The Board of Trustees Odessa College District

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities and the discretely presented component unit of Odessa College District (the District), as of and for the years ended August 31, 2023 and 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of the Odessa College District, as of August 31, 2023 and 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. The financial statements of the Odessa College Foundation, Incorporated, the discretely presented component unit, were not audited in accordance with *Government Auditing Standards*.

We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and
 design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis,
 evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's
 internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, pension information, and other-post employment benefit information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. Supplemental Schedules A through D, as required by the Texas Higher Education Coordinating Board's (THECB) Budget Requirements and Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges; and the Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), are also presented for additional analysis and are not a required part of the basic financial statements.

The Board of Trustees Odessa College District

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, Supplemental Schedules A through D and the Schedule of Expenditures of Federal Awards, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the statistical supplement information but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 7, 2023 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Odessa, Texas December 7, 2023

Whitley FERN LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS

INTRODUCTION

The Management's Discussion and Analysis provides an overview of the Odessa College District's (the "District" or "College") financial activities for the years ended August 31, 2023 (Fiscal Year 2023), 2022 (Fiscal Year 2022), and 2021 (Fiscal Year 2021). In conformity with Government Accounting Standards Board (GASB) Statement No. 34, the discussion focuses on currently known facts, decisions, and conditions and is intended to assist the reader in the interpretation of the financial statements and notes that follow this analysis.

FINANCIAL AND ENROLLMENT HIGHLIGHTS

- The District's net financial position increased during 2023 as total revenues exceeded total expenses by \$11.6 million. Revenues exceeded expenses by \$13.7 million and \$27.7 million in fiscal years 2022 and 2021, respectively.
- Capital assets (net of depreciation) increased by approximately \$17,352,000 in 2023, increased by \$6,801,000 in 2022, and decreased by \$946,000 in 2021. The increases resulted primarily from construction and equipment purchases related to the Vision 2030 campus improvement programs for 2023 and 2022. The decrease in 2021 resulted from fewer completed capital projects during the year offset by a slight increase in depreciation expense.
- The District's total bonded debt decreased during the fiscal year 2023 by \$4.6 million, or 5.5%, to \$79.2 million. Debt decreased by \$5.1 million and increased by \$24.8 million at the end of fiscal years 2022 and 2021, respectively.
- The net taxable property values in the District increased by approximately \$2.1 billion, or 13.5% in 2023, after decreasing by approximately \$.3 billion, or 2.0%, in 2022, and decreasing by \$.3 billion, or 2.1%, in 2021.
- Total tax revenues increased by \$1,924,000, or 6.1%, to \$33.2 million in 2023, compared to tax revenues of \$31.3 million and \$30.0 million in 2022 and 2021, respectively.
- Total semester hours for credit classes increased by 1.4% to 152,242 in 2023, compared to 150,129 in 2022 and 130,050 in 2021, respectively.
- Total contact hours from credit and noncredit instruction increased by 3.2% to 3,220,629 in 2023, compared to 3,121,967 in 2022, and 2,781,860 in 2021. The overall increase in 2022 was attributed to an increase in enrollment.

BASIC FINANCIAL STATEMENTS

There are three basic financial statements presented: the Statement of Net Position; the Statement of Revenues, Expenses and Changes in Net Position; and the Statement of Cash Flows. These statements should be read in conjunction with the notes to the basic financial statements.

Financial statements for the District's component unit, the Odessa College Foundation Incorporated (the "Foundation"), are issued independently of the District. The Foundation's Statement of Financial Position and Statement of Activities for its most recently completed fiscal years of 2022 and 2021 are presented as discrete reports on pages 26 and 29 of the District's basic financial statements. Complete financial statements for the Foundation can be obtained from the Foundation at 201 West University Blvd, Odessa, TX 79764.

The Statement of Net Position

The Statement of Net Position (Exhibit 1) reports the assets, deferred outflows of resources, liabilities, deferred inflows of resources, and resulting net position of the District as of the end of the fiscal year. It is a "point in time" financial statement; its purpose is to give the readers a snapshot of the financial condition of the District on the last day of each fiscal year. The Statement of Net Position includes assets and liabilities, both current and non-current, deferred outflows and inflows of resources, and net position.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

- Current assets are those assets that are available to satisfy current liabilities, or liabilities that are due within one year.
- Non-current assets include capital assets, restricted cash, long-term investments, and other assets not classified as current.
- Non-current liabilities include bonds payable and other long-term commitments.
- Deferred outflows of resources represents a consumption of net position that applies to a future period therefore not being recognized as an inflow of resources until such time.
- Deferred inflows of resources represents an acquisition of net position that applies to a future period therefore not being recognized as an inflow of resources until such time.

Net position is the difference between total assets, total liabilities, deferred outflows and deferred inflows. Net position is one way to measure the financial health of the District as they represent the amount of resources available to finance future activities. Over time, the increases and decreases in net position is one indicator of whether the overall financial condition has improved or deteriorated during the year when considered with other factors such as enrollment, contact hours of instruction, student retention and other non-financial information.

Net position is divided into three major categories.

- Net investment in capital assets reflects the District's equity in property, plant, and equipment less any outstanding related debt used to acquire those assets.
- Restricted Net Position has external limitations on the way in which it may be used.
- Unrestricted Net Position is available to use for any lawful purpose of the District.

The Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position (Exhibit 2) explains "why" the net position has increased or decreased during the year. It focuses on the "bottom line results" of the District's operations. The statement is divided into (a) Operating Revenues and Expenses, (b) Non-Operating Revenues and Expenses, and (c) Other Revenue.

Generally, operating revenues are received in exchange for providing goods and services to the various customers of the District. Operating revenues include:

- Tuition and fees
- Federal and state grants
- Sales and services of educational activities
- Auxiliary and other operating revenues

Operating expenses are those paid to acquire or produce the goods and services provided in return for the operating revenues and to carry out the District's mission. Depreciation is included as an operating expense.

Non-operating revenues are funds received for which goods and services are not directly provided to those providing the revenue. Non-operating revenues include:

- State legislative appropriations
- Local property taxes
- Federal student aid grants
- Non-capital gifts and investment income

Other revenue includes capital contributions, additions to endowments, and special or extraordinary items.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

The District, like all other Texas community colleges, is primarily dependent upon three sources of revenue: state appropriations, tuition and fees, and local property taxes. Since state appropriations and property taxes are classified as non-operating revenues (per the GASB requirement), all Texas community colleges will display an operating deficit before taking into account other support. Essentially, this operating deficit represents the net cost of services to students that must be covered by state appropriations, local property taxation, and other sources of revenue. Therefore, total revenues and total expenses should be considered in assessing the change in the District's financial position.

The Statement of Cash Flows

The final statement presented is the Statement of Cash Flows which analyzes the cash activities of the District for the year. This statement helps readers assess the District's ability to generate future cash flows and its ability to meet obligations as they come due. The statement is divided into five parts:

- Cash provided by or used for operating activities
- Cash flows from non-capital financing activities
- Cash flows from investing activities
- · Cash provided by or used for capital related financing activities, and
- Cash used for acquisition and construction of capital items.

CONDENSED COMPARATIVE FINANCIAL INFORMATION

Total Net Position	\$ 102,923	\$	91,356	\$ 77,624	\$	11,567	\$	13,732

Current assets consist mainly of cash, short-term investments, receivables, and prepayments.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

During fiscal year 2023:

• There was a decrease of \$88,000 in current assets due primarily to a decrease in cash and cash equivalents. Cash and cash equivalents decreased by \$1,149,000 primarily due to larger construction payments being made during the month of August related to Vision 2030. Accounts receivable increased by \$602 thousand, primarily due to an increase in tuition and fees receivable at year-end from an increase in enrollment. The current portion of notes receivable increased by \$339,000 due to the timing of pledged payments for the Wood Health Science Building. Prepaid items also increased by \$138,000 due primarily to an increase in prepaid technology contracts.

During fiscal year 2022:

• There was a decrease of \$39,808,000 in current assets due primarily to a decrease in cash and cash equivalents. Cash and cash equivalents decreased by \$36,890,000 due primarily to the receipt at the prior year-end of the \$28 million revenue bond associated with the construction of the Wood Health Science Building that was invested in long-term investments, a decrease of \$1.8 million in the Construction Bank Account established in 2021, a decrease in Public Fund Investment Pool accounts not related to capital construction of \$3.2 million that was invested in long-term investments, and a decrease in Federal Funding associated with Pell and CARES Covid funds received at year-end of \$1.6 million. In addition to the decrease in cash and cash equivalents, the balance in short-term investments decreased by \$1.9 million from the maturity of short-term investments held at the end of 2021. The District has no short-term investments at the end of 2022. Accounts receivable decreased by \$1.6 million primarily due to a decrease in federal grant receivables at year-end of \$1.6 million.

During fiscal year 2021:

• There was an increase of \$37,853,000 in current assets due primarily to an increase in cash and cash equivalents. Cash and cash equivalents increase by \$32,859,000 due primary to the receipt at year end of the \$28 million revenue bond associated with the construction of the Wood Health Science Building, an increase of \$2.4 million in the new Construction Bank Account, and an increase in Federal Funding associated with Pell and CARES Act Covid funds received at year end of \$2.4 million. In addition to the increase in cash and cash equivalents, the current portion of notes receivable increased by \$1.3 million. The increase in notes receivable is due to the addition of nearly \$13.7 million in pledges towards the Wood Health Science Building.

Capital assets, net of depreciation, increased by approximately \$17,352,000 during 2023 after increasing by \$6,801,000 during 2022. In accordance with GASB Statements No. 34 and 35, the District does not record the cost of its capital assets as an expense at the time of acquisition/completion of the asset but rather shows the expense systematically over the expected life of the asset as depreciation expense. The purchases of land, building improvements, and equipment continue to exceed annual depreciation charges each year.

During fiscal 2023:

- Construction in Progress amounted to \$27,343 thousand on projects not yet completed, including the Wood Health
 Science Building, the James Segrest Stadium, OC Downtown, and professional fees associated with various projects
 relating to Vision 2030. The fiscal year 2023 additions to construction in progress were approximately \$19.5 million.
 The Health Science Building, the stadium, and downtown are all expected to be completed during fiscal year 2024
 and will then be moved out of construction in progress and capitalized appropriately.
- Land increased by \$152 thousand due to the addition of another Cummins property associated with Vision 2030.
- Major Equipment purchases included \$103 thousand to purchase a Steinway Spirio Piano that supports distance learning for the music programs, \$122 thousand to purchase a new imaging table for radiologic technology, and \$345 thousand to purchase automation equipment for the Pecos Center to support programs within the extension sites.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

During fiscal 2022:

- Construction in Progress amounted to \$7,888 thousand on projects not yet completed, including the Wood Health
 Science Building, the James Segrest Stadium, and professional fees associated with various projects relating to Vision
 2030. The fiscal year 2022 additions to construction in progress were approximately \$6.9 million with an offsetting
 decrease of \$151 thousand. The decrease was due to the acquisition of land purchased in relation to Vision 2030.
 The completed costs were reclassified into the Land category of capital assets.
- Land increased by \$151 thousand due to the addition of the Cummins property associated with Vision 2030.
- Major Equipment purchases included \$144 thousand to purchase a Steinway Spirio Piano that supports distance learning for the music programs and \$418 thousand to purchase four Truck Driving Training Academy trucks to support social distancing in programs within the extension sites.

