

## Safety Classes

Price per Person	Course Title	Course Code	Course Description
\$150.00	OSHA 10 for General Industry	OSHA-10-GI	<p><b>(Prerequisite: None)</b></p> <p>The OSHA 10-hour Outreach Training for General Industry course provides students with a basic safety and health knowledge to include OSHA policies, procedures, and standards. Special emphasis is placed on those areas that are most hazardous. Upon completion of this course, a wallet card will be issued certifying that the student has completed 10 hours of OSHA training for General Industry.</p>
\$250.00	OSHA 30 for General Industry	OSHA-30-GI	<p><b>(Prerequisite: None)</b></p> <p>The OSHA 30-hour Outreach Training for the Construction Industry course provides students with a basic safety and health knowledge to include OSHA policies, procedures, and standards. Special emphasis is placed on those areas that are most hazardous. Upon completion of this course, a wallet card will be issued certifying that the student has completed 30 hours of OSHA training for General Industry.</p>
\$150.00	STI Scaffold User	Scaf-U	<p>A 4 to 6-hour course for certification from the Scaffold Training Institute for anyone who performs work on a scaffold, as mandated by OSHA regulations.</p> <p><b>(5-year certification)</b></p>
\$450.00	STI Scaffold Inspector	SCAF-I	<p>A 24-hour course for certification as a Scaffold Inspector through the Scaffold Training Institute, specifically for Fabricated Frame, Tube and Clamp and System scaffolds as mandated by OSHA regulations. <b>Those completing this course are also certified as a "User".</b></p> <p><b>(5-year certification)</b></p>
\$600.00	STI Scaffold Builder	SCAF-B	<p>This 24-hour course for certification as a Scaffold Builder through the Scaffold Training Institute. <b><u>Hands-on exercises</u></b> are conducted where all students must rig down, inspect and then reconstruct a Fabricated Frame, Tube and Clamp and System scaffold(s) as mandated by OSHA regulations. <b>Those completing this course are also certified as a "User" and "Inspector".</b></p> <p><b>(5-year certification)</b></p>
\$100.00	Excavation Awareness	ExcTr-A	<p>This 2-3 hour course from National Trench Safety provides general safety training to those who may enter an excavation or trench to conduct work, yet is</p>

			not designated as a Competent Person <b>(3-year certification)</b>
\$300.00	Excavation Safety Competent Person Ready	ExcTr – CP	This 8-hour course from National Trench Safety provides training sufficient for designation as a Competent Person regarding excavation and trench operations <b>(3-year certification)</b>
\$200.00	Veriforce Safeland / Safe Gulf	SL/SG – 2021	Veriforce's SafeLandUSA™ 2021 Basic is a one-day safety orientation that is accredited by SafeGulf and SafeLandUSA. This orientation provides general safety information that workers need to know before entering a company facility and while performing their assigned work duties. Students will learn about hazards they may encounter in their workplace and become familiar with various practices to mitigate those hazards.
\$100.00	Safeland Basic Review	SL-REVIEW	PEC Basic Review is a 4 – hour safety orientation that is the “Refresher” of the PEC Basic Orientation course content. PEC Basic Review refreshes general safety information that workers need to know before entering a company facility and while performing their assigned work duties. Students will be reminded about hazards they may encounter in their workplace and become familiar with various practices to mitigate those hazards. Students will also re-gain understanding of their rights under OSHA and how those rights apply to their workplace.
\$200.00	Veriforce Safe Driver Course	PEC – SafDrv	Veriforce's Safe Driver course combines four hours of instructor-led classroom instruction with a hands-on application component to equip oil and gas industry drivers with the knowledge and skills to operate vehicles safely in challenging environments.
\$50.00	Veriforce H2S Clear	H2S-Clear	This 4-hour course offers a high-quality, instructor-led, comprehensive, and accredited H2S awareness program tailored to the specific hazards of working in an identified at-risk hydrogen sulfide area.
\$100.00	H2S Certification	ASSP-H2S	A 4-hour course that completes all training requirement of the ANSI Z390 Hydrogen Sulfide Training standards for actual certification in hydrogen sulfide. <b>(1 year certification)</b>
\$750.00	H2S Instructor	ASSP-H2S- Inst	This course prepares candidates as instructors to conduct hydrogen sulfide training. Teaching methodologies, the biology of H2S plus all training requirement of the ANSI Z390 for Instructor certification are met. Prerequisites through an application process must be satisfied before

