participant are 6.00% and 6.40%, respectively, of annual compensation. Employees who retire under this plan receive a defined retirement benefit, payable monthly for life, equal to 2.3 percent of their final-average salary for each year of credited service. Final-average salary is the employee's average salary over the best 3 years of credited service. Benefits fully vest on reaching 10 years of credited service.

The Teacher Retirement System does not separately account for each of its component government agencies, because it bears sole responsibility for retirement commitments beyond contributions fixed by the Legislature.

The State has also established an optional retirement program for institutions of higher education. Participation in the optional retirement program is in lieu of participation in the Teacher Retirement System. The optional retirement program provides for the purchase of annuity contracts. The percentages of participant salaries currently contributed by the state and each participant are 6.00% and 6.65%, respectively. Since these are individual annuity contracts, the State has no additional or unfunded liability for this program. For employees in the system prior to September 1, 1995, the District contributed 1.31%. Benefits fully vest after 1 year plus 1 day of employment.

The retirement expense to the State for the District was \$737,168 and \$683,472 for the fiscal years ended August 31, 2007 and 2006, respectively. This amount represents the portion of expended appropriations made by the State Legislature on behalf of the District.

NOTE 10 – EMPLOYEES' RETIREMENT PLAN (CONTINUED)

Sick leave, which can be accumulated to a maximum of six hundred and forty (640) hours, is earned at a rate of eight (8) hours per month. The District's policy is to recognize the cost of sick leave when paid. The liability is not shown in the financial statements since experience indicates the expenditure for sick leave to be minimal.

The total payroll for all District employees was \$16,263,478 and \$15,674,622 for fiscal years 2007 and 2006, respectively. The total payroll of employees covered by the Teacher Retirement System was \$9,129,026 and \$8,399,848, and the total payroll of employees covered by the Optional Retirement System was \$5,343,683 and \$5,387,264 for fiscal years 2007 and 2006, respectively.

NOTE 11 – DEFERRED COMPENSATION PROGRAM

The District's employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Government Code 609.001. As of August 31, 2007 and 2006, the District had no employees participating in the program.

NOTE 12 – COMPENSABLE ABSENCES

Full-time employees earn vacation leave from eighty (80) to one hundred sixty (160) hours per year depending on the number of consecutive years employed with the District. All unused vacation which is not taken by August 31st may be accumulated to a maximum of two hundred forty (240) hours. All unused hours are reduced by fifty percent (50%) on August 31st. Employees terminating after the beginning of the District year will be paid for their vacation time on a pro-rata basis. The liability for vacation leave has been accrued for the periods ending August 31, 2007 and 2006 in the amounts of \$49,816 and \$103,771, respectively.

Sick leave, which can be accumulated to a maximum of six hundred and forty (640) hours, is earned at a rate of eight (8) hours per month. The District's policy is to recognize the cost of sick leave when paid. The liability is not shown in the financial statements since experience indicates the expenditure for sick leave to be minimal.

NOTE 13 – PENDING LAWSUITS AND CLAIMS

At August 31, 2007, a lawsuit was pending involving the Ector County Appraisal District and a large taxpayer. The outcome of this dispute will have an effect on the District's tax revenue generated from the 2006 and 2007 tax rolls. While the ultimate liability with respect to this litigation cannot be determined at this time, the District has recorded an estimate of the potential liability in the amount of \$215,000 for refund of taxes collected in fiscal year 2007.

NOTE 14 – DISAGGREGATION OF RECEIVABLES AND PAYABLES BALANCES

NOTE 15 – CONTRACT AND GRANT AWARDS

Contract and grant awards are accounted for in accordance with the requirements of the AICPA Industry Audit Guide, *Audits of Colleges and Universities*. Revenues are recognized on Exhibit 2 and Schedule A. For federal contract and grant awards, funds expended, but not collected, are reported as Federal Receivables on Exhibit 1. Non-federal contract and grant awards for which funds are expended, but not collected, are reported as Accounts Receivable on Exhibit 1. Contract and grant awards that are not yet funded and for which the institution has not yet performed services are not included in the financial statements. Contract and grant awards funds already committed, i.e., multi-year awards, or funds awarded during fiscal years 2007 and 2006 for which monies have not been received nor funds expended totaled \$7,709,484 and \$5,780,955, respectively. Of these amounts, \$7,253,291 and \$5,538,087 were from federal contract and grant awards; \$337,201 and \$68,087 were from state contract and grant awards; and \$118,992 and \$174,349 were from private contract and grant awards for the fiscal years ended August 31, 2007 and 2006, respectively.

NOTE 16 – POST RETIREMENT, HEALTH CARE AND LIFE INSURANCE BENEFITS

In addition to the pension benefits described in Note 10 above, the state provides certain health care and life insurance benefits for retired employees. Almost all of the employees may become eligible for those benefits if they have reached the minimum age for retirement, have the required years of service, and meet applicable qualifications of Teacher Retirement System (TRS), Optional Retirement Program (ORP) and Employees Retirement System (ERS).

Those and similar benefits for active employees are provided through the state's Group Benefits Program. Certain categories of employees, such as physical plant and auxiliary staff, are not eligible for state funding of health care benefits. Premiums are based on benefits paid during the previous year. The state's contribution per full-time employee was \$343 per month for HealthSelect coverage and \$316 per month for HMO FirstCare coverage for the year ended August 31, 2007 (\$316 and \$304 per month, respectively, for fiscal year 2006).

The expenditures reported above represent funds that have been expended to the District for the purposes of the award. Some amounts reported in the schedule may differ from amounts used in the preparation of the basic financial statements imposed by the funding agencies. The District has followed all applicable guidelines issued by various entities in the preparation of the schedule.

SINGLE AUDIT REPORTS

**Report on Internal Control Over Financial Reporting
and on Compliance and Other Matters Based on an Audit of
Financial Statements Performed in
Accordance with Government Auditing Standards**

The Board of Trustees
Odessa Junior College District
Odessa, Texas

We have audited the financial statements of Odessa Junior College District (the "District") as of and for the year ended August 31, 2007, and have issued our report thereon dated December 18, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the District's financial statements that is more than inconsequential will not be prevented or detected by the District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the District's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of

Compliance and Other Matters (Continued)

laws (including the *Texas Public Funds Investment Act*, as amended), regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We have performed tests designed to verify the District's compliance with the requirements of the Public Funds Investment Act. During the year ended August 31, 2007, no instances of noncompliance were found.

This report is intended solely for the information and use of the District's trustees, audit committee, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**Report of Independent Certified Public Accountants on
Compliance with Requirements Applicable to Each
Major Program and on Internal Control Over Compliance in
Accordance with OMB Circular A-133 and
The Provisions of the State of Texas Single Audit Circular**

The Board of Trustees
Odessa Junior College District

Compliance

We have audited the compliance of Odessa Junior College District (the "District") with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* and the provisions of the *State of Texas Single Audit Circular* that are applicable to each of its major federal and state programs for the year ended August 31, 2007. The District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal and state programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organization* and the provisions of the *State of Texas Single Audit Circular*. Those standards, OMB Circular A-133 and the *State of Texas Single Audit Circular* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal and state programs for the year ended August 31, 2007.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal and state programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal or state program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended for the information of the District's trustees, audit committee, management, federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