During fiscal 2021:

- Construction in Progress amounted to \$1,172 thousand on projects not yet completed, including the Health Science
 Building and professional fees associated with various projects relating to Vision 2030. The fiscal year 2021 additions
 to construction in progress were approximately \$792 thousand with an offsetting decrease of \$393 thousand. The
 decrease was due to the acquisition of land purchased in relation to Vision 2030. The completed costs were
 reclassified into the Land category of capital assets.
- Land increased by \$393 thousand due to the addition of the Terrace Circle Land associated with Vision 2030.
- Major Equipment purchases included \$219 thousand to purchase a portable lunch facility for Early College High School students that enables social distancing, \$250 thousand to purchase six computer servers to help support the additional technology requirements experienced with the pandemic, and \$250 thousand to purchase a Cyber Lab for the Instrumentation program.

Total liabilities increased by \$1.3 million (0.9%) in fiscal year 2023 after decreasing by \$11.4 million (7.3%) in fiscal 2022. The major contributing factors are explained below.

During fiscal 2023:

- Accounts payable related to construction and vendor purchases increased by \$2,295,000 reflective of more construction activity related to Vision 2030 campus improvement projects.
- Net OPEB liability decreased by \$4.4 million due to our proportionate share of the change in assumptions related to GASB 75 for the reporting of other post-employment benefits (primarily future health care costs of both active and retired employees).
- Deferred revenue increased by \$2.1 million due to an increase in private grant funds received during the year but not yet expended as of year-end related to the Permian Strategic Partnership Grant for truck driving.
- Bond decreased by \$5.2 million due to principle payments on bond obligations and unamortized bond premiums.
- Net Pension liability increased by \$6.9 million due to our proportionate share of the change in assumptions related to GASB 68 for the reporting of pension benefits related to the Teacher Retirement System of Texas pension plan.

During fiscal 2022:

- Accounts payable related to construction and vendor purchases increased by \$371,000 reflective of more construction activity related to Vision 2030 campus improvement projects.
- Accounts payable related to students payable decreased by \$3.2 million due to the timing of financial aid disbursements. The decrease is related to the awarding of federal money to students, and the distribution of those funds occurred before August 31, 2022.
- Deferred revenue decreased by \$1.1 million due to a decrease in state grant funds received during the year but not yet expended as of year-end related to the Reskilling Grant.
- Bond and capital lease liabilities decreased by \$5.2 million due to principle payments on bond obligations and unamortized bond premiums.
- Net Pension liability decreased by \$5.3 million due to our proportionate share of the change in assumptions related to GASB 68 for the reporting of pension benefits related to the Teacher Retirement System of Texas pension plan.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

During fiscal 2021:

- Accounts payable related to construction and vendor purchases increased by \$599,000 reflective of more construction activity related to Vision 2030 campus improvement projects.
- Accounts payable related to students payable increased by \$1.9 million due to the timing of financial aid disbursements. The increase is related to awarding stimulus money to students, but the distribution of those funds occurred after August 31, 2021.
- Deferred revenue increased by \$4.2 million. due to an increase in enrollment and tuition for the Fall of 2021 and an increase in state grant funds received during the year but not yet expended as of year-end.
- Bond and capital lease liabilities increased by \$24.4 million due to the addition of the 2021 Revenue Bond associated
 with the Vision 2030 Wood Health Science Building construction in the amount of \$26.4 million, along with a
 decrease of \$1.9 million in principal payments on band obligations during the year.

Overall, the District's net position increased by \$11.6 million during fiscal 2023, increased by \$13.7 million during 2022, and increased by \$27.7 million during 2021.

During fiscal 2023:

- The Net Investment in Capital Assets, representing the net value of capital assets (land, buildings, and equipment) less the related debt, increased by \$20,616,000, primarily as a result of scheduled payments on bonded debt along with the net addition of \$14,603,000 in capital assets.
- The Unrestricted Net Position increased by \$6.0 million due to an excess of unrestricted revenues over unrestricted expenses during fiscal 2023 as shown on Schedule D of the financial statements.

During fiscal 2022:

- The Net Investment in Capital Assets, representing the net value of capital assets (land, buildings, and equipment) less the related debt, increased by \$12,443 thousand, primarily as a result of scheduled payments on bonded debt along with the net addition of \$4,425 thousand in capital assets.
- The Unrestricted Net Position decreased by \$2.5 million due to an excess of unrestricted expenses over unrestricted revenues during fiscal 2022 as shown on Schedule D of the financial statements.

During fiscal 2021:

- The Net Investment in Capital Assets, representing the net value of capital assets (land, buildings, and equipment) less the related debt, increased by \$723 thousand, primarily as a result of scheduled payments on bonded debt along with the net reduction of \$1,219 thousand in capital assets.
- The Restricted Net Position increased by approximately \$1.0 million due to an increase in endowments related to the Positively Odessa College Endowment.
- The Unrestricted Net Position increased by \$5.3 million due to an excess of unrestricted revenues over unrestricted expenses during fiscal 2021 as shown on Schedule D of the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Operating Revenues:

As defined above, operating revenues are received in exchange for providing goods and services to the various customers of the District. Key factors impacting Operating Revenues are explained below:

During fiscal 2023:

- Tuition and Fee Revenue, net of discounts, increased by \$666,000, or about 5.3%. Gross tuition and fees increased by \$2,900,000 due to higher enrollments and an increase in semester credit hours. At the same time, scholarship allowances and discounts increased by \$2,300,000 due to an increase in the percentage of Pell awards that were applied to tuition compared to prior years.
- Federal Grants and Contracts decreased by \$592,000 due to a decrease in Coronavirus Aid, Relief, and Economic Security grants awarded to the College for technology upgrades and improvements related to social distancing and safety. The majority of these funds were spent in the preceding two years.
- State Grants and Contracts increased by \$469,000 due to two new Jobs & Education for Texans Grant in the amount of \$209,000 for welding and automation equipment. There was also an increase in the Texas Educational Opportunity Grant awarded to students in the amount of \$181,000.
- Auxiliary Operating Revenue increased by \$500,000, primarily due to an increase in revenue received from housing and meal plans in the amount of \$110,000 and \$376,000 respectively.

During fiscal 2022:

- Tuition and Fee Revenue, net of discounts, increased by \$1,479,000, or about 13.2%. Gross tuition and fees increased by \$2.1,000 due to higher enrollments and an increase in semester credit hours. At the same time, scholarship allowances and discounts increased by \$606,000 due to an increase in the percentage of Pell awards that were applied to tuition compared to prior years.
- Federal Grants and Contracts decreased by \$2.2 million due to a decrease in Coronavirus Aid, Relief, and Economic Security grants awarded to the College for technology upgrades and improvements related to social distancing and safety. The majority of these funds were spent in the preceding year.
- Non-governmental Grants and Contracts decreased by \$6.9 million due to a private donation from the Mackenzie Scott Foundation in the amount of \$7 million in the prior year.
- Other Operating Revenue decreased by \$635,000 primarily related to funds received by the Coronavirus Aid, Relief, and Economic Security grant to replace lost revenue for the prior year that was from a direct result of the pandemic.

During fiscal 2021:

- Federal Grants and Contracts increased by \$4.2 million due to an increase in Coronavirus Aid, Relief, and Economic Security grants awarded to the College for technology upgrades and improvements related to social distancing and safety.
- Non-governmental Grants and Contracts increased by \$5.5 million due to a private donation from the Mackenzie Scott Foundation in the amount of \$7 million. The increase is offset by a decrease in a private grant from the Odessa Development Corporation that ended in the prior year of \$1.3 million.
- Other Operating Revenue Increased by \$668,000 primarily related to funds received by the Coronavirus Aid, Relief, and Economic Security grant to replace lost revenue for the current year that was a direct result of the pandemic.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Non-Operating Revenues (Expenses):

Non-Operating Revenues are funds received for which goods and services are not directly provided to those providing the revenue. Non-Operating Revenues increased by \$4.1 million in 2023 after decreasing by \$2.0 million in 2022 and increasing by \$4.1 million in 2021. Key factors impacting Non-Operating Revenues are discussed below:

During fiscal 2023:

- Total State Appropriations increased by \$465,000, or 4.0%. The increase is due to an increase in benefit payments paid by the state, as now reported under GASB 68 and GASB 75.
- Property Tax revenue increased by \$1,924,000, or 6.1%. Net assessed valuations increased by 13.5%, and the combined tax rate decreased by 6.5%.
- Federal Student Aid Grants decreased by \$3,507,000 or 25.2%, primarily due to the completion of CARES funding
 that the District received during the pandemic. These additional CARES funds were awarded directly to students to
 help offset hardships related to the COVID-19 pandemic and were mostly awarded during the prior fiscal year.
- Investment Income (Expense) increased by \$5,200,000 due to the year-end market value adjustment based on values on August 31, 2023. The market has performed significantly better than during the 2022 fiscal year.

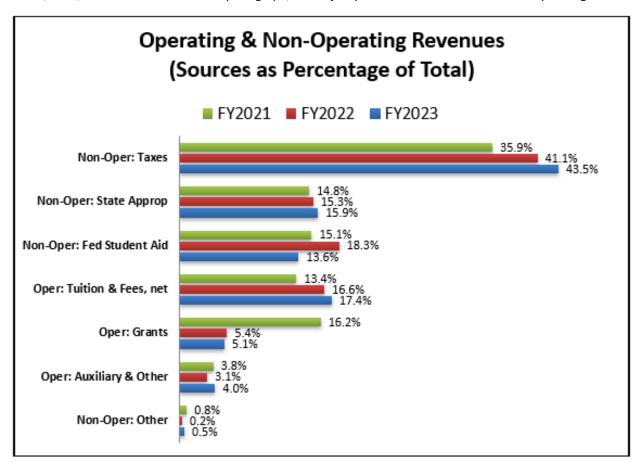

During fiscal 2022:

- Total State Appropriations decreased by \$719,000, or 5.8%. The decrease is due to a decrease in benefit payments paid by the state as now reported under GASB 68 and GASB 75.
- Property Tax revenue increased by \$1,332,000, or 4.4%. Net assessed valuations decreased by 2.0%, and the combined tax rate increased by 6.8%.
- Federal Student Aid Grants increased by \$1,297,000 or 10.3% primarily due to the additional CARES funding that the
 District received and an increase in overall Pell awards to students. These additional CARES funds were awarded
 directly to students to help offset hardships related to the COVID-19 pandemic.
- Investment Income (Expense) decreased by \$3,296,000 due to the year-end market value adjustment based on values on August 31, 2022.

During fiscal 2021:

- Total State Appropriations decreased by \$592,000, or 4.6%. The decrease is due to a decrease in benefit payments paid by the state as now reported under GASB 68 and GASB 75.
- Property Tax revenue decreased by \$154,000, or .5%. Net assessed valuations decreased by 2.1%, and the combined tax rate increased by 1.2%.
- Federal Student Aid Grants increased by \$4,900,000 or 63.9% primarily due to the additional CARES funding that the
 District received and an increase in overall Pell awards to students. These additional CARES funds were awarded
 directly to students to help offset hardships related to the COVID-19 pandemic.

Graph 1 below illustrates the sources of Operating and Non-operating Revenues as a percentage of total revenues for fiscal years 2023, 2022, and 2021. As evidenced by the graph, the majority of revenue is derived from non-operating sources.

A comparison of fiscal 2023 to fiscal 2022 shows an increase in the percentage of revenues provided by taxes, state appropriations, tuition and fees, operating auxiliary revenue, and non-operating others. The percentage derived from operating grants and federal student aid decreased during the same period. Comparing the prior two fiscal years (2022 to 2021) reveals increases in the percentage of revenues provided by taxes, state appropriations, federal student aid, and tuition and fees. The percentage derived from operating grants, operating auxiliary and other, and non-operating other decreased during the same period.

Operating Expenses by Functional Classification

Functional classifications are the traditional categories that have been used to show expenses. They represent the type of programs and services provided.