			acceptance as an instructor candidate is made. Class is instructed by a Certified H2S Master Trainer. <b>(3-year certification).</b>
\$500.00	H2S Instructor Recertification	ASSP-H2Sinst-RECERT	A 8-hour recertification course for those holding a valid H2S Instructor certification and wish to recertify as an H2S Instructor. This does not include Veriforce H2S Clear Instructor certification. <b>(3-year certification)</b>
\$100.00	HSI First Aid / CPR / AED	HSI-FA	A 4-hour class where students to gain or improve knowledge and skill proficiency on first, aid, CPR and AED. This course conforms with the 2020 American Heart Association Guidelines updates for CPR and ECC and the annual Guidelines Updates. <b>(3-year certification)</b>
\$500.00	HSI First Aid / CPR / AED Instructor	HSI-FA-Inst	A comprehensive course where candidates become a certified Instructor through the Health and Safety Institute in first aid, CPR and AED. Prerequisites through an application process must be satisfied before acceptance as an instructor candidate is made. Class is instructed by a Certified HSI Instructor Trainer.
\$200.00	Basin United Worker	BU-W	The program will use virtual reality, videos, and interactive sessions to explore life-saving actions and the responsibilities that each individual has as a safety leader. Participants will leave the course more confident and educated in recognizing deadly hazards on worksites. By building core leadership skills, participants will be empowered to speak up to protect themselves and their co-workers from significant injury or death.
\$250.00	Basin United Leadership	BU-L	The course will use interactive sessions and multimedia to help supervisors practice their leadership skills in order to build and sustain a healthy safety culture and awareness of life-saving actions at their worksites. Participants will be educated on advanced leadership principles and human performance. They will be empowered to become transformative leaders within their organization, with relentless focus on protecting their workers from significant injury or death.

# Rescue Classes

Rescue and Working at Heights Courses require a minimum of 4 candidates and no more than 12, all of who must meet the following requirements:

- be 18 years of age or older,
- weigh between 130-310 pounds,
- be physically fit sufficient to perform assigned tasks while working from rope systems,
- have a distinct aptitude for working at heights, and
- be able to fully communicate directly with the instructor without translation.

Price per Person	Course Title	Course Code	Course Description
\$250.00	Industrial Rope Rescue Awareness Level	IRRT-A	<p><b>(Prerequisite: None)</b></p> <p>This 20-hour course covers the familiarity of industrial rescue equipment, the need for rescue services and enables the rescuer to assist other rescuers in the operation of lowering and haul systems, including mechanical advantage systems. Two Rope Systems are built and basic lowering and rappelling skills on multiple devices are covered.</p>
\$250.00	Industrial Rope Rescue Operations Level	IRRT-O	<p><b>(Prerequisite: Valid IRRT-A)</b></p> <p>This 20-hour course covers the two-rope rescue system, including fixed rope, top and bottom rope belay systems, redirecting anchors, pickoffs, mechanical advantage systems, ascending and descending past knots, mid-line transfers (aid climb rescues), patient packaging and troubleshooting on ropes.</p>
\$250.00	Industrial Rope Rescue Technician Level	IRRT-T	<p><b>(Prerequisite: Valid IRRT-2)</b></p> <p>This 20-hour course covers the construction and utilizing of horizontal and diagonal (Tyrolean and Telfer) tension line systems, Skate Block systems and deviations from Tension Lines. Tripod and A-Frame Operations are included.</p>
\$650.00	Industrial Rope Rescue Technician Level	IRRT-50	<p><b>(Prerequisites: None)</b></p> <p>A 50-hour course encompassing the skills of Levels 1, 2 and 3 into a single class.</p>
\$325.00	Industrial Rope Rescue Recertification	IRRT-50-RECERT	<p>A 20-hour recertification course for those who have a <b>valid</b> IRRT-50 certification through Rescue Training International.</p>
\$250.00	Permit Required Confined Space Horizontal Rescue Only	PRCS-R-HRO	<p><b>(Prerequisites: None)</b></p> <p>This 20-hour course is designed for the planning, hazard mediation and execution of confined space rescues in horizontal oriented entries. No vertical rigging is conducted.</p>
\$375.00	Permit Required Confined Space	PRCS-R-30	<p><b>(Prerequisites: None)</b></p> <p>This 30-hour course is designed for the planning, hazard</p>

	<b>Rescue Operations Level</b>		mediation and execution of confined space rescues in horizontal and vertical vessels.
<b>\$650.00</b>	<b>Permit Required Confined Space Rescue Technician Level</b>	<b>PRCS-R-50</b>	<p><b>(Prerequisites: None)</b></p> <p>This 50-hour course covers modules in horizontal and operations leveled course, but adds knots, hitches, diagonal tension lines, skate and heel block systems and more advanced raising and lowering systems.</p>
<b>\$1,000.00</b>	<b>Working at Heights</b>	<b>WaH-50</b>	<p><b>(Prerequisite: IRRT-50)</b></p> <p>A 50-hour course designed for those who may work at heights for painting, inspections, installations and other work assignments while on rope systems, and includes rescue techniques of a suspended person. Two Rope Systems, JSA / Risk Assessments, Ascending, Descending, Re-Belay, Deviations and Rope to Rope Transfers and Pickoffs of a Suspended Person. On the final day, very strict skills evaluations are completed based on scenario instructions given by the instructor. <b>This course does not include Swing Stage systems nor teach a trade, but the rope systems that are needed to perform the task.</b></p>
<b>\$250.00</b>	<b>Window Washer Technician</b>	<b>WWT-20</b>	<p><b>(Prerequisite – WaH-50 or ITTR-50)</b></p> <p>A 20-hour course from Rescue Training International for those who may provide cleaning and maintenance services while working at heights. This course only certifies the student specifically for window washing assignments.</p>