As shown in Figure 2, total Operating Expenses increased by \$1.7 million or 2.6% in 2023, after a decrease of \$4.4 million, or 6.5%, during 2022, and an increase of \$10.3 million, or 17.8% in 2021. Key factors impacting operating expenses by functional expense categories are described below:

During fiscal 2023:

Institutional Support expenses decreased by \$307,000, or 4.6%, due primarily to a decrease in unrestricted other
expenses. The decrease is a result of the GASB 96 implementation relating to subscription-based software platforms.
Qualifying subscriptions are now capitalized as an asset with a related liability and amortized over the course of the
year, resulting in a decrease in the balance reflected in technology contracts.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

- Instructional expenses increased by \$2,213,000, or 10.8%, due primarily to an increase in restricted and unrestricted salaries and benefits. The District recognized an increase in salary expenditures from the addition of 18 full-time instructional positions along with the institutional-wide salary increase of 6%. The district also had an increase in unrestricted other expenses due to the purchase of non-capital fixed assets for the Wood Health Science Building totaling \$158,000.
- Student Service Expenses increased by \$772,000, or 19.4%, due primarily to an increase in unrestricted salaries and benefits. The District recognized an increase in salary expenditures from the addition of four full-time professional positions along with the institutional-wide salary increase of 6%.
- Academic Support Expenses increased by \$861,000, or 14.3%, due primarily to an increase in unrestricted salaries and benefits. The District recognized an increase in salary expenditures from the addition of five full-time professional positions along with the institutional-wide salary increase of 6%.
- Operation & Maintenance of Plant expenses increased by \$1,302,000, or 23.9%, due to an increase in restricted other expenses and unrestricted other expenses. During the fiscal year 2023, there was an increase in expenditures related to the HVAC upgrades in the sports center in the amount of \$761,000 in restricted funds. Unrestricted other expenses increased due to an increase in insurance premiums of \$56,000 and an increase in overall deferred maintenance for the District of \$225,000.
- Scholarships and fellowships decreased by \$5,047,000 or 40.7% due primarily to a decrease in Cares Covid funds of \$2,900,000, and a decrease in the amount of awards that applied directly to tuition of \$2,100,000. The Cares grant funds are funds that were put directly into the hands of students to help offset hardships faced by the pandemic, and the majority of these funds were awarded in the previous year.
- Auxiliary Enterprise expenses increased by \$537,000, or 18.2%, due to an increase in the amount spent on catering
 events and student meal plans of approximately \$151,000 related to rising food costs and more events. During the
 current year, athletic travel increased by approximately \$110,000 due to an increase in travel costs and all athletic
 teams participating in the current year.
- Depreciation expenditures increased by \$800,000, or 17.8%, due to the increase in capitalized assets related to the implementation of GASB 96 in the treatment of subscription-based platforms.

During fiscal 2022:

- Institutional Support expenses decreased by \$5,520,000, or 45.2%, due primarily to a decrease in restricted other
 expenses. The District recognized in the prior year an expense of \$1,143,000 in lost revenue related to the pandemic
 from the COVID Grant. The District also recognized in the prior year an expense of \$3,118,000 from the MacKenzie
 Scott Donation towards scholarships and endowments.
- Scholarships and fellowships decreased by \$829,000 or 6.3% due primarily to an increase in Pell awards of \$833,000, a decrease in Cares Covid funds of \$2,100,000, and an increase in scholarships transferred to the OC Foundation totaling \$323,000. The number of students eligible to receive Pell grants increase during the current year. The Cares grant funds are funds that were put directly into the hands of students to help offset hardships faced by the pandemic and the majority of these funds were awarded in the previous year.
- Public Support expenses increased by \$109,000, or 10.3%, due primarily to an increase in restricted and unrestricted other expenses. The District recognized an increase in expenditures from the COVID funds of \$55,000 to support the community and students. The district also recognized an increase in expenditures for the 30 for 30 programs to help increase engagement in the program. The district recognized an increase of \$9,000 related to the increase in the price of fuel for the driver's education program and an increase of \$34,000 to replace the computers in the FabLab.
- Student Service Expenses increase by \$157,000, or 4.1%, due primarily to an increase in restricted and unrestricted
 other expenses. The District recognized an increase in expenditures from the COVID funds of \$122,000 to support the
 students directly through technology contracts and awards to the students from the Perkins Grant to help with
 childcare, textbooks, supplies, transportation, and testing fees.
- Auxiliary Enterprise expenses increased by \$639,000, or 27.6%, due to an increase in the amount spent on catering
 events and student meal plans of approximately \$346,000 related to the COVID-19 national pandemic. During the
 current year, athletic travel increased by approximately \$90,000 due to an increase in travel costs and all athletic teams
 participating in the current year.
- Operation & Maintenance of Plant expenses increased by \$219,000, or 4.2%, due to an increase in unrestricted other expenses offset by a decrease in restricted other expenses. During the fiscal year 2022, there was a decrease in

17

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

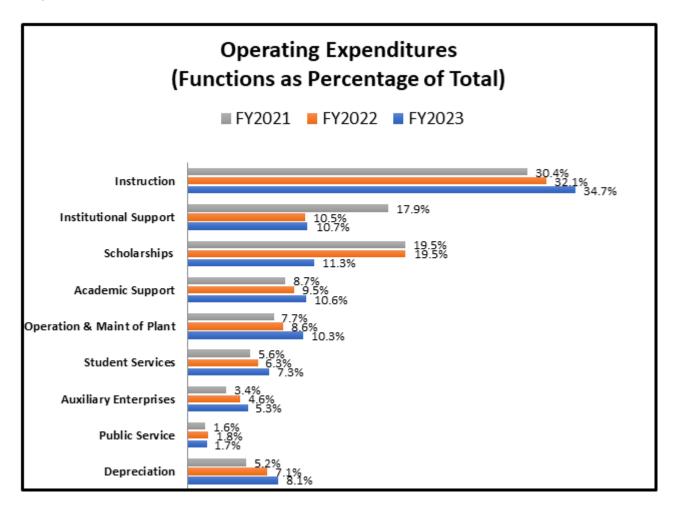

expenditures related to the Winter Freeze of 2021 in the amount of \$296,000 and an increase in sports center repairs of \$35,000 in restricted funds. Unrestricted other expenses increase due to an increase in insurance premiums of \$115,000, an increase in overall utilities for the District of \$233,000, and an increase in general maintenance of \$150,000.

During fiscal 2021:

- Institutional Support expenses increased by \$4,957,000, or 68.4%, due primarily to an increase in restricted other expenses. The District recognized an expense of \$1,143,000 in lost revenue related to the pandemic from the CARES Act Grant. The District also recognized an expense of \$3,118,000 from the MacKenzie Scott Donation towards scholarships and endowments.
- Scholarships and Fellowships increased by \$6,236,000 or 89.1% due primarily to an increase in Pell awards of \$2,421,000 and an increase in CARES Act Covid-19 funds of \$2,460,000. The number of students eligible to receive Pell grants increased during the current year. The CARES Act grant funds are funds that were put directly into the hands of students to help offset hardships faced by the pandemic.
- Instruction expenses decreased by \$888,000 or 4.1% due to an decrease in state paid benefits expense related to GASB 68 pension expense.
- Student Service expenses decreased by \$724,000, or 15.9%, due do a decrease in salaries and benefits. During the current year several positions were frozen due to the pandemic resulting in the decrease in salaries.
- Academic Support increased by \$699,000 or 13.3% due to an increase in salaries and benefits of \$539,000. During the
 prior year, the District restructured the student success coaches into academic coaches moving them from student
 activities to academic support. This change took place in the middle of the prior year so this was the first full year of
 academic coaches being paid out of academic support.

Other Revenues consist mainly of capital contributions in the form of gifts and grants as well as additions to permanent endowments. Capital contributions were \$1,769,000 in fiscal 2023, \$7,481,000 in 2022, and \$13,970,000 in 2021. The 2023 capital donations were dedicated to the Wood Health Science Building, James Segrest Stadium, OC Downtown Project, and the acquisition of equipment for fine arts, automation, and truck driving. The 2022 capital donations were dedicated to the Wood Health Science Building, James Segrest Stadium, and the OC Downtown Project. The 2021 capital donations were dedicated to the Wood Health Science Building.

Graph 2 below compares each functional operating expense category as a percentage of total expenses for fiscal years 2023, 2022, and 2021.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Capital Assets and Debt Administration

Capital Assets

The District's investment in capital assets, net of depreciation, was \$141.1 million at the end of fiscal year 2023, compared to \$123.7 million in 2022, and \$116.9 million in 2021. A summary of capitalized assets for fiscal years 2023, 2022, and 2021 is shown below in Figure 1. This information is also presented in Note 6 of the Financial Statements. Details of capital asset activity can be found on pages 44 and 45 and below:

Figure 1

The District has completed in the fiscal year 2020 an \$84 million, multi-year campus improvement project called "Vision 2015". Funding was provided by a \$68.5 million general obligation bond passed in November 2010 as well as private capital donations and board allocations of reserve funds. Vision 2015 campus improvements include the demolition of 7 older structures, the addition of 7 new buildings, and renovations to 7 existing facilities. The District has begun fundraising efforts to support a multi-year campus improvement project called "Vision 2030". Vision 2030 campus improvements include the demolition of 5 older structures, the addition of 6 new buildings, and renovations to 2 existing facilities. As of August 2021, the college has received pledges of \$13.7 million and a new revenue bond of \$26.4 million towards the construction of the Wood Heath Science Building. As of August 2023, the college has received pledges of \$1 million towards the construction of James Segrest Stadium.

Debt Administration

The District had outstanding debt of \$79.2 million as of August 31, 2023, and \$83.9 million and \$89.0 million as of August 31, 2022, and 2021, respectively. \$57,910,000 of Series 2017 Limited Tax Refunding Bonds were issued in December 2017 to partially refund the Series 2011 Tax Bonds, resulting in a net present value saving of \$6,551,787. \$4,675,000 of Series 2021 Revenue Refunding Bonds were issued in August 2021 to refund the Series 2012 Revenue Bonds, resulting in a new present value saving of \$548,861. \$26,435,000 of a new Series 2021 Revenue Bond was issued in August 2021 for the construction of the Wood Health Science Building. Principal payments on long-term debt totaled \$4,640,000 in 2023, \$5,135,000 in 2022, and \$1,905,000 in 2021. Details of the outstanding long-term debt by type as of August 31, 2022, 2021, and 2020 are listed below in Figure 4.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Outstanding Debt (thousands of dollars)

	2023		2022		 2021
General Obligation Bonds	\$	54,190	\$	56,080	\$ 57,910
Revenue Bonds		25,055		27,805	 31,110
Total Outstanding Bonded Indebtedness	\$	79,245	\$	83,885	\$ 89,020

Figure 2

On October 9, 2023, S&P Global Ratings raised its rating to 'AA' from 'AA-' with a stable outlook for the District's series refunded 2021 and new 2021 Revenue Bonds.

On October 9, 2023, S&P Global Ratings raised its rating to 'AA' from 'A+' with a stable outlook for the new Limited Tax Refunding Bonds, Series 2017.

On June 11, 2021, Fitch Ratings upgraded its rating on the District's series 2017 general obligation tax bonds from 'AA-' to 'AA'. The rating outlook is Stable. The upgrade is due to the application of Fitch's revised criteria for U.S., state, and local governments. According to Fitch:

"The upgrade reflects the district's ample revenue-raising ability, sound expenditure flexibility, strong reserve cushion, and limited historical revenue volatility. These factors combine to provide the district with a high level of operating flexibility and anticipated financial resilience throughout the economic cycle. Fitch expects the long-term liability burden will remain low."

Both of the 2021 revenue bonds are also covered by municipal bond insurance policies issued by Assured Guarantee Municipal Corp. (AGM).

Economic Factors That Will Affect the Future

The economic position of the District is influenced in part by the economic position of the nation, the state of Texas, and Ector County. The unprecedented international outbreak of coronavirus (COVID-19) has had numerous economic and operational impacts on the U.S. economy as well as affecting The District's employees, students, community members, and business operations. The Odessa Economic Index (OEI) increased from July 2023 to August 2023, improving to 250.0 for the month, up from 249.2 in July and up 5.9% from the August 2022 OEI of 236.1. The August increase extends the cycle of expansion in the Odessa economy to 29 months and counting. In August, crude oil prices saw a consecutive monthly improvement, rising by an average of almost \$5.80 per barrel. This followed a previous increase of over \$5.20 per barrel in July. The average posted West Texas Intermediate crude oil prices for August stood at \$77.42, reflecting an uptick from July's \$71.65. Despite this positive trend, the August 2023 monthly average remained more than 11% lower than that of August 2022. The region's average monthly rig count fell by ten rigs in August 2023, with 212 rigs spinning compared to 222 rigs in July 2023. The rig count is also down from 242 in August 2022. The August 2023 unemployment rate was at 3.8%, which is slightly up from the August 2022 rate of 3.7%. Both the regional oil and gas economy and the Odessa general economy are firmly on the upswing.

As a result, the District expects the assessed tax values to increase next year due to higher oil prices and activity. At the time of this report, general spending in Ector County is up 12.5% year-to-year, and home sales are up 14.0%. Sales tax revenues along with hotel and apartment occupancy rates are all higher than the same time last year. Based on such data and the analysis of state and national economists, the administration feels that the current economic climate can be managed through budgetary monitoring that will not reduce instructional programs.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Student enrollment is at an all-time high. Graduation rates have increased significantly over the last decade, and class completion rates are among the highest in the nation. In the past year, the District has received numerous awards at the state and national levels that are reflective of its high quality and unique approaches to student success. After winning the Aspen Institute's Rising Star Award in March 2019, Odessa College was once again in the top ten for the 2021 Aspen Prize for Community College Excellence, an award which is recognized among American institutions of higher education as the most prestigious affirmation of high achievement and exemplary performance that a community college can receive. The Aspen Institute assesses performance and achievements in four areas: student learning, certificate and degree completion, employment and earnings for graduates, and access and success for minority and low-income students. The District anticipates that such national recognition of quality and effectiveness will likely contribute to strong enrollment demand in the near future.

While it is not possible to predict the effects of future economic conditions, management believes the District has a solid and stable financial position and is well-equipped to handle the increasing demands for a better-educated workforce. The District continually monitors its internal and external environments for factors that may affect its financial position in either the short term or the long term. The administration is not aware of any currently known facts, decisions, or conditions that are expected to have a significant effect on the financial position or results of operations during the current fiscal year.

Requests for Information

This annual financial report is designed to provide interested stakeholders with a general overview of the District's finances and to show the District's accountability for the money it receives. Questions concerning the information provided in this report or requests for additional information should be addressed to the Chief Financial Officer at Odessa College, 201 West University Blvd, Odessa, TX 79764.

ODESSA COLLEGE DISTRICT NOTES TO THE FINANCIAL STATEMENTS

Note 1 - Reporting Entity

Odessa College District was established in 1946, in accordance with the laws of the State of Texas, to serve the educational needs of Ector County and the surrounding communities. The District is considered to be a special purpose, primary government according to the definition in Governmental Accounting Standards Board ("GASB") Statement No. 14, *The Financial Reporting Entity*. During 2019, Odessa Junior College District was renamed to Odessa College District (the "District") in accordance with the laws of the State of Texas. The change was made to align the District's name with its status of an institution offering 2-year and 4-year degrees. While the District receives funding from local, state, and federal sources, and must comply with the spending, reporting, and recordkeeping requirements of these entities, it is not a component unit of any other governmental entity.

Note 2 - Summary of Significant Accounting Policies

Reporting Guidelines

The significant accounting policies followed by the District in preparing these financial statements are in accordance with the Texas Higher Education Coordinating Board's Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges. The District applies all applicable GASB pronouncements. The District is reported as a special-purpose government engaged in business-type activities ("BTA").

Tuition Discounting

Texas Public Education Grants

Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant ("TPEG"), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code §56.033). When the award for tuition is used by the student, the amount is recorded as tuition and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Title IV, Higher Education Act (HEA) Program Funds

Certain Title IV HEA Program funds are received by the District to pass through to the student. These funds are initially received by the District and recorded as restricted revenue. When the student is awarded and uses these funds for tuition and fees, the amounts are recorded as revenue and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Other Tuition Discounts

The District awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used for tuition and fees, the amounts are recorded as tuition and fee revenue and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 2 - Summary of Significant Accounting Policies (continued)

Basis of Accounting

The financial statements of the District have been prepared on the accrual basis whereby all revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditures of funds are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year's budget. Encumbrances outstanding at year end, that were provided for in the subsequent year's budget, are reported as designations of net assets since they do not constitute expenditures or liabilities.

Budgetary Data

Each community college district in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for current operating funds for the fiscal year beginning September 1. The budget, which is prepared on the accrual basis of accounting, is adopted by the District's Board of Trustees. A copy of the approved budget must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and the Governor's Office of Budget and Planning by December 1.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Because of their highly liquid nature, funds held in public funds investment pools are also considered to be cash equivalents.

Pledges

The District recognizes pledges in the financial statements when all applicable eligibility requirements, including time requirements, are met. Pledges are reported as restricted revenues prior to the fulfillment of all applicable eligibility requirements.

Investments

In accordance with Governmental Accounting Standards Board Statement ("GASBS") No. 31, Accounting and Financial Reporting for Certain Investments and External Investment Pools, investments are reported at fair value. Fair values are based on published market quotes. Short-term investments have an original maturity greater than three months but less than one year at the time of purchase. Long-term investments have an original maturity of greater than one year at the time of purchase.

Inventories

Inventories consist of consumable physical plant and food service supplies. Inventories are stated at the lower of cost or market, determined using the first in, first out method. They are charged to expense as consumed.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 2 - Summary of Significant Accounting Policies (continued)

Capital Assets

Capital assets are defined by the District as assets with an initial, individual cost that equals or exceeds \$5,000 and an estimated useful life more than one year. As the District constructs or acquires capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost (except for intangible right-to-use lease and subscription assets). The reported value excludes normal maintenance and repairs, which are amounts spent in relation to capital assets that do not increase the asset's capacity or efficiency or increase its estimated useful life. Donated capital assets are recorded at acquisition value at the date of donation. Acquisition value is the price that would be paid to acquire an asset with equivalent service potential on the date of the donation. Intangible assets follow the same capitalization policies as tangible capital assets and are reported with tangible assets in the appropriate capital asset class.

Depreciation and amortization expense is computed using the straight-line method over the following estimated useful lives of the assets:

Buildings and Building Improvements50 yearsOther Real Estate Improvements20 yearsLibrary Books15 yearsFurniture, Machinery, and Equipment10 years

RTU Lease Assets Depends on lease term
RTU Subscription Assets Depends on term of arrangement

Net Pension Liability - Teachers Retirement System of Texas

The College participates in the Teacher Retirement System of Texas (TRS) pension plan, a multiple-employer cost-sharing defined benefit pension plan with a special funding situation. The fiduciary net position of TRS has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities, and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Net Other Post-Employment Benefits Liability - Employees Retirement System of Texas

The College participates in other post-employment benefits (OPEB) offered through the Employee Retirement System of Texas (ERS) State Retiree Health Plan. The fiduciary net position of the OPEB plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from the OPEB plan's fiduciary net position. Benefit payments are recognized when due and are payable in accordance with the benefit terms.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 2 - Summary of Significant Accounting Policies (continued)

Deferred Outflows of Resources

A deferred outflow of resources is a consumption of a government's net assets (a decrease in assets in excess of any related decrease in liabilities or an increase in liabilities in excess of any related increase in assets) by the government that is applicable to a future reporting period. The College has three items that qualify for reporting in this category:

- Deferred outflows of resources for refunding This deferred charge on refunding results from the difference in the
 carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter
 of the life of the refunded or refunding debt.
- Deferred outflows of resources for pension This deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results of (1) differences between projected and actual earnings on pension plan investments; (2) changes in actuarial assumptions; (3) differences between expected and actual actuarial experiences and (4) changes in the College's proportional share of pension liabilities. The deferred outflows of resources related to pensions resulting from College contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on pension plan investments will be amortized over a closed five-year period. The remaining pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.
- Deferred outflows of resources for OPEB This deferred outflow results from OPEB plan contributions made after the measurement date of the net OPEB liability and the results of (1) differences between projected and actual earnings on OPEB plan investments; (2) changes in actuarial assumptions; (3) differences between expected and actual actuarial experiences and (4) changes in the College's proportional share of OPEB liabilities. The deferred outflows of resources related to OPEB resulting from College contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on OPEB plan investments will be amortized over a closed five year period. The remaining OPEB related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with benefits through the OPEB plan.

Deferred Inflows of Resources

A deferred inflow of resources is an acquisition of a government's net assets (an increase in assets in excess of any related increase in liabilities or a decrease in liabilities in excess of any related decrease in assets) by the government that is applicable to a future reporting period. The College has two items that qualify for reporting in this category:

- Deferred inflows of resources for pension Deferred inflows result primarily from (1) changes in actuarial
 assumptions; (2) differences between expected and actual actuarial experiences and (3) changes in the College's
 proportional share of pension liabilities. The pension related deferred inflows will be amortized over the expected
 remaining service lives of all employees (active and inactive employees) that are provided with pensions through the
 pension plan.
- Deferred inflows of resources for OPEB Deferred inflows result primarily from (1) changes in actuarial assumptions;
 (2) differences between expected and actual actuarial experiences and (3) changes in the College's proportional share of OPEB liabilities. These OPEB related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with OPEB benefits through the OPEB plan.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 2 - Summary of Significant Accounting Policies (continued)

Leases

The District is a lessee for a noncancellable lease of equipment. The District recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The District recognizes lease liabilities with an initial, individual value of \$5,000 or more.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the
 lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for
 leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Subscriptions Based Information Technology Arrangements (SBITA)

The College has several subscription-based information technology arrangements for software services. The College recognizes a subscription liability and an intangible right-to-use subscription asset in the statement of net position. The College recognizes lease liabilities with an initial, individual value of \$5,000 or more.

At the commencement of an arrangement, the College initially measures the subscription liability at the present value of payments expected to be made during the arrangement term. Subsequently, the subscription liability is reduced by the principal portion of arrangement payments made. The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for arrangement payments made at or before the commencement date, plus certain applicable initial direct costs. Subsequently, the subscription asset is amortized on a straight-line basis over term of the arrangement.

Key estimates and judgments related to subscriptions include how the College determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) arrangement term, and (3) arrangement payments.

- The College uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the
 lessor is not provided, the College generally uses its estimated incremental borrowing rate as the discount rate for
 subscriptions.
- The arrangement term includes the noncancellable period of the subscription. Arrangement payments included in the measurement of the subscription liability are composed of fixed payments.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 2 - Summary of Significant Accounting Policies (continued)

Subscriptions Based Information Technology Arrangements (SBITA) (continued)

The College monitors changes in circumstances that would require a remeasurement of its subscription arrangements and will remeasure the subscription asset and liability if certain changes that occur are expected to significantly affect the amount of the subscription liability.

Subscription assets are reported with other capital assets and subscription liabilities are reported with long-term debt on the statement of net position.

Unearned Revenue

Unearned revenue relates to student tuition, fees and other revenues received during the current fiscal period for classes or activities to be held in the following period.

Net Position

The College's net position is classified as follows:

- Net investment in capital assets: This represents the College's total investment in capital assets, net of outstanding
 debt obligations and payables related to those capital assets. To the extent debt has been incurred but not yet
 expended for capital assets, such amounts are not included as a component of net investment in capital assets.
- Restricted nonexpendable: This represents amounts subject to externally imposed stipulations that they be maintained in perpetuity by the College.
- Restricted expendable: This represents amounts whose use is subject to externally imposed legal or contractual obligations that require the amounts to be spent in accordance with the external restrictions.
- Unrestricted: This represents resources derived from student tuition and fees, State appropriations, and sales and
 services of educational departments and auxiliary enterprises. These resources are used for transactions relating to
 the educational and general operations of the College and may be used at the discretion of the governing board to
 meet current expenses for any purpose. These resources also include auxiliary enterprises which are substantially
 self-supporting activities that provide services for students, faculty, and staff.

Classification of Revenues and Expenses

The College defines operating activities, for purposes of reporting on the Statements of Revenues, Expenses, and Changes in Net Position, as those activities that generally result from exchange transactions, such as payments received for providing services and payments made for goods or services received. With the exception of interest expense on long-term indebtedness, substantially all College expenses are considered to be operating expenses. Certain significant revenue streams relied upon for operations are recorded as non-operating revenues, as defined by GASB Statement No. 35, including State appropriations, ad valorem taxes, Federal Title IV financial aid funds, and investment income.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 2 - Summary of Significant Accounting Policies (continued)

Income Taxes

Odessa College is exempt from Federal income taxes under Internal Revenue Code Section 115, Income of States, Municipalities, Etc., although unrelated business income may be subject to Federal income taxes under Internal Revenue Code Section 511 (a)(2)(B), Imposition of Tax on Unrelated Business Income of Charitable, Etc., Organizations. The College had no unrelated business income tax liability for the years ended August 31, 2023 and 2022.

Implementation of New Accounting Standards

GASB Statement No. 96 Subscription-Based Information Technology Arrangements (SBITA), was issued in May 2020 and was effective for periods beginning after June 15, 2022. This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended. The College has evaluated the effects of this standard and has determined that it does impact the financial statements. As such the College has incorporated such SBITAs into its capital assets and long-term liabilities on both the face of the financial statements and the note disclosures.

Prior Year Restatement

In accordance with GASB 96, the College made a prior year restatement as lessee to recognize a subscription liability and an intangible right-to-use subscription assets which are included on the College's Statement of Net Position with an improvement to net position of \$247,366 in fiscal year 2022.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 3 - Authorized Investments

The Board of Trustees of the District has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act of 1995 (Section 2256.001, Texas Government Code). The investments of the District are in compliance with Trustees' investment policies. Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit, and (5) other instruments and obligations authorized by statute.

In accordance with Sec. 2256.005 (n) of the Public Funds Investment Act, the community college, "...shall arrange for a compliance audit of management controls on investments and adherence to the District's established investment policies. The compliance audit shall be performed by the District's internal auditor or by a private auditor...Not later than January 1 of each even numbered year, the community college shall report the results of the most recent audit performed to the state auditor."

The State Auditor has determined that the District and their independent auditors should indicate compliance with the Act by completing the following:

- The categorization of investments by risk which is required by GASB Statement No. 3 Note 4 in the footnote "Deposits
 and Investments," and
- Placing a statement in the scope paragraph of the Report on Compliance and on Internal Control over Financial Reporting (starting on page 93) which indicate the audit work covered in the Act, or
- Writing a separate letter to the State Auditor's Office stating that the District is in compliance with all requirements of the Act.

Note 4 - Deposits and Investments

Deposits: At August 31, 2023 and 2022, the carrying amount of the District's deposits were \$1,917,406 and \$2,290,523, respectively. Bank balances equaled \$2,908,775 and \$5,154,963. Bank balances of \$260,518 and \$260,518 were covered by federal depository insurance, and \$2,648,257 and \$4,894,445 were covered by collateral pledged in the District's name. The collateral was held by the District or by its Agent (Category 1). There were no uncollateralized bank balances (Category 3) at either year end. (This would have included any bank balance that was collateralized with securities held by the pledging financial institution's department or agent but not in the District's name). The District held \$17,308,839 and \$18,083,346 in state approved public funds investment pools at August 31, 2023 and 2022, respectively.

Cash and Deposits included on Exhibit 1, Statement of Net Position, consist of the items reported below at August 31:

Total Fair Value	\$ 67,657,288	\$	6,824,843	\$	19,968,017	\$	40,864,428

Interest Rate Risk: In accordance with state law and District policy, the District has established maturity limitations on investments purchased. Investments of the operating and renewal and replacement funds do not have maturities in excess of 5 years. Investments of debt service funds do not have maturities in excess of the debt service dates. Additionally, maturities of commercial paper and banker's acceptances shall not exceed 270 days, repurchase agreements shall not exceed 2 years, and reverse repurchase agreements shall not exceed 90 days.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 4 - Deposits and Investments (continued)

Credit Risk: In accordance with state law and the District's investment policy, investments in mutual funds and investment pools must be rated at least AAA, commercial paper must be rated at least A-1 or P-1, and investments in obligations of states, agencies, counties, cities, and other political subdivisions must be rated at least A. Applicable credit ratings of investments at August 31, 2023 and 2022 are reported below.

Investment Type	Credit Rating
Tex Pool Prime	S&P: AAAm
TexPool	S&P: AAAm
LOGIC	S&P: AAA
Lone Star Government Overnight Fund	S&P: AAAm
Lone Star Corporate Overnight Plus Fund	S&P: AAAf/S1+
Corporate Bonds	S&P: AA and above
Municipal Bonds	S&P: A and above
U.S. Government Agencies-FHLB	S & P AA+; Moody's Aaa

Concentration of Credit Risk: The District does not place a limit on the amount the District may invest in any one issuer. The District does not have any investments from single issuers that are more than 5% of the total investments.

Custodial Credit Risk: The District's investments have no custodial credit risk.

Note 5 - Fair Value of Instruments

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Fair value measurements were arrived at using the following inputs at August 31, 2023 and 2022:

Investment Type	Acti	oted Prices in ve Markets for entical Assets Level 1	Significa Observab Levo	le Inputs	Significant Unobservable In Level 3	puts	2023

Right To Use Lease Liability

During the current fiscal year, the College entered into five-year lease agreements as lessee for the acquisition and use of copiers. At the beginning of the fiscal year, the lease liability was recorded in the amount of \$186,329. As of August 31, 2023, the value of the lease liability was \$89,304. The College is required to make monthly principal and interest payments of \$8,928. The leases have an interest of 2.77%. The copiers have a five-year estimated useful life. The College also entered into a 39-month lease as lessee for the use of a 2023 Lincoln Corsair vehicle. An initial lease liability was recorded in the amount of \$37,334 for the vehicle. As of August 31, 2023, the value of the lease liability for the vehicle was \$34,468. The College is required to make monthly fixed payments of \$963 for the vehicle. The lease has an interest rate of 0.3940%.

As of August 31, 2023, the combined future principal and interest lease payments for the copiers and the vehicle were as follows:

For the Year Ended	RTU Lease Payable							
August 31,	F	Principal	Inte	rest	Tot	al		
2024	\$	69,663	\$	1,721	\$	71,384

Right To Use Subscription Liability

For the year ended August 31, 2023, the financial statements include the adoption of GASB Statement No. 96, Subscription-Based Information Technology Arrangements. The primary objective of this statement is to enhance the relevance and consistency of information about Districts' subscription activities. This statement establishes a single model for subscription accounting based on the principle that subscriptions are financings of the right to use an underlying asset. Under this Statement, an organization is required to recognize a subscription liability and an intangible right-to-use subscription asset.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 8 - Debt and Lease Obligations (continued)

Right To Use Subscription Liability (continued)

During the current fiscal year, the College entered into agreements for rights to use subscription-based software. An initial lease liability was recorded in the amount of S3,176,411 during the current fiscal year. As of August 31, 2023, the value of the lease liability was \$1,665,222. The College is required to make annual principal and interest payments of approximately \$1,664,255. The subscriptions have interest rates ranging from 0.218% to 3.238%.

The future principal and interest subscription payments as of August 31, 2023, were as follows:

For the Year Ended	RTU Subscription Payable							
August 31,	Principal	Interest	Total					
2024	\$ 1,164,555	\$ 27,997	\$ 1,192,552					
2025	382,367	8,594	390,961					
2026	98,272	1,391	99,663					
2027	20,028	474	20,502					
Total	\$ 1,665,222	\$ 38,456	\$ 1,703,678					

Note 9 - Bonds Payable

General information related to bonds payable is summarized below:

General Obligation Bonds

The General Obligation Bonds are direct obligations payable from ad valorem taxes levied, within the limitation prescribed by law, against all property located within the District's taxing jurisdiction. Payment of the Bonds is derived from taxes levied and collected on an annual basis in an amount sufficient to pay the principal and interest when due, full allowance being made for delinquencies and collection costs.

Limited Tax Refunding Bonds, Series 2017

- To refund a portion of Limited Tax Bonds, Series 2011 and to pay the costs of issuance related to the Bonds.
- To capture interest rate savings without extending the final maturity, resulting in a net present value savings to the District of \$6,551,787.
- Issued on December 29, 2017.
- \$57,910,000 original amount of issue; all authorized bonds have been issued.
- Issued at a net premium of \$6,411,367.
- Source of payment property tax revenues; no bond reserve fund is required.
- Fitch Ratings currently rates the bonds as 'AA' with a stable outlook.
- Standard & Poor's Ratings Services currently rates the bonds as 'AA-' with a stable outlook.
- Due in annual installments of principal and interest varying from \$2,535,600 to \$4,371,200 with interest rates from 3.00% to 5.00%.
- Outstanding principal balance as of August 31, 2023 and 2022 was \$54,190,000 and \$56,080,000, respectively.
- Subject to optional redemption on or after August 15, 2027, at par.
- Final payment is due on August 31, 2041.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 9 - Bonds Payable (continued)

Consolidated Fund Revenue Bonds

The Combined Fee Revenue Bonds are secured by a first-lien pledge of specific gross revenues, including a general-use fee, operating fees, a tuition pledge, auxiliary revenue, and any unrestricted gifts or grants. By covenant, the District is required to maintain a pledged revenue-to-debt service coverage ratio of 1.50. The actual coverage ratio was 3.43 and 2.19 for the years ended August 31, 2023 and 2022, respectively.

Consolidated Fund Revenue Refunding Bonds, Series 2021

- To refund the outstanding obligations of the Series 2012 Bonds, to pay for related bond issuance costs, and to deposit \$414,050 in a debt service reserve fund.
- Issued on August 15, 2021.
- \$4,675,000 original amount of issue; all authorized bonds have been issued.
- Source of payment pledged revenues, including: the general-use fee, the college bookstore revenues, the tuition
 pledge, the college cafeteria revenues, the dormitory system revenues, the operating fees, gifts, grants, or donations
 from any public or private source that are not restricted or dedicated with respect to their use or purpose, and the
 earnings on all investments of the District lawfully available for such purpose.
- Standard & Poor's Ratings Services currently rates the bonds as 'AA' with a stable outlook.
- Due in annual installments of principal and interest varying from \$359,964 to \$898,480, with interest rates from 0.28% to 1.85%.
- Outstanding principal balance as of August 31, 2023 and 2022 was \$4,025,000 and \$4,325,000, respectively.
- Not subject to redemption prior to stated maturity.
- Final payment is due on July 1, 2034.

Consolidated Fund Revenue Bonds, Series 2021

- To finance the construction of a heath science building on the Odessa College campus, to pay for related bond issuance costs, and to deposit \$2,360,723 in a debt service reserve fund.
- Issued on August 15, 2021
- \$26,435,000 original amount of issue; all authorized bonds have been issued.
- Source of payment pledged revenues, including: the general-use fee, the college bookstore revenues, the tuition
 pledge, the college cafeteria revenues, the dormitory system revenues, the operating fees, gifts, grants, or donations
 from any public or private source that are not restricted or dedicated with respect to their use or purpose, and the
 earnings on all investments of the District lawfully available for such purpose.
- Due in annual installments of principal and interest varying from \$1,076,800 to \$3,850,853, with interest rates of 4.00%
- Standard & Poor's Ratings Services currently rates the bonds as 'AA' with a stable outlook.
- Outstanding principal balance as of August 31, 2023 and 2022 is \$21,030,000 and \$23,480,000, respectively
- Issued at a net premium of \$4,289,925.
- Not subject to redemption prior to stated maturity.
- Final payment is due July 1, 2035

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 9 - Bonds Payable (continued)

A Summary of bond principal is as follows:

		Balance							Balance

Total Bonds	\$	83,885,000	\$		-	\$	4,640,000	\$	79,245,000									

Note 10 - Refunding And Defeased Bonds Outstanding

The District has defeased certain bonds payable by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements.

Bond Refunding:

Limited Tax Bonds, Series 2011

- Refunded by Limited Tax Refunding Bonds, Series 2017, issued December 27, 2017.
- Partially refunded \$57,990,000; all authorized bonds have been issued.
- The unrefunded bond debt service amount was \$6,967,525.
- Average interest rate of bonds refunded is 5.24%
- The District placed the proceeds of the Refunded Bonds in an escrow fund deposited with The Bank of New York Mellon Trust Company.
- The escrow account assets and the liability for the defeased bonds are not included in the College's financial statements.
- As of the effective date of the refunding, the total cash flows to service the refunded bonds was \$105,491,688. The total cash flows required to service the refunding bonds was \$96,366,943.
- The resulting net present value of refunding savings to the District was \$6,551,787.

Consolidated Fund Revenue Bonds, Series 2012

- Refunded by Consolidated Fund Revenue Refunding Bonds, Series 2021, issued August 26, 2021.
- Refunded \$4,675,000; all authorized bonds have been issued.
- Average interest rate of bonds refunded is 1.10%
- The District placed the proceeds of the Refunded Bonds in an escrow fund deposited with The Bank of New York Mellon Trust Company.
- The escrow account assets and the liabilities for the defeased bonds are not included in the College's financial statements.
- As of the effective date of the refunding, the total cash flows to service the refunded bonds was \$5,868,250. The total cash flows required to service the refunding bonds was \$5,319,389.
- The resulting net present value of refunding savings to the District was \$548,861.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 11 - Employees' Retirement Plans

Defined Benefit Pension Plan

Plan Description. The College participates in the Teacher Retirement System of Texas (TRS), which is a public employee retirement system that is a multiple employer, cost-sharing, defined benefit pension plan that has a special funding situation. TRS is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. TRS issues a publicly available, audited Annual Comprehensive Financial Report that includes financial statements, notes and required supplementary information. This report may be obtained on the internet at https://www.trs.texas.gov/TRS%20Documents/acfr-2022.pdf or by writing to TRS at 1000 Red River Street, Austin, Texas 78701-2698; or by calling (512) 542-6592.

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using a 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, whose formulas use the three highest annual salaries. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic cost of living adjustments.

(COLA). Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan Description above.

Texas Government Code Section 821.006 prohibits benefit improvements if, as a result of the particular action, the time required to amortize TRS's unfunded actuarial liabilities would be increased to a period that exceeds 31 years or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Contributions Contribution requirements are established or amended pursuant to Article 16, Section 67 of the Texas Constitution which requires the Texas Legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 11 - Employees' Retirement Plans (continued)

Defined Benefit Pension Plan (continued)

Contribution Rates	 2022	2023
Member	8.00%	8.00%
Non-Employer Contributing entity (State)	7.75%	8.00%
Employers	7.75%	8.00%
2022 Member Contributions	\$ 1,514,356	
2022 State of Texas On-behalf Contributions	\$ 658,364	
2022 District Contributions	\$ 808,668	

The District's contributions to the TRS pension plan in 2023 were \$960,583 as reported in the Schedule of District Contributions in the Required Supplementary Information section of these financial statements. Estimated State of Texas onbehalf contributions for 2023 were \$679,502.

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the
retirement system an amount equal to the current employer contribution rate times the aggregate annual
compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts
described below which are paid by the employers.

Public junior colleges or junior college districts are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the
 retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative
 employees; and 100% of the state contribution rate for all other employees.
- In addition to the employer contributions listed above, when employing a retiree of the Teacher Retirement System the
 employer shall pay both the member contribution and the state contribution as an employment after retirement
 surcharge.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 11 - Employees' Retirement Plans (continued)

Actuarial Assumptions

The total pension liability in the August 31, 2022 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date August 31, 2021 rolled forward to August 31, 2022

Actuarial Cost Method Individual Entry Age Normal

Asset Valuation Method Fair Value
Single Discount Rate 7.00%
Long-Term Expected Investment Rate of Return* 7.00%
Municipal Bond Rate* 3.91
Last year ending August 31 in the Projection period (100 years) 2121
Inflation 2.30%

Salary increases including inflation 2.95% to 8.95%

Benefit changes during the year None
Ad HOC post-employment benefit change None

The actuarial methods and assumptions were selected by the TRS Board of Trustees based upon analysis and recommendations by the system's actuary. The Board of Trustees has sole authority to determine the actuarial assumptions used for the plan. The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2021.

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The single discount rate was based on the expected rate of return on pension plan investments of 7.00%. The projection of cash flows used to determine the single discount rate assumed that contributions from active members, employers, and the non-employer contributing entity will be made at the rates set by the Legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50% of payroll in fiscal year 2020 gradually increasing to 9.55% of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

^{*} Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 11 - Employees' Retirement Plans (continued)

Discount Rate (continued)

The long-term rate of return on pension plan investments is 7.00%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in TRS's target asset allocation as of August 31, 2022, are summarized below:

	Target	Long-Term Expected Geometric Real Rate of	Expected Contribution to Long-Term Portfolio
Asset Class	Allocation ²	Return ³	Returns
Global Equity:			
U.S.	18.00%	4.60%	1.12%
Non-U.S. Developed	13.00%	4.90%	0.90%

Note 11 - Employees' Retirement Plans (continued)

Discount Rate Sensitivity Analysis

The following table represents the net pension liability of the plan using the discount rate of 7.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1% lower (6.00%) or 1% higher (8.00%) than the current rate.

	1%	1% Decrease in			L% Increase in
	Discount Rate (6.00%)		Discount Rate (7.00%)		Discount Rate (8.00%)
Odessa College District's proportionate share of the		_			
net pension liability:	\$	16,912,833	\$ 10,872,079	\$	5,975,765

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2023, the District reported a liability of \$10,872,079 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 10,872,079
State's proportionate share that is associated with the District	8,645,029
Total	\$ 19,517,108

The net pension liability was measured as of August 31, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2021, thru August 31, 2022.

At the measurement date of August 31, 2022, the employer's proportion of the collective net pension liability was .0183132057%, which was an increase of .0028605785% from its proportion measured as of August 31, 2021.

Changes Since the Prior Actuarial Valuation

Demographic Assumptions

- Percentage of current retirees and retiree spouses not yet eligible to participate in the HealthSelect Medicare Advantage Plan and future retirees and retiree spouses who will elect to participate in the plan at the earliest date at which coverage can commence
- Proportion of future female retirees assumed to be married and electing coverage for their spouse
- Proportion of future retirees assumed to elect health coverage at retirement and proportion of future retirees expected to receive the Opt-Out Credit at retirement.
- Percentage of Higher Education vested terminated members assumed to have terminated less than one year before the valuation date.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 11 - Employees' Retirement Plans (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Economic Assumptions

- Assumed per capita health benefit costs, and health benefit costs and retiree contribution trends have been updated since the previous valuation to reflect recent health plan experience and its effects on shortterm expectations.
- Annual rate of increase in the Patient-Centered Outcomes Research Institute (PCORI) fee payable under the Affordable Care Act has been updated to reflect recent health plan experience and its effects on our short-term expectations.
- Assumed expenses directly related to the payment of Group Benefits Program (GBP) HealthSelect medical benefits have been updated to reflect recent contract revisions.

Changes in Benefit Terms Since the Prior Actuarial Valuation

Minor benefit revisions have been adopted since the prior valuation. These changes, which are not
expected to have a significant impact on plan costs for FY2022, are provided for in the FY2022 Assumed
Per Capita Health Benefit Costs. There were no benefit changes for HealthSelect retirees and the
dependents for whom Medicare is primary.

For the year ended August 31, 2023, the District recognized pension expense of \$826,367 as well as on-behalf revenue and pension expense of \$826,367 representing pension expense incurred by the State on behalf of the District.

At August 31, 2023, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 rred Outflows Resources	I	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 157,644	\$	237,032
Changes in actuarial assumptions	2,025,822		504,894
Net difference between projected and actual investment earnings	4,224,239		3,150,113
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	1,216,052		1,115,466
Contributions paid to TRS subsequent to the measurement date*	 960,583		-
Total	\$ 8,584,340	\$	5,007,505

^{*} The \$960,583 reported as Deferred Outflows of Resources resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended August 31, 2024.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 11 - Employees' Retirement Plans (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended August 31:	
2024	\$ 655,566
2025	312,972

	\$ 2,616,252

Defined Contribution Plan

Plan Description The state has also established an Optional Retirement Program (ORP) for institutions of higher education. Participation in the Optional Retirement Program is in lieu of participation in the Teacher Retirement System (TRS). The ORP provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

Funding Policy. Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. State law provides for a member contribution rate of 6.65% and an employer contribution rate of 6.60% for fiscal year 2023 and 2022. The District contributes an additional 0.71% for employees who are participating in the optional retirement program. Benefits fully vest after one year plus one day of employment. Because these are individual annuity contracts, the state has no additional or unfunded liability for this program. Senate Bill 1812, effective September 1, 2013, limits the amount of the state's contribution to 50% of eligible employees in the reporting district.

Summary of Combined Retirement Plans

The retirement expense to the State for the District's TRS and ORP participants was \$900,885 and \$771,455 for the fiscal years ended August 31, 2023 and 2022, respectively. This amount represents the portion of expended appropriations made by the State Legislature on behalf of the College.

The total payroll for all District employees was \$30,188,905 and \$27,641,659 for fiscal years 2023 and 2022, respectively. The total payroll of employees covered by the Teacher Retirement System (TRS) was \$22,231,298 and \$18,929,456 and the total payroll of employees covered by the Optional Retirement Program (ORP) was \$3,302,886 and \$3,724,209 for fiscal years 2023 and 2022, respectively.

Note 12 - Deferred Compensation Program

The District's employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Government Code 609.001. As of August 31, 2023 and 2022, the District had no employees participating in the program.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 13 - Compensable Absences

Full-time employees in 12-month positions earn annual vacation leave from 6.67 to 13.33 hours per month depending on the number of years employed with the District. The District's policy allows a full-time employee to accumulate a balance equal to one hundred fifty percent (150%) of his or her annual accrual rate. Employees with at least six months of service who terminate their employment are entitled to payment for all accumulated vacation leave. The District has recognized the accrued liability for the unpaid annual leave for the periods ending August 31, 2023, and 2022 in the amounts of \$862,982 and \$712,126 respectively.

Sick leave, which can be accumulated to a maximum of seven hundred twenty (720) hours, is earned at the rate of eight (8) hours per month. The District's policy is to recognize the cost of sick leave when paid. The liability is not shown in the financial statements since experience indicates the expenditure for sick leave to be minimal.

Note 14 - Health Care and Life Insurance Benefits

The District has certain health care and life insurance benefits for active employees. These benefits are administered by the Employees Retirement System of Texas and provided through an insurance company whose premiums are based on benefits paid during the previous year. The State appropriates a sum-certain amount for these benefits to the District based on employee enrollments during the legislative cycle, and any additional employer expense must be funded by the District. SB 1812, effective September 1, 2013, limits the amount of the state's contribution to 50 percent of eligible employees in the reporting district.

For the year ended August 31, 2023, the employer's maximum contribution per full-time employee/retiree was \$627 per month for the year and totaled \$7,524 per employee/retiree for the year. The employer also paid a maximum amount for a spouse, children, or family of \$1,342, \$1,106, and \$1,821 per month, respectively.

For the year ended August 31, 2022, the employer's maximum contribution per full-time employee/retiree was \$627 per month for the year and totaled \$7,524 per employee/retiree for the year. The employer also paid a maximum amount for a spouse, children, or family of \$1,342, \$1,106, and \$1,821 per month, respectively.

The cost of providing health care benefits to retirees and active employees is as follows for the years ending August 31:

	2023	2022
Number of retirees receiving benefits	176	182
Cost of state's contribution	\$ 727,909	\$ 728,191
Cost of local contribution	 850,722	846,033
Total Cost of Benefits for Retirees	 1,578,631	 1,574,224
Number of active employees receiving benefits	360	347
Cost of state's contribution	\$ 1,475,050	\$ 1,377,152
Cost of federal grant contribution	24,789	-
Cost of local contribution	 1,739,919	 1,808,294
Total Cost of Benefits for Active Employees	\$ 3,239,758	\$ 3,185,446

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 15 - Post-Employment Benefits Other than Pensions

Plan Description. The College participates in a cost-sharing, multiple employer, other post-employment benefit (OPEB) plan with a special funding situation. The Texas Employees Group Benefits Program (GBP) is administered by the Employees Retirement System of Texas (ERS). The GBP provides certain post-employment health care, life and dental insurance benefits to retired employees of participating universities, community colleges, and State agencies in accordance with Chapter 1551, Texas Insurance Code. Almost all employees may become eligible for those benefits if they reach normal retirement age while working for the State and retire with at least ten years of service to eligible entities. Surviving spouses and dependents of these retirees are also covered. Benefit and contribution provisions of the GBP are authorized by State law and may be amended by the Texas Legislature.

OPEB Plan Fiduciary Net Position. Detailed information about the SRHP's fiduciary net position is available in the separately issued ERS Annual Comprehensive Financial Report that includes financial statements, notes to the financial statements and required supplementary information. That report may be obtained on the Internet at https://ers.texas.gov/abouters/reports-and-studies/gasbrequirements or by writing to ERS at: 200 East 18th Street, Austin, TX 78701; or by calling (877) 275-4377. The fiduciary net position of the plan has been determined using the same basis used by the OPEB plan.

Benefits Provided. Retiree health benefits offered through the GBP are available to most State of Texas retirees and their eligible dependents. Participants need at least ten years of service credit with an agency or institution that participates in the GBP to be eligible for GBP retiree insurance. The GBP provides self-funded group health (medical and prescription drug) benefits for eligible retirees under HealthSelect. The GBP also provides a fully insured medical benefit option for Medicare-primary participants under the HealthSelect Medicare Advantage Plan and life insurance benefits to eligible retirees via a minimum premium funding arrangement. The authority under which the obligations of the plan members and employers are established and/or may be amended is Chapter 1551, Texas Insurance Code.

Contributions. Section 1551.055 of Chapter 1551, Texas Insurance Code, provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS Board of Trustees. The employer and member contribution rates are determined annually by the ERS Board of Trustees based on the recommendations of ERS staff and its consulting actuary. The contribution rates are determined based on (i) the benefit and administrative costs expected to be incurred, (ii) the funds appropriated and (iii) the funding policy established by the Texas Legislature in connection with benefits provided through the GBP. The Trustees revise benefits when necessary to match expected benefit and administrative costs with the revenue expected to be generated by the appropriated funds. There are no long-term contracts for contributions to the plan.

The following table summarizes the maximum monthly employer contribution toward eligible retirees' health and basic life premium, which is based on a blended rate. Retirees pay any premium over and above the employer contribution. The employer does not contribute toward dental or optional life insurance. Surviving spouses and their dependents do not receive any employer contribution. As the non-employer contributing entity (NECE), the State of Texas pays part of the premiums for the junior and community colleges.

Maximum Monthly Employer Contribution Retiree Health and Basic Life Premium Fiscal Year FY22

Retiree only	\$ 622.60
Retiree & Spouse	\$ 1,338.60
Retiree & Children	\$ 1,102.00
Retiree & Family	\$ 1,818.00

Contributions of premiums to the GBP plan for the current and prior fiscal year by source is summarized in the following table.

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of August 31, 2022 using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Valuation date	August 31, 2022
Actuarial cost method	Entry Age
Amortization method	Level Percent of Pay, Open

Remaining amortization period 30 years
Asset valuation method N/A
Discount rate 3.59%

Projected annual salary increase (includes inflation) 2.30% to 8.95%

Annual healthcare trend rate

<u>Health Select:</u> 5.60% for FY24, 5.30% for FY25, 5.00% for FY26,
4.75% for FY27, 4.60% for FY28, decreasing 10 basis points per

year to an ultimate rate of 4.30% for FY31 and later years.

<u>Health Select Medicare Advantage</u>: 66.67% for FY24, 24.00% for FY25, 5.00% for FY26, 4.75% for FY27, 4.60% for FY28, decreasing 10 basis points per year to an ultimate rate of 4.30% for FY31 and later years.

<u>Pharmacy:</u> 10.00% for FY24, 10.00% for FY25, decreasing 100 basis points per year to 5.00% for FY30 and 4.30% for FY31 and later years.

Inflation assumption rate 2.30%
Ad hoc post-employment benefit changes None

Mortality assumptions:

Service retirees, survivors and other inactive members

with Ultimate MP Projection Scale from the year 2014.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 15 - Post-Employment Benefits Other than Pensions (continued)

Actuarial Assumptions (continued)

Many of the actuarial assumptions used in this valuation were based on the results of actuarial experience studies performed by the ERS and TRS retirement plan actuaries for the period September 1, 2010 to August 31, 2017 for higher education members.

Investment Policy

The SRHP is a pay-as-you-go plan and does not accumulate funds in advance of retirement. The ERS's Board of Trustees amended the investment policy statement in August 2022 to require that all funds in the SRHP be invested in cash and equivalent securities. The expected rate of return on these investments is currently 4.1%, in line with the prevailing returns on 90-day US treasury bills.

Discount Rate

Because the SRHP does not accumulate funds in advance of retirement, the discount rate that was used to measure the total OPEB liability is the municipal bond rates. The discount rate used to determine the total OPEB liability as of the end of the measurement year was 3.59% to reflect the requirements of GASB 75. The source of the municipal bond rate was the Bond Buyer Index of general obligation bonds with 20 years to maturity and mixed credit quality. The bonds' average credit quality is roughly equivalent to Moody's Investors Service's Aa2 rating and Standard & Poor's Corp.'s AA rating. Projected cash flows into the SRHP are equal to projected benefit payments out of the plan. Because SRHP operates on a pay-as-you-go basis and is not intended to accumulate assets, there is no long-term expected rate of return on plan assets and therefore the years of projected benefit payments to which the long-term expected rate of return is applicable is zero years.

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the College's proportionate share of the collective Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.59%) in measuring the Net OPEB Liability.

	1% Decrease in Discount Rate 2.59%			Discount Rate 3.59%	1% Increase in Discount Rate 4.59%		
District's proportionate share of the net OPEB liability	\$	29,391,154	\$	25,200,291	\$	21,848,607	

Healthcare Trend Rate Sensitivity Analysis

	se Healthcare Cost end Rates	 ent Healthcare et Trend Rates	1% Increase in Healthcare Cost trend Rates		
District's Proportionate share of the net					
OPEB liability	\$ 21,580,586	\$ 25,200,291	\$	29,821,677	

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 15 - Post-Employment Benefits Other than Pensions (continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB.

At August 31, 2023, the District reported a liability of \$25,200,291 for its proportionate share of the ERS's net OPEB liability. This liability reflects a reduction for State support provided to the District for OPEB. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's Proportionate share of the collective net OPEB liability	\$ 25,200,291
State's Proportionate share that is associated with District	 3,621,286
Total	\$ 28,821,577

The net OPEB liability was measured as of August 31, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The employer's proportion of the net OPEB liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2021, thru August 31, 2022.

At the measurement date of August 31, 2022, the employer's proportion of the collective net OPEB liability was 0.08846%, which was an increase of 0.00603% from the proportion measured as of August 31, 2021.

For the year ended August 31, 2023, the District recognized negative OPEB expense of \$751,781 and negative revenue of \$751,781 for support provided by the State.

At August 31, 2023 the District reported its proportionate share of the ERS plan's collective deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources			ferred Inflows of Resources
Differences between expected and actual economic experience	\$	-	\$	795,099
Changes in actuarial assumptions		1,480,618		7,789,648
Difference between projected and actual investment earnings		4,347		-
Changes in proportion and difference between the employer's contributions and the				
proportionate share of contributions		2,496,653		1,220,969
Contributions paid to ERS subsequent to the measurement date*		579,699		<u> </u>
Total	\$	4,561,317	\$	9,805,716

^{*} The \$579,699 reported as Deferred Outflows of Resources resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the Net OPEB Liability in the year ended August 31, 2024.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 15 - Post-Employment Benefits Other than Pensions (continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. (continued)

The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended August 31:	
2024	\$ (1,805,017)
2025	(1,274,366)
2026	(1,146,560)
2027	(1,032,737)
2028	 (565,418)
	\$ (5,824,098)

Note 16 - Pending Lawsuits and Claims

In the ordinary course of business, the District is involved with various claims and potential litigation. While the ultimate liability with respect to litigation and other claims asserted against the District cannot be reasonably estimated at this time, this liability, to the extent not provided for by insurance or otherwise, is not likely to have a material effect on the District.

The District receives federal, state and local grants that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. The District's management believes such disallowances, if any, will not have a material effect on the basic financial statements.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 17 - Disaggregation of Receivables and Payables Balances

Receivables at August 31, 2023 and 2022 were as follows:

	2023	 2022
Tuition and fees receivable	\$ 2,491,574	\$ 1,191,726
Taxes receivable	3,571,810	3,326,870
Federal receivable	1,006,535	1,207,036
State receivable	254,209	30,658
Interest receivable	283,253	326,651
Other receivables	3,034,165	 3,385,056
Subtotal	10,641,546	9,467,997
Allowance for doubtful accounts	 (5,015,712)	 (4,444,450)
Total	\$ 5,625,834	\$ 5,023,547

Payables at August 31, 2023 and 2022 were as follows:

	2023	2022	
Vendors payable – operations	\$ 920,272	\$	1,302,133
Vendors payable – capital	3,605,996		929,137
Students payable	3,448		3,504
Total	\$ 4,529,716	\$	2,234,774

Note 18 - Contract and Grant Awards

Contract and grant awards are accounted for in accordance with the requirements of the AICPA Industry Audit Guide, Audits of Colleges and Universities. Revenues are recognized on Exhibit 2, Schedule A and Schedule C. For federal contract and grant awards, funds expended, but not collected, are reported as Federal Receivables on Exhibit 1. Non-federal contract and grant awards for which funds are expended, but not collected, are reported as Accounts Receivable on Exhibit 1. Contract and grant awards that are not yet funded and for which the institution has not yet performed services are not included in the financial statements. Contract and grant awards funds already committed, e.g., multi-year awards, or funds awarded during fiscal years 2023 and 2022 for which monies have not been received nor funds expended totaled \$5,263,823 and \$5,029,240, respectively. Of these amounts, \$2,291,714 and \$4,404,781 were from federal contract and grant awards; \$574,209 and \$176,951 were from state contract and grant awards; and \$2,397,900 and \$447,508 were from private contract and grant awards for the fiscal years ended August 31, 2023 and 2022, respectively.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 19 - Ad Valorem Tax

The District's ad valorem property tax is levied each October 1st on the assessed value listed as of the prior January 1st for all real and business personal property located in the District.

At August 31:	 2023	2022
Assessed valuation of the District (at January 1, 2022 and 2021)	\$ 21,079,132,440	\$ 18,792,622,444
Less: exemptions	(3,566,619,841)	(3,209,680,589)
Less: abatements	 (119,004,125)	(254,504,261)
Net assessed valuation of the District	\$ 17,393,508,474	\$ 15,328,437,594

At August 31:		2023		2022				
	Current Operations	Debt Service	Total	Current Operations	Debt Service	Total

Assessed tax rate per \$100 valuation	0.164191	0.024452	0.188643	0.172599	0.029124	0.201723		

Taxes levied (including adjustments to the certified levies) for the year ended August 31, 2023 and 2022 were \$32,871,001 and \$30,975,289 respectively. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1st of the year following the year in which imposed.

At August 31:	2023				2022							
	Curre	rrent Operations Debt Service		ebt Service	Total	Current Operations		Current Operations		D	ebt Service	Total
Current taxes collected	\$	27,598,986	\$	4,110,875	\$ 31,709,861	\$	25,683,048	\$	4,333,194	\$ 30,016,242		
Delinquent taxes												
collected		558,470		90,064	648,534		520,787		90,695	611,482		
Penalties and interest												
collected		487,073		76,581	563,654		449,943		77,276	527,219		
Total Collections	\$	28,644,529	\$	4,277,520	\$ 32,922,049	\$	26,653,778	\$	4,501,165	\$ 31,154,943		

Tax collections for the year ended August 31, 2023 and 2022 were 96.52% and 96.58%, respectively, of the current year adjusted tax levies, excluding collections in subsequent fiscal years. Allowance for uncollectible taxes are based upon historical experience in collecting property taxes. The use of tax proceeds is restricted to maintenance and operations and payment of general obligation debt.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 20 - Tax Abatements

Odessa College has entered into property tax abatement agreements with local businesses under the Property Redevelopment and Tax Abatement Act, as authorized by Texas Tax Code, Chapter 312. Under the Act, local governments may grant property tax abatements for a term of up to ten (10) years with the amount of taxable value eligible for abatement ranging from 10% to 100%.

The District is under no obligation to provide tax abatement to any specific applicant and reserves the right to do so on a case-by-case basis as stimulation for economic development within the Reinvestment Zones and Enterprise Zones established by the City of Odessa. The abatements may be granted to any business located within or promising to relocate to the service area of Odessa College.

For the fiscal year ended August 31, 2023, Odessa College abated property taxes totaling \$224,493 under this program, including the following tax abatement agreements that each exceed 10 percent of the total amount abated:

A. Oberon Solar, LLC

- Commitment: Job creation and new investment as follows:
 - Create and maintain at least 2 new jobs and make a minimum new investment of \$50,000,000.
- Terms of abatement: 100% exemption from ad valorem taxes for five (5) years starting with the 2018 tax year, followed by a 50% exemption for the next 5 years.
- The abatement for fiscal year 2023 amounted to \$196,189, compared to \$291,895 for fiscal year 2022.

Note 21 - Component Units

Odessa College Foundation, Incorporated (the "Foundation") was established as a separate nonprofit organization in 1996 to raise funds to provide student scholarships and assistance in the development and growth of the District. Under Governmental Standards Board Statement No. 39, *Determining Whether Certain Organizations are Component Units*, the Foundation is determined to be a component unit of the District because:

- the District provides financial support to the Foundation and the economic resources received or held by the Foundation are entirely or almost entirely for the direct benefit of the District;
- The District is entitled to or has the ability to otherwise access a majority of the economic resources received or held by the Foundation; and
- The economic resources held by the Foundation that the District is entitled or has the ability to otherwise access are significant to the District

Accordingly, the Foundation financial statements are included in the District's annual report as a discrete component unit (see table of contents). Complete financial statements of the Odessa College Foundation, Incorporated can be obtained from the administrative offices of the Foundation/Odessa College District.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION Year Ended August 31, 2023

Schedules for Pensions - Net Pension Liability

The following changes to actuarial assumptions and other inputs affected the measurement of the amounts reported in the RSI schedules related to pensions:

The discount rate changed from 7.25% to 7.00%.

Schedules for Other Post-Employment Benefits (OPEB) - Net OPEB Liability

The following assumptions have been updated since the previous valuation to reflect recent plan experience and expected trends:

- The percentage of current retirees and their spouses not yet eligible to participate in the HealthSelect Medicare Advantage Plan and future retirees and their spouses who will elect to participate in the plan at the earliest date at which coverage can commence.
- Proportion of future retirees assumed to cover dependent children. The proportion of future retirees assumed to
 elect health coverage at retirement and proportion of future retirees expected to receive the Opt-Out Credit at
 retirement.
- Assumed Per Capita Health Benefit Costs and Health Benefit Cost and Retiree Contribution trends have been updated since the previous valuation to reflect recent health plan experience and its effect on our short-term expectations.
 The Patient-Centered Outcomes Research Institute fee payable under the Affordable Care Act has been updated to reflect the most recent information.
- The discount rate was changed from 2.14% to 3.59% as a result of requirements by GASB No. 74 to utilize the yield or index rate for 20-year, tax-exempt general obligation bonds rated AA/Aa (or equivalent) or higher in effect on the measurement date.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Trustees Odessa College District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the discretely presented component unit of Odessa College District (the "District"), as of and for the years ended August 31, 2023 and 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 7, 2023. The financial statements of the Foundation were not audited in accordance with Government Auditing Standards, and accordingly, this report does not include reporting on internal control over financial reporting or compliance and other matters associated with the Foundation.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

The Board of Trustees Odessa College District

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees Odessa College District

Report on Compliance for Each Major Federal Program

Opinion On Each Major Program

We have audited Odessa College District's (the "District") compliance with the types of compliance requirements described in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2023. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District's complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2023.

Basis for Opinion On Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal and programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit
 procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the
 District's compliance with the compliance requirements referred to above and performing such other procedures as
 we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances and to test and report on internal control over compliance in
 accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the
 District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

To the Board of Trustees Odessa College District

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Year Ended August 31, 2023

Note 1: Federal Assistance Reconciliation

Federal grants and contracts revenue, Operating Sch A	\$ 3,073,529
Federal grants and contracts revenue, Non-Operating Sch C	10,422,168
Federal Direct Student Loans	35,002
Total Federal Revenues Per Schedule of Expenditures of Federal	
Awards	\$ 13,530,699

Note 2: Significant Accounting Policies Used in Preparing the Schedule

The expenditures included in the schedule are reported for the District's fiscal year. Expenditure reports to funding agencies are prepared on the award period basis. The expenditures reported above represent funds that have been expended to the District for the purposes of the award. Some amounts reported in the schedule may differ from amounts used in the preparation of the basic financial statements. Separate accounts are maintained for the different awards to aid in the observance of limitations and restrictions imposed by the funding agencies. The District has followed all applicable guidelines issued by various entities in preparation of the Schedule. Since the District has agency approved indirect recovery rate it has elected not to use the 10 percent de minimis cost rate as permitted in the UG, Section 200.414. The District has followed all applicable guidelines issued by various entities in the preparation of the schedule.

Note 3: Student Loans Processed and Administrative Costs Recovered - Not included in Schedule of Expenditures of Federal Awards

State grants and contracts \$ 623,810

Total State Revenues per Schedule of Expenditures of State Awards \$ 623,810

Note 2: Significant Accounting Policies Used in Preparing the Schedule

The expenditures included in the schedule are reported for the District's fiscal year. Expenditure reports to funding agencies are prepared on the award period basis. The expenditures reported above represent funds that have been expended to the District for the purposes of the award. Some amounts reported in the schedule may differ from amounts used in the preparation of the basic financial statements imposed by the funding agencies. The District has followed all applicable guidelines issued by various entities in the preparation of the schedule.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Year Ended August 31, 2023

Federal regulations, Title 2 U.S. Code of Federal Regulations Section 200.511 states, "The auditee is responsible for follow-up and corrective action on all audit findings. As part of this responsibility, the auditee must prepare a summary schedule of prior audit findings". The summary schedule of prior audit findings must report the status of the following:

- · All audit findings included in the prior audit's schedule of findings and questioned costs and
- All audit findings reported in the prior audit's summary schedule of prior audit findings except audit findings listed as corrected.

The Summary Schedule of Prior Audit Findings for the year ended August 31, 2023 has been prepared to address these responsibilities.

I. Prior Audit Findings

Not Applicable.

CORRECTIVE ACTION PLAN Year Ended August 31, 2023

Federal regulations, Title 2 U.S. Code of Federal Regulations §200.511 states, "At the completion of the audit, the auditee must prepare, in a document separate from the auditor's findings described in §200.516 Audit findings, a corrective action plan to address each audit finding included in the current year auditor's reports."

As part of this responsibility, the College's corrective action plans are presented below.

I. Corrective Action Plan

Not Applicable.

STATISTICAL SUPPLEMENT

STATISTICAL SUPPLEMENT (UNAUDITED)

This part of Odessa College District's annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

The information contained within this section is being presented to provide the reader with a better understanding of five objectives:

- Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.
- SS1 Net Position by Component
- SS2 Revenue by Source
- SS3 Program Expenses by Function
 - Revenue Capacity Assessing the District's ability to generate revenue by examining its major revenue sources.
- SS4 Tuition and Fees
- SS5 State Appropriation per FTSE and Contact Hour
- SS6 Assessed Value and Taxable Assessed Value of Property formerly SS10
- SS7 Principal Taxpayers
- SS8 Property Tax Levies and Collections
 - Debt Capacity Assessing the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.
- SS9 Ratios of Outstanding Debt
- SS10 Legal Debt Margin Information
- SS11 Pledged Revenue Coverage
 - Demographic and Economic Information Providing demographic and economic indicators to help in understanding the environment within which the District's financial activities take place.
- SS12 Demographic and Economic Statistics Taxing District
- SS13 Principal Employers
 - Operating Information Providing information about how the District's financial report relates to the services it provides and the activities it performs.
- SS14 Faculty, Staff, and Administrator Statistics
- SS15 Fall Enrollment Details
- SS16 Student Demographic Profile
- SS17 Transfer Students to Senior Institutions
- SS18 Capital Asset Information

Sources: Unless otherwise noted, the information in these schedules is derived from the annual financial reports for the relevant year.

Texas Higher Education Coordinating Board 10-Pay Schedule

Texas Higher Education Coordinating Board - Accountability System

⁽a) Formula Funding Changed Methodology in FY2014.

⁽b) Fiscal Year FTSE is equal to the sum of State Funded Semester Credit Hours (Fall + Spring + Summer) for the Current Fiscal Year / 30 SCH plus the sum of State Funded Continuing Education Contact Hours (Qtr 1 + Qtr 2 + Qtr 3 + Qtr 4) for the Current Fiscal Year / 900 CH

⁽c) These are annual Student Success Points, not 3-year rolling average that is used for funding calculations
